We extract the following from a journal at the niege of Selission, published by the Pa-ris Constitutionel. It is under the date of the 2716 นี้มีmo :

The best shots in the various corps' provi-The best should in the various corps provi-ded with titles, have been collected into two volunties companies, and the address of these men often puls, a stop to the, Russian batte-ries. However, they have still to pick off, as they say, te Monsieur au paletot blanc. The following is the explanation of that phrase. The person in question is an sma-ture of the address perhaps, who every day. teur, an old soldier, perhaps, who every day, at some undetermined hour, advances in front of the fortifications, with a piece of cannon, drawn by men; be has it placed in battery by his stiendants, giving himself the plea-sure of firing it off himself. He ordinarily plants his teht hot far from the gun, and after each shot he withdraws to it for about ten minutes, probably to amoke a cigar and dright a glass of brandy ; and then, when the piece is again charged, he comes out and fires and place every day, and lasts an hour or two .--There is no conceivable pleasantry that our sharpshooters do not amuse themselves, with relative to this white paletot. It appears that he has a number of damestics, for the sharp-shooters have already killed about filly of his attendants, and new ones always present themselves. Some of the Zouaves pretend that the greatest number of these persons are only clay figures, which the master pulls down with a piece of string when they fire But, in the end, he will himself be caught.

DEBT.-Blessed is he who can slap his breeches pocket in the face of the world, and triumphantly exclaim - " Behold,' ye good people | Lo, ye heavily-laden debtors ! come and look upon a man-a being like unto yourselves-who owes not a dollar !" We would travel far in see such a creature ; we would contribute liberally towards providing a glass case in which his embalmed remains should be preserved after death, as a sacred relic for posterity-a specimen of a species almost extinet in the nineteenth century-the cash philosopher ! Him no duns can harrass, nor the approach of inevitable pay day disturb. His substance no voracious lawyer can de vour nor their ruthless myrmidons seize upon. He is securely armed in specie, smiles at the dread sheriff, and defies his power .--He is cheerful even on the awful eve of quarter day. He alone is the free citizen-only he can feel truly independent ! Happy mortal !- New York Sunday Times.

GREAT, TIMES IN MINESOTA TERRITORY. The "Governor" of Minesota is in a fix. On the assembling of the Legislature, Gov. Gorman refused to deliver his message, for the reason, as we supposed, that the constitution made it obligatory immediately thereafter to elect a public printer, and the choice of the members, it was understood, was in favor of a paper opposed to his excellency. Subsequently he consented to send in his message, and then the Legislature declined to receive it on the supposed ground that they are expecting a new Governor along to take Gov. Gorman's place. His message however has leaked out and been printed in all the papers, while up to the 17th it had not been delivered officially. Among his other troubles, we notice Gov. Gorman had been arrested for assault and battery.-Harrisburg Herald.

In the treatment of Seminal weak ness, or disarrangement of the functions produced by selfabuse or excessive venery, I do not know his superior in the profession. I have been acquainted with the author some thirty years, and deem it no more than justice to him as well as kindness to the unfortunate victim of early indiscretion, to recom mend him as one in whose professional skill and in tegrity they may safely confide themselves, ALFRED WOODWARD, M. "This is, without exception, the most comprehen-sive and intelligible work published on the classes of diseases of which it treats. Avoiding all technical torms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, can object to placing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and with too little breath io puff and too little presumption to impose, he has offered to the world at the merely nominal price of 25 cents, the fruit of some twenty years' most successful practice. -Herald.

A Presbyterian clergyman in Ohio, writing of "Hunter's Medical Manual" says -- "Thousands pon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollution without realizing the sin and fearful consequences upon themselves and posterity The constitutions of thousands who are raising families have been enfeebled, if not broken down, and they do not know the cause or cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide spread source of human wretchedeess would confer the greatest blessing next to the relig ion of Jesus Christ, ou the present and coming gen eration. FAMILY PHYSIC.

THERE has long existed a public demand for an affective purpartive pill, which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an exten-sive and perfect has conclusively shown with whit functees if a compliance the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pille---one which should have none of the objections, but all the advantages, of svery other. This has been attempted here; and with what success we would respectfully submit to the piblic decision. It has been unfortunate for the pittient hitherto that almost every purgative medicine is acrimenious and irritating to the bow-els. This is not. Many of them produces to more than counterbalance the good to be derived from them. These pills produce no hritistion or pain, unless it arise from a previously existing obstructo san wiright bag tore than conterbalance the good to be deflyed from them. These pills produce no initiation or pain, unless it arise from a proviously existing obstruc-tion or darangement in the bowels. Being purely vegetable, no harm can alise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are ap-plicable are given on the box. Among the com-plaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indirection. imay meniion Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Ap-piette, Lästissiness, Irritability, Billous Headache, Billouis Fever, Fever and Ague, Pain in the Side and Loins; for, for tritth, all these are but the con-sequence of diseased action in the liver. As an aperient they afford prompt and sure relief in Cos-tiveness, Files, Colic, Dysentery, Humon, Scrof-ula and Scurvy, Colds with soreness of the body, Ulcirs' and Smurrie a gureative is required. It and Scarry, Colas with Soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required. They have also produced some singularly inc-cessful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation. of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appe-tite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, reno-vate the strongth of the body, and restore the wasted or disensed energies of the whole organism. Hence an occasional dose is advantageous, even though no scrious derangement exists; but un-neccessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will

a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity. For minute directions see wrapper on the Box.

CONSUMPTION. THIS remedy has won for itself such actoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evi-dences of its virtues in any community where it has been employed. So wide is the field of its use-fulness, and so numerous the cases of its cures, that almost every section of the country abounds in porsone publicly known, who have-been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too appa-rent to escape observation, and where its virtues are known, the public no longer hesitate what sanidoto to employ for the distressing and dangerous affec-tions of the pulmonary organs which are incident to our climate. And not only in formidable at-tacks upon the lungs, but for the milder varieties of COLDS, COUGHS, HOARBENESS, &c.; and for CHILDREN it is the pleasantest and safest medicine that can be obtained. CANE AND COMMON CHAIRS,

Perpetual Motion Discovered

at Last. THE subscriber having been appointed agent by S. W. Paine for the sale of the Ross & Peck Improved Direct Action Water Wheels, would say to the owners of Saw Mills in Tioga county, that he is ready to furthish the above mentioned Water Wheel at Wellsboro', at any time aiter this date, on the most reasonable terms.

These Wheels are warranted to do the best business with the least quantity of water of any Wheel in use, (except an Overshot.)

The great advantages of these wheels over all others is the manner in which the water is applied to the wheel, is such that there cannot be any waste of water, the gates or sheets regulating the quantity. The gate is so constructed that it shuts almost perfeelly tight. Quantity of water required under eight feet head, 130 square inches, under 20 feet head, 50 inches; all heads between these in pro-portion. All wheels warranted to perform according to recommendation, if they do not we take them nut and replace the old wheels. No Wheels pa onder less than eight feet head. D. B. WILCOX. Wollsborough, July 13, 1854.
