'Man, know thyself!"

DR. HUNTER'S Medical Manual, and Hand Book for the Afflicted-Containing an outline of the origin, progress, treatment and cure of every form of discuse contracted by promiscuous sexual intercourse, by self-abuse or by sexual excess, with advice for their prevention, written in a familiar style, avoiding all medical technicalities and everything that would offend the ear of decency; with an outline of complaints incident to females, from the result of twenty years' successful practice, exclusively dexoted to the cure of diseases of a delicate or pri-

To which is added receipts for the cure of the above diseases, and a treatise on the causes, symptoms and cure of the FEVER and AGUE.

Testimony of the Professor of Obstetrics in the Penn Medical College, Philadelphia — DR. HUN-TER'S MEDICAL MANUAL." — The author of his work, unlike the majority of those who advertise to cure the diseases of which it treats is a graduate of one of the best Colleges in the United States It affords me pleasure to recommend him to the un fortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose hono and integrity they may place the greatest confidence Jos. S. Longshore, M. D.

From A. Woodward, M. D., of Penn University Philadelphia.—It gives me pleasure to add my testi many to the professional ability of the author of th Medical Munual. Numerous cases of Disease 70 the Genital Organs, some of them of long standing have come under my notice, in which his skill has been manifest in restoring to perfect health in some cases where the patient has been considered beyond medical aid. In the treatment of Seminal weakness, or disarrangement of the functions produced by self-abuse or excessive venery, I do not know his superior in the profession. I have been nequainted. with the author some thirty years, and deem it no more than justice to him as well as kindness to the unfortunate victim of early indiscretion, to recommend him as one in whose professional skill and in tegrity they may safely confide themselves, ALFRED WOODWARD, M. D.

"This is, without exception, the most comprehensive and intelligible work published on the classes of discases of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, can object to placing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and with too little breath io puff and too little presumption to impose, he has offered to the world at the merely nominal price of 25 cents, the fruit of some twenty years' most successful practice.

"No teacher or parent should be knowlede imparted in this valuable work. It would save years of pain and mortification and sorrow to the youth un der their charge."-Peoples' Advocate.

A Presbyterian clergyman in Ohio, writing of "Hunter's Medical Manual" says — "Thousands upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollution without realizing the sin and fearful consequences upon themselves and posterity The constitutions of thousands who are raising fauilies have been enfecbled, if not broken down, and they do not know the cause or cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide apread source of human wretchedeess, would confer the greatest blessing next to the religion of Jesus Christ, ou the present and coming gen eration. Intemperance (or the use of intoxicuting drinks) though it has slain thousands upon thouanda, is not a greater scourge to the human race.

Accept my thanks on behalf of the afflicted, and beyour co-worker in the good work you are so actively engaged in."

to For the Cure of ... COUCHS, COLDS, HOARSENESS, BRON-CHITIS, CROUP, ASTHMA, WHOOP-ING COUGH AND CONSUMPTION.

THIS remedy is offered to the community with the confidence we feel in an article which seldom fails to realize the happiest effects that can be desired. So wide is the field of its usefulness and so numerous the cases of its cures, that almost every section of the country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. When once tried its superiority over every other medicine of its kind, is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmo

or nary organs, which are incident to our climate.

Nothing has called londer for the carnest enquiry of medical men, than the alarming prevalence and fatality of consumptive complaints, nor has any one class of diseases had more of their investigations and care. But as yet no adequate remedy has been provided, on which the public could depend for pro-tection from attacks upon the respiratory organs, un-till the introduction of the CHERRY PECTORAL. This article is the product of a long, laborious, and I believe successful ondeavor, to furnish the community with such a remedy. Of this last statement the American people are now themselves prepared to judge, and I appeal with confidence to their decision If there is any dependance to be placed in what men of every class and station certify it has done for them, if we can trust our own senses, when we see dan-gerous affections of the throat and lungs yield to it, if we can depend on the assurance of intelligent physicians, who make it theif business to know,—i short, if there is any reliance upon anything, then is it irrefutably proven that this medicine does re-lieve and does cure the class of diseases it is designed for, beyond any and all others that are know-to mankind. If this be true, it cannot be too freely published, nor be to widely known. The afflicted should know it. A remedy that cures, is priceless to them. Parents should know it, their children are riceless to them. All should know it, for health can can be priced to no one. Not only should it be circulated nere, but everywhere, not only in this coun try but in all countries. How faithfully we have acted on this conviction, is shown in the fact that already this article has made the circles of the globe The sun never sets on its limits. No continent is without it, and but few peoples. Although not in so general use in other nations as in this, it is employ ed by the more intelligent in almost all civilized countries. It is extensively employed in both America, in Europe, Asia, Africa, Australia and the far off islands of the sea. Life is as dear to its possessors there as here, and they grasp at a valuable re medy with even more avidity. Unlike most prepared rations of its kind, it is an expensive composition of costly materials. Still it is afforded to the public at a reasonably low price, and what is of vastly more importance to them, its quality is never suffered to decline from its original standard of excellence. Every bottle of this medicine, now manufactured, is as good as ever has been made heretofore, or as we are capable of making. No toil or cost is spared, in maintaining it in the best perfection which it is possible to produce. Hence the patient who procures the genuine CHERRY PECTORAL, can rely on having as good an article as has ever been had by those who testify to its curcs.

By pursuing this course, I have the hope of doing

some good in the world, as well as the satisfaction of believing that much has been done already. Prepared by J. C. AYER, Practical and Analytical Chemist Lowell, Mass.

Sold By ROBERT ROY, Wellsborough; B. BARSE; Barseville; E. Dyen, Covington; Dr. Hum-PHREY, Tioga, and by Druggists everywhere. March 22, 1855 .- 4m.
