Republican State Convention. We are glad to learn that the friends of Freedom in different parts of Pennsylvania are awakening to the importance of speedily effecting the organization of a Republian party throughout the State.

The success of the Republicans in other States, wherever they have organized, has been most remarkable, and demonstrates the determination of the people to effect a reformation in the politics of the country. The among the people of Pennsylvania, and there is little doubt that the friends of Freedom, if firmly united and acting in concert, can hereafter control the State. But while they remain in their present unorganized condition, like sheep without a shepherd, they will contique liable to become the prey of corrupt politicians, as has heretofore so often befallen them. The people must take the control of State affairs into their own hands, more directly than they have done, if they ever expect to see the government either of the State or Nation properly administered. It is folly to sit still and complain that trading politicians rule the State. The people have the power to make it otherwise, unless our boasted right of self-government is an empty mockery. And the present indications are that power will be exercised by the great mass of Northern freemen. They have remained quiet, submitting without much opposition to the dictation of party leaders, tilcertain interests, powerful not so much by reason of their numerical strength, as of their perfect organization and unity of action, have acquired a dangerous preponderance in the government of the country. It is not the number or real strength of the slaveholders that has for half a century given them the control of the Cabinets and Congress and Supreme Courts of the nation; it is the boldness of their demands and the unity of their action, together with the guilty connivance o' Northern' doughfaces, and the guilty sumineness of the Northern people. It is not the number of the Pope's minions in this country that makes them dangerous to our tree institutions, so much as their perfect organization, the doctrines they inculcate concerning forms of government and education, and the influence they have been permitted ic wield in elevating men of their own selection to office. These two organizations, which may be not inappropriately designated as the Savery interest and the Jesuit interest, now from the chief strength of what is called the Democratic party Both being opposed to the true genius of our Republican instituions, they are naturally found acting in concert, and their united strength has enabled them to carry out measures the most repugnant to the great body of enlightened North err treemet.

The people have at last been aroused from their maction, and the elections since the passage of the Nebraska bill, have demonstratec that there is a Free North. Now, let the men who have triumphed so gloriously organize in every Free State, on the ground e "opposition to every species of despotism over the minds and bodies of men," and they w." constitute a party that will be invincible. a the movement for effecting such an organizition for Pennsylvania, Susquehanna Co. w no: be backward. When the Free-Soi met of this county took the initiative in four. I and selects from the large and splendid assortment and the Republican party here, it was done for can a conviction that such a party must sangthen that conviction. The organization is met the warm approva; of the Free-Soil ir here, and can to-day poll a tasge major-: o the roles of the county. Let the Rewarran party of Pennsylvania be organized. un in a right speedily .-- Montrose Republi.

Mrs. Rubyn and daughter will give one of their. Grand Musical Entertainments this Evening. I consider their singing equal, if not better than all other singers that are now in America. Miss Rubyn is considered a splendid player upon the Guitar. It is advisable to secure seats early, as the house will probably be crowded. CHERRY PECTORAL

THIS remedy is offered to the community with the confidence we feel in an article which seldom fails to realize the happiest effects that can be desired. So wide is the field of its usefulness and so numerous the cases of its cures, that almost every section of the country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. When once tried its superiority over every other medicine of its kind, is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidute to employ for the distressing and dangerous affections of the pulmo-

nary organs, which are incident to our climate.

Nothing has called louder for the earnest enquiry
of medical men, than the alarming prevalence and fatality of consumptive complaints, nor has any one class of diseases had more of their investigations and care. But as yet no adequate remedy has been provided, on which the public could depend for protection from attacks upon the respiratory organs, un-till the introduction of the CHERRY PECTORAL. This article is the product of a long, laborious, and I believe successful endeavor, to furnish the community with such a remedy. Of this last statement the American people are now themselves prepared to judge, and I appeal with confidence to their decision. If there is any dependance to be placed in what men of every class and station certify it has done for them if we can trust our own sonses, when we see dan-gerous affections of the throat and lungs yield to it. we can depend on the assurance of intelligent physicians, who make it theif business to know,—in short, if there is any reliance upon anything, then is it irrefutably proven that this medicine does relieve and does cure the class of diseases it is designed for, beyond any and all others that are knowto mankind. If this be true, it cannot be too freely published, nor be to widely known. The afflicted should know it. A remedy that cures, is priceless to them. Parents should know it, their children are riceless to them. All should know it, for health can can be priced to no one. Not only should it be circulated here, but everywhere, not only in this country but in all countries. How faithfully we have acted on this conviction, is shown in the fact that already this article has made the circles of the globe. The sun never sets on its limits. No continent is without it, and but few peoples. Although not in so general use in other nations as in this, it is coupleyed by the more intelligent in almost all civilized countries. It is extensively coupleyed in both Amerrations of its kind, it is an expensive composition of costly materials. Still it is afforded to the public at a reasonably low price, and what is of vastly more importance to them, its quality is never suffered to decline from its original standard of excellence. Every bottle of this medicine, now manufactured, is as good as ever has been made heretofore, or as we are capable of making. No toil or cost is spared, in maintaining it in the best perfection which it is pos-sible to produce. Hence the patient who procures the genuine CHERRY PECTORAL, can rely on having as good an article as has ever been had by those who testify to its cures.

By pursuing this course, I have the hope of doing

ome good in the world, as well as the satisfaction of believing that much has been done already. Prepared by J. C. AYER, Practical and

PRIVATE MEDICAL COMPANION. BY DR. A. M. MAURICEAU, PROTESOL OF IMPRISES OF WOMEN. One Hundredth Edition, (500,000), 18mo., pp. 250. [ON FIRE PARKE, KITEL ENDING, \$1.00.]

A standard work of established repulation, found classed in the catelogues of the great trade sales in New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States. It was first published in 1847, since which time

FIVE HUNDRED THOUSAND COPIES have been sold, of which there were upwards of ONE HUNDRED THOUSAND SENT BY MAIL.

attesting the high estimation in which it is held as a re-liable popular Medical BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter!

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for her complaints. The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all

the peculiarities incident to her situation are described. How many are suffering from obstructions or irregular-Ities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb), or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confinement Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the

means of prevention, amelioration and relief. It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. Reader, are you a husband or a father? a wife or a

mother? Have you the sincers welfare of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sicepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of your children.

In consequence of the universal popularity of the work, as ovidenced by its extraordinary sale, various importions have been attempted, as well on booksellers as on the public, by imitations of title page, spurious editions, and surreptitious infragements of copyright, and other devices and deceptions, it has been found necessary, therefore, to
