THE TIOGA COUNTY AGITATOR.

Only give us our Own.

The following brief paragraph, which is going the rounds of the press, has been extensively credited to this journal : The Spiritual Telegraph says Jonah wrote to his father, after the whale swallowed him,

stating that he thought he had found a good opening for a young man going into the joit business-but afterwards wrote for money to bring him home, stating that he had been "sucked"in."

Now, the above represents that, concerning "fish stories," we claim to be "wise above what is written," which the canons of the church will not allow. As we do not care to have credit for more than belongs to, us, we must, in this case, respectfully resign our supposed claim to authorship. We did not furnish this appendix to the prophet's history : we never even heard that the junior Jonah wrote to his father at that time respecting his prospects; and, moreover, we are not quite sure that the young man was taken in, as some have supposed. However, if our cotemporaries can contrive to amuse themselves with such witless jokes, and to keep their Wm Harrison et al. pale lamps burning with oil from Jonah's Marriott for Lynch whale, we certainly have no objection. We hope they may obtain light enough from this source or some other to enable them to distinguish their own offspring from the members of our household; so that while they are constrained to father this fittle vagrant, they may also acknowledge the forcible abduction of some of our fair children of legitimate birth (beautiful poems and respecta. T Brace ble editorials.) which they have subjected to durance, possibly, to the rack, and without so much as a single intimation respecting M D Field either nativity, name, or history .- Telegraph. | H A Gaernsey for Olis

CONSUMPTION

SUCCESSFULLY TREATED BY Inhalation of Medicated Vapors!

BY Johnson Stewart Rose, M. D., Royal Infirmary for Diseases of the Lungs. In this age of progress, medical science has conher diadem, is her last and greatest gift,

Medicated Vapor Inhalation, In the treatment of CONSUMPTION and kindred affections. The most absurd notions, narrowmind. ed prejudice, contemptible ignorance, and unblush-ing quackery have long existed in the treatment of consumption. Mea of skill and reputation as physicions, have prescribed nauseous compounds to taken into the stomach, to cure disease in the lungs while the brazen face quack held up his nostrum as the only star of hope for the consumptive---if only enough of it were swallowed. The stomach---where no disease exists—being the receptacle of all this, is soon rendered unfit to perform its functions, and the health thus materially injured. All must see the absurdity, the positive injury, of such a course; the disease is in the *lungs*, not in the *stomoch*; then why, in the name of common sense, do you not ap-ply medicine directly to the Lungs? The advantage of Inhalation in Consumption and Throat Disease is, that medicines in the form of Vapor are applied directly to the Lungs where the discase exists; the stomach is thus left free to aid in restoring health, on the estate of Elijah Fellows, late of Middlebury, by administering to it healthy, life-giving food.— THERE IS NO CASE SO HOPELESS that Inhalation will not reach ! The means, too, are brought within the reach of all, the manner of administer ing the Vapors being so simple, that the invalid is never required to leave home, where the hand of friendship and affection tends so much to aid the

physician's efforts. The Inhaling mothed is southing, safe, and speedy, and consists in the administration of medicine in such a manner that they are conveyed into the Lungs
