## Americanism.

We have to thank a friend, who just now hails from Kentucky, for a copy of the American Sentinel, published at Covington, in that State. We may the liberties of the people the people must pro- | safely say that this paper is one of the fiercest K. N. organs, North or South. From it we learn many things relative to the Southern objects of the American party, and the hopes entertained by its leaders. Judging of the organization as it exists there, the anti-Slavery man could not speak of it in other than terms of angualified condemnation. Happily for the country it has two faces-one for the North and another for the South-like certain politicians.

The groat danger that threatened the cause of Freedom from this quarter, is happily everted at least for the present. Tho good it strove to reach-Nationality-is as far from it de ever. #### Kansas Election.

The public are by this time pretty well informed in relation to the disgraceful scenes which transpired in Kansas at the late election. The people of Pennsylvania, we abprehend, are ununimous in their abbottence of anything which looks to interference with their sacred right of choosing their own rulers, according to law, or of any corruption Eric Gazette. The people of Pennsylvania are anxiously ooking to see what course the National government will purefle in this matter: Whether they will vindicate the doctrine of "popular sovereignty," under the control and direction law, or whether it shall be trampled down in the first election in a tetritory formed to to the first election in a territory formed to We must that in thus speaking we shall carry it out, and no remedy be found to not be accused of sinister or selfish motives reach the case. # Country Newspapers.

The following well timed remarks in regard to country newspapers we clip from the Erie Gazette. Although written in and in-

"We learn that the North East Guard has should start a paper anywhere, we yet regret that so many engage in the business thoughtlessly and without seeming to be aware of the cost to which they unavoidably subject themselves. In the counties of Erie, Chatauque and Crawford, particularly the newspaper publishing munia has had full sweep, accompanied by the losses and disappointments usual in such cases. The truth is, that if half the money that is frittered away in spasmodic efforts to start a new paper and rejuvenate old ones, was concentrated upon two, or three, or four papers in the country, most establishments would stand erect, unembarrassed by pecuniary pressures, a credit to the country, the pride of their patrons, a source of granfication to their publishers, affording a fair teturn for the cares, perplosities and uncea-

We are influenced by no such motives-we cherish no such desire - our wish rather is, to have every vacant place filled, every want supplied, but not, as in the case under discussion, over-supplied. For all such as would ascribe to us improper motives and inordinate desires, we have the same full store of pity we have for those who are periodically atacked with the popular error that the printing of a weekly newspaper at one dollar a year, is a paying business per se, and that every little village in our not thickly populas ted County can sustain and support a paper of its own, mainly from the patronage of its own, mainly from the patr ence-EXPERIENCE. We see by the Court Records, that the two counterfeifers, White of Boffalo, and Lawrence, of Epping, N. If the Law should peotest men from imposition at all, it should certainly protect them from be: ing imposed upon by a worthless counterfeit of such a medicine as Ayer's Cherry Pectoral. We can only complain that the punishmeht is not half enough.
