This success has advanced us at one bound 150 yards toward the Central Bastion, and has produced a great influence on the spirit of the two armies.

Open Organization of the American Party.

Much has been said and written on the subject of an open organization of this great party. I confess it is one which is surrounded with many difficulties. The writer is opposed almost as much as any one can be to secret organizations of any Kind; and vef he finds it to exist everywhere, both religiously and politically. If I attempt to unite with any association of any sori, I am met in some branch of his discipline with more or less of secresy. I do not therefore clearly comprehend what is meant or understood by open organization. The great strength and power of this new organization consists, as far as I understand it, in its inside obligations. In order to secure strength and confidence, men must come under suitable, proper, or consistent responsibilities, which must not be violated with impunity'.

I do not know that there could be any injury to result from an open decleration of principle; but the manner or mode of carrying them out should be left to closer regulations. Anything else than this would place the Know-Nothing Order precisely in the position of all other political associations, secret where deemed expedient; but without obligation, and leaving its members at liberty to vote just in proportion, or agreement, with principle according to interest, or as prejudice, likes, or dislike would dictate. Everybody knows that political prejudice, like all others, are hard to overcome. A Democrat would not vote for a Whig in many instances; no sooner than he would vote for one of his most deadly enemies; and the same may be said of Whigs. But under the present system of organization, all parties or persons, who shall be found in favor of their great leading principles, can fraternize with warmth and cordiamy, and go hand in hand in securing ultimate success. As far as the writer can learn, the true features, objects and designs of the present organization is disinterestedness as regards men, of whom the very best are to be selected, for character, ability and fitness for the office, no matter of what grade-so far there are yet no cliques or parties rearing their hydra heads to spend their fury in the destruction of the temple li, therefore, under the proposed open organization, outsiders shall be permitted to come in, then there will be found an open field for self interested men, demagogues, tricksters, disorganizers, and bad men of every sort, who would soon find means to disturb the harmony of design.

The American party can be but one great party, established on the broad and true prin- ; to give the workman a share of the proceeds cipies of the Address of the Father of his country-an open declaration of its distinctive leatures should be published abroad to the world, avowing its entire nationality, without any sectional or local questions whatever -Let the tickets selected be denominated the American ticke. No one need then be deceivec. Every voter who does not choose to estate are requested to make immediate payment, vote such a ballo, you may be sure votes and those having claims will present the same for trom prejudice or political opposition, Phila. The Democracy and the Crisis. There appears to be a disposition in some nuarters to clear the ranks of the Democratic taining about three-fourths of an acre. "A Spring Pill."

A SHE THE PERCENT OF THE PROPERTY OF THE PROPERTY OF THE PROPERTY OF THE PERCENT OF THE PERCENT

The Buffalo Democracy, Wednesday, un der this caption, gives a sensible and timely article in ridicule of the long received notion that every body is "bilious," and needs, clearing out" in the spring. We give the closing paragraph:

ragraph: alimentary canal is fleither an iglemal improvement like the Erie, nor a great sewer like the Michigan street. This important duct cannot be scopred or dredged by medical machinery, without imminent risk of vital injury. They should learn that when they talk about having bile on their stomach. they are talking nonsense for bile is not there and cannot stay there any longer than it can in their eyes. If their livers are deranged in any way, there are plenty of good physicians to prescribe for them, but it is no valid excuse for taking dozens of pills or quarts of oil that their tongues are yellow the morning after a 'pleasant evening' at the club. Tea and toast, with a short walk and a rational indulgence in Nature's gifts, will do better for them than drastics and drenches. They should learn that all drugs are poisons, and to be avoided as such, except when prescribed by men of competent knowledge; and above and beyond all, they should learn that as Providence made man to live through winter as well as summer, spring as well as autumn. He never could have committed so great an error as to constitute us with systems requiring rhubarb, aloes and colocynth, because it snows to-day and will probably ruin tomorrow. He never made such bungling work with man as to lay him under obligations to salts and senna for a sufe transition from February to March.

Give up your spring pills, ye jaundiced mortals; abandon your reliance on blue mass and picra; eat sparingly of proper food; don't abuse your stomachs with unfit grossnees or tempting, delicate poisons; and our word for it, you will never have 'bile on your stomach,' or die for want of a 'good clearing out."

STARTLING, BUT TRUE; WHAT EVERY WOMAN SHOULD KNOW

How often it happens, that the wife lingers from year to year in that pitiable condition as not even for one day to fool the happy and exhibitating influence incident to the enjoyment of health.

THE BLOOMING BRIDE But a few years ago in the flush of health and youth, and duoyancy of spirits, rapidly, and apparently inexplicably, becomes a foeble, sickly, sallow, debilitated wife, with frame amaginted nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an utfor physical and mental prostration, arising from ignorance of the simplest and plainted; rules of health as connected with this marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often mentains have got the trues into the wife, but often HEREDITARY COMPLAINTS UPON THE CHILDREN

" UNTO THE THIRD AND POPETH GENERATION," Transmitting CONSUMPTION, SCROFULA, HYPOCHONDRIAS INSANITY, GOUT, KING'S EVIL, and other and worse Diseases, as a

DREADFUL INHERITANCE FROM THE PARENTS.

"And must this continue? Must this be? Is there no remedy? No relief? No hope?"
The remedy is by knowing the causes and avoiding them, and knowing the beneales, and benefiting by them. These are pointed out in THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION; BY: DR: A! M. MAURICEAU,

PROPESSOR OF DISEASES OF WOKEN. One Hundredth Edition, (500,000), 18mo., pp. 250. [ON FIRE PAPER, EXTILA INDING, \$1.00.]

A standard worse of established reputation, found classed in the catalogues of the great trade sales in New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States. It was first published in 1847, since which time

FIVE HUNDRED THOUSAND COPIES on sold, of which there were unwards of ONE HUNDRED THOUSAND SENT BY MAIL. attesting the high estimation in which it is held as a re-liable popular Medical BOOK FOR EVERY FEMALE the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman an discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints. The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness for-

bids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described. How many are suffering from obstructions or irregular-

ities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb), or from fluor allow (weakness, debility, &c.) Many are in constant agony for many months preceding confinement. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of presention, amelioration and relief.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage. Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfare of those you love at beart? Prove your sincerity, and lose no time in learning what causes interfere with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by steepless nights, incapacitating the mind for its ordinary avocation, and exhausting these means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of ago and the proper education of your children.

In consequence of the universal popularity of the work, as oridonced by its extraordinary sale, various impositions have been attempted, as well on booksellers as on the public, by initiations of title page, spurious editions, and surreptitions infringements of copyright, and other derices and deceptions, it has been found necessary, therefore, to

CAUTION THE PUBLIC to buy no book unless the words "Dr. A. M. MALBICAT, 119 Liberty Street, N. Y.," is on (and the entry in the Clerk's Office on the back of) the title page; and buy only of respectable and houseafted dealers, or send by mail, and address to Dr. A. M. Mauriceau.
