The political aspect is fast changing. The people almost universally repudiate the laws passed by the late legislature. All respectable persons appointed by that body to office are resigning. The cocks are crowing and I have heard no shot fired. The city never was so still as it is to night. I hope I shall never again have occasion to allude to such a night as this. I believe that the present demonstration will have a good effect upon ruffians, both here and across the river. I rather guess they will not think it prudent to pay us another visit from Missouri.

A MEW and singularly successful remedy for the

Cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Ferers,
Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back,
and Limbs, Pemale Compliants, &c. &c. Indeed,
very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used.
No person can feel well while a costive habit of
body prevails; besides it soon generates serious and
often fatal diseases, which might have been avoided
by the timely and judicious use of a good purgative. often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the heartes all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physiciaus, Professors, and Patients, has shown results surpassing any thing hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such evalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

Dn. A. A. Hayks, Analytical Chemist, of Boston,

Du. A. A. HAYES, Analytical Chemist, of Boston and State Assayer of Massachusetts, whose high professional character is endorsed by the HON. EDWARD EVERETT, Senator of the U. S.

ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.

ABBOTT LAWRENCE, Minister Plen. to England. † John B. Pitzpathick, Cath. Bishop of Boston, Also, Dr. J. R. Chillton, Practical Chemist, of New York City, endorsed by Hox. W. L. Marcy, Secretary of State.

Hotel, and others.

Did space permit, we could give many hundred
certificates, from all parts where the Pills have
been used, but cridence even more convincing than
their effects upon trial.

(These Pills, the result of long investigation and
study, are offered to the public as the best and
most complete which the present state of medical
keidlers can afford. They are compounded not of
the drugs themselves, but of the medicinal virtues
only of Vegetable romedies, extracted by chemical only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obmore efficient remody than had hitherto been obtained by any process. The reason is perfectly obtions. While by the old mode of composition, every medicine is burdened with more or less of aerimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the enrative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, modicine known to the world.

medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition. I have supplied the accurate Formulæ by which both my Poztoral and Pills are made to the whole hedy of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how would be taken if their councosition was known!

faw would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their Intrinsic nerits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many emigent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects mon tild.

STARTLING, BUT TRUE!

WHAT EVERY WOMAN SHOULD KNOW. How often it happens, that the wife lingers from year to year in that pittable condition as not even for one day to feel the happy and exhibitating influence incident to the enjoyment of health.

THE BLOOMING BRIDE. But a few years ago in the flush of health and youth, and buoyaney of spirits, rapidly, and apparently inexplicably, becomes a feeble, sickly, sallow, debilitated wife, with frame cunciated, nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental prostration, arising from ignorance of the simplest and plainost rules of health as connected with the unarriage state, the violation of which entails disease, suffering and misery, not only to the wife, but bleen HEREDITARY COMPLAINTS UPON THE CHILDREN " UNTO THE THIRD AND FOURTH GENERATION."

The remedy is by knowing the causes and avoiding them, and knowing the remedies, and benefiting by them. These are pointed out in
