KANSAS .--- The Atchison party are going to hold a Convention to make a State Constitution for Kansas. They will find themselves too late. "In the House, to-day, Dr. Stringfellow offered a resolution to the effect that a convention be called to frame a constitution, prior to Kansas being admitted into the Union. It sets the first Monday in October as the day on which the polls should be opened, and the people are to vote 'Convention' or 'No Convention' on that day. If the majority are in favor of a convention, provided this resolution passes, we may expect a petition from Kansaa to be admitted as a state at the next session of Congress. Dr. Stringfellow's resolution was referred to a select committee of Messrs. Marshall, Anderson and Mathias .---They will report to-morrow."

AYER'S PILLS,

AYEK'S PILLS, A KEW and singularly successful remedy for the cure of all Billious diseases – Costiveness, Indi-gestion, Jaundice, Dropsy, Nheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflamma-tions, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. & C. Indeed, very few are the diseases in which a Purgative Medi-cine is not more or less required, and much sick-ness and suffering might be prevented, if a harm-less but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avuided by the timely and judicions use of a good purgative. This is alike true of Colds, Forerish symptoms, and Bilious derangements. They all tend to become or produce the deep scated and formidable distempers, which load the hearstes all over the land. the author baving devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints.

The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forblds consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm as all the peculiarities incident to her situation are described.

How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant, and for which their delicacy forbids seeking medical advice. Many suffering from prolapsus uteri (falling of the womb), or from Auor allous (weakness, debility, &c.) Many are in constant agony for many months preceding confinement. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hararded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of sourse impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage.

Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfare of those you love at heart? Prove your sincority, and lose no time in learning what causes interfore with their health and happiness not less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sieepless nights, incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of,

your children.

In convequence of the universal popularity of the work, as eridenced by its extraordinary sale, various imposi-tions have been attempted, as well on booksellers as on the public, by imitations of title page, appriors editions, and surroguinous infringements of convright, and the interventions of the sale of convright. been used, but vridence ven more convincing than the experience of eminent public men is found in their effects upon trial. These Fills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been ob-tained by any process. The reason is perfectly ob-vious. While by the old mode of composition, every medicine is burdened with more or less of acri-monious and injurious qualities, by this each indi-vidual visite only bat is desired for the curative effect is present. All the inert and obnoxious qual-ities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prore as they have proved more purely remedial, and the Pills a surer, more powerful antiidote to disease than any other medicine known to the world. As it is frequently expedient that my medicine physician, and as he could not properly judge of a remedy without knowing its composition. I have supplied the accurate Formulae by which both my prectorial and Pills are made to the whole body of Practitioners in the United States and British Amer-ican Provinces. If, however, there should be any one who has not received them, they will be promptly forwaded by mail to his address. tew wolld be taken it their composition was hown't Their life consists in their mystery. I have no mysteries. The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many em-inent Physicians have declared the same thing of my Fills, and even more confidently, and are will-ing to certify that their anticipatious were more than realized by their flower apon trial. They operate by their powerful influence on the internal viscena to purify the blood and stimulate it into healthy action --remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derange-ments as are the first origin of disease. Being sugar wrapped they are plensant to take, and being purely vegetable, no harm can arise from their use in any quantity. Key minute directions, see wrapper on the Box.
