

THE DIETETIC USE OF ALKALIES. The Editor of the N. Y. Tribune...

There are two ways in which the dietetic use of the alkalies, soda and potash, prove injurious...

It is under this head, and to this particular point that my former remarks were mainly applicable...

Even when we use saleratus in such proportions and combinations as to effect a neutralization in the stomach or duodenum...

Now, the greater, and probably more severe and more fatal effects of all these substances...

It is claimed, as we have already seen, by the soda-saleratus makers...

It is claimed, as we have already seen, by the soda-saleratus makers...

for the "Lord" himself, without any saleratus...

One word more in relation to these poisons, and I shall have done...
