vate nature. Ro, which is added receipts for the cure of the above diseases, and a treatise on the causes, symptoms and cure of the FEVER and AGUE. Twins of the Professor of Observes in the Penn Medical College, Philadelphia—DR. HUN. TER'S MEDICAL MANUAL. The author of his work, unlike the mojority of white who advertise to cure the diseases of which it treats is a gradunte of one of the best Colleges in the United States It affords me pleasure to recommend him to the un fortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose hono and integrity they may place the greatest confidence Jos. S. Longspore, M. D.

From A. Woodward, M. D., of Penn University Philadelphia.—Itigives me pleasure to add my testi mony to the professional ability of the author of the Medical Manual. Numerous cases of Disease to the Genital Organs, some of them of long standing have come under my notice, in which his skill has been manifest in restoring to perfect health in some cuses where the patient has been considered boyond medical aid. In the treatment of Seminal weakness, or disarrangement of the functions produced by self-abuse or excessive venery, I do not know his superior in the profession. I have been acquainted with the author some thirty years, and deem it no more than justice to him as well as kindness to the unfortunate victim of early indiscretion, to recommend him as out in whose professional skill and in legrity they may safely confide themselves,

ALFRED WOODWARD, M, D. "This is, without exception, the most comprehensive and intelligible work published on the classes of discases of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It to free from all objectionable matter, and no parent, however fastidious, can object to placing it in the hands of his sons. The author has devoted mafruit of some twenty years' most successful practice. -Herald.

"No teacher or parent should be knowlede imparted in this, valuable work. It would save years of pain and mortification and sorrow to the youth un

der their charge."-Peoples' Advocate. A Presbyterian clergyman in Ohio, writing of "Hunter's Medical Manual" says—"Thousands upon thousands of our youth, by evil example and nfluence of the passions, have been led into the habit of self-pollution without realizing the sin and scarful consequences upon themselves and posterity The constitutions of thousands who are raising fam. ilies have been enfeebled, if not broken down, and they do not know the cause or cure. Anything that can be done so to enlighten und influence the public mind as to check, and ultimately to remove this wide spread source of human wretchedcess, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generation. Intemperance (or the use of intoxicuting drinks) though it has slain thousands upon thousands, is not a greater scourge to the human race.

Accept my thanks on behalf of the afflicted, and beieve me your co-worker in the good work you are so actively engaged in."

the right for the same and the contract of the contract of the COUCHS, COLDS, HOARSENESS, BRON-CRITIS, CROUROASTRIA, WHOOP-ING COUCH AND CONSUMPTION.

THIS remedy is offered to the community with the confidence we feel in an article, which seldom fails to realize the happiest effects that can be desired. So wide is the field of its usefulness and so numerous the cases of its cures, that almost every section of the country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use When once tried its superlority over every othe medicine of its kind, is too apparent to escape o vation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmo

nary organs, which are incident to our climate.

Nothing has called louder for the carnest enquiry of medical men, then the alarming prevalence and fatality of consumptive complaints, nor has any one class. of diseases had more of their investigations and care. But as yet no adequate remedy has been provided, on which the public could depend for pro tection from attacks upon the respiratory organs, untill the introduction of the CHERRY PECTORAL. This article is the product of a long, laborious; and I believe successful endeavor, to furnish the commu-nity with such a remedy. Of this last statement the American people are now themselves prepared to judge, and I appeal with confidence to their decision If there is any dependance to be placed in what men of every class and station certify it has done for them, if we can trust our own senses, when we see dangerous affections of the throat and lungs yield to it, if we can depend on the assurance of intelligent physicians, who make it theif business to know,short, if there is any reliance upon anything, then is it irrefutably proven that this medicine does re-lieve and does cure the class of diseases it is designed for, beyond any and all others that are know-to mankind. If this be true, it cannot be too freely published, nor be to widely known. The afflicted should know it. A remedy that cures, is priceless to them. Parents should know it, their children are riccless to them. All should know it, for health can can be priced to no one. Not only should it be circulated nere, but everywhere, not only in this coun try but in all countries. How faithfully we have ny years to the treatment of the various complaints treated of, and with too little breath to puff and too little presumption to impose, he has offered to the world at the merely nominal price of 25 cents, the general use in other nations as in this, it is employed by the more intelligent in almost all civilized countries. It is extensively employed in both America, in Europe, Asia, Africa, Australia and the far off islands of the sea. Life is as dear to its possessors there as here, and they grasp at a valuable re medy with even more avidity. Unlike most preparations of its kind, it is an expensive composition of costly materials. Still it is afforded to the public at a reasonably low price, and what is of vastly more importance to them, its quality is never suffered to lecline from its original standard of excellence. Every bottle of this medicine, now manufactured, is as good as ever has been made heretofore, or as we are espable of making. No toil or cost is spared, in maintaining it in the best perfection which it is possible to produce. Hence the patient who procures the genuine CHERRY PECTORAL, can rely on having as good an article as has ever been had by those who testify to its cures.

By pursuing this course, I have the hope of doing | ally made in his line of business. some good in the world, as well as the satisfaction of believing that much has been done already.
