GREETING: The undersigned, citizens of Wellsboro'. Tioga county, Pa., having become the proprietors of one of the greatest Labor-Saving Machines of the Age, would respectfully inform the "Lady public" that they are prepared to show the falsity of the old song—

"Scold, scold, fret, fret,

"Scold, scold, fret, fret,
Scold, scold away
There is nae luck about the house
Upon a washing day."
For their new Machine, combining cheipness and
economy of room with ease and effectiveness of operation, renders the washing for a large family only
a pleasant recreation. This Machine is different
from any ever before offered to the public. from any ever before offered to the public, requiring little labor to work it, and doing a large washing in one-third of the time that it can be done in the old

way, and equally as well.

The work is performed by the friction of wooden balls floating in the water in which the clothes are batis noting in the water in which the counts are worked by a lever. This machine does its work without injury to clothes, and so perfectly, that a dress may be washed without taking out the stays. Call and examine them at Sturrock's Cabinet Shop

COUCHS, COLDS, HOARSENESS, BRON-CHITIS, CROUP, ASTRMA, WHOOP-INC COUCH AND CONSUMPTION.

THIS remedy is offered to the community with the confidence we feel in an article which seldom fails to realize the happiest effects that can be desired. So wide is the field of its neefulness and so numerous the cases of its cures, that almost every section of the country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. When once tried its superiority over every other medicine of its kind, is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmo-

nary organs, which are incident to our climate.

Nothing has called louder for the earnest enquiry
of medical men, than the alarming prevalence and
fatality of conumptive complaints, nor has any one
class of diseases had more of their investigations and care. But as yet no adequate remedy has been provided, on which the public could depend for protection from attacks upon the respiratory organs, un-till the introduction of the CHERRY PECTORAL. This article is the product of a long, laborious, and believe successful endeavor, to furnish the commuaity with such a remedy. Of this last statement the American people are now themselves prepared to judge, and I appeal with confidence to their decision. If there is any dependance to be placed in what men of every class and station certify it has done for them, if we can trust our own senses, when we see dan-gerous affections of the throat and lungs yield to it, we can depend on the assurance of intelligent physicians, who make it theif business to know, in short, if there is any reliance upon anything, then is it irrefutably proven that this medicine does re-lieve and does cure the class of diseases it is designed for, beyond any and all others that are know-to mankind. If this be true, it cannot be too freely published, nor be to widely known. The afflicted should know it. A remedy that cures, is priceless to them. Parents should know it, their children are riceless to them. All should know it, for health can can be priced to no one. Not only should it be circulated here, but everywhere, not only in this coun try but in all countries. How faithfully we have acted on this conviction, is shown in the fact that already this article has made the circles of the globe. The sun never sets on its limits. No continent is without it, and but few peoples. Although not in so general use in other nations as in this, it is employed by the more intelligent in almost all civilized countries. It is extensively employed in both America. in Europe, Asia, Africa, Australia and the far off islands of the sea. Life is as dear to its [possessors there as here, and they grasp at a valuable remedy with even more avidity. Unlike most preparations of its kind, it is an expensive composition of costly materials. Still it is afforded to the public at a reasonably low price, and what is of vasily more importance to them, its quality is never suffered to decline from its original standard of excellence. Every bottle of this medicine, now manufactured, is as good as ever has been made heretofore, or as as as good as ever has been made heretofore, or as as are capable of making. No toil or cost is spared, in maintaining it in the best perfection which it is possible to produce. Hence the patient who procures the genuine CHERRY PECTORAL, can rely on having as good an article as has ever been had by those

who testify to its cures. By pursuing this course, I have the hope of doing some good in the world, as well as the satisfaction of believing that much has been done already. Propared by J. C. AYEB, Practical and Analytical Chemist Lowell, Mass.

STARTLING, BUT TRUE! WHAT EVERY WOMAN SHOULD KROW.

How often it happens, that the wife lingers from year to year in that pitiable condition as not even for one day to feel the happy and arbitarating influence incident to the enjoyment of health.

THE BLOOMING BRIDE

But a few years ago in the finns of Besitis and youth, and busyansy of spinity, rapidly, and apparently in explicably, becomes a feeble, sinkly, sallow, debill-tated wife, with frame smachated, northe unstrung, spirits depressed, countenance, bearing the impress of suffering, and an utter physical and mental programments, arriving from ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often unburning and misery, not only to the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN " UNTO THE THIRD AND FOURTH GENERATION,"

"And must this chalinus? Must this be? Is there no remedy? No relief? No hope?"

The remedy is by knowing the causes and avaiding them, and inposing the remedies, and benefiting by them. These are pointed out in THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION.

attenting the high estimation in which it is held as a re-liable popular Medical BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with these described, the nature, character, causes of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all

the peculiarities incident to her situation are described. How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapses wier's (falling of the womb), or from fluor albus (weakness, debility, &c.) Many are in constant agony for many months preceding confinement. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the

means of prevention, amelioration and relief. It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfare of those you love at heart? Prove your sincerity, and lose no time in searning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of
