scene far exceeds any I have ever witnessed. They were evidently the bodies of men who had been, broght down from the balleries as they fell wounded, that so rapid must have been the accomutation that the medical men were overlowered with numbers, and thus these poor creatures were unheeded, left literin beds to die. Many must have been dead for days, and, horrible to relate, among them a few were found still all of the hundreds and inour sands who were found lying in all parts of the works after the assault. . 11

A GOOD ANECDOTE .- We are told that the following conversation was overheated among the Volupteers of the Rio Grande,-Scene night. Two volunteers wrapped in blankets, and half buried in the mud.

Volunteer 1st-"Jim; how came you to volunteer ?"

Volunteer 2d-"Why, Bob, you see I had no wife to care a red cent for me, and so I volunteered; and besides, I like war. Now tell me how you came: out here?"

Volunteer 1st,---Why the fact is you know I-I-I have got a wife, and so I came out here because I like peace. !"

Hereupon both the volunteers turned over in their blankets, got a new plastering of mud and went to sleep.

A Good RETORT .--- A humorow young man was driving a horse which was in the habit of stopping at every house on the roadside.

Passing a country tavern, where were collected together some dozen countrymen, the beast, as usual, ran opposite the door, and then stopped in spite of the young man, who applied his whip with all his might to drive the horse on.

The men on the porch commenced a hearty laugh, and some inquired if he would sell the By horse.

"Yes," replied the young man, "but I cannot recommend him, as he once belonged to n butcher, and stops where he hears the calves bleat."

The crowd returned to the bar in silence.

Did space permit, we could give many hundred certificates; from all parts where the Fills have been used, but eridence even more convincing than the experience of eminent public men is found in their effects upon trial.
These Fills, the result of long investigation and study, are offared to the public, as the best and most complete which the present stato of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remed whan had hitherto been eb-tained by any process. The reason is perfectly ob-vious. While by the old mode of composition, avery medicine is burdened, with more or less, of acri-monious and injurious qualitics, by this each indi-vidual virtue only brai, is desired for the curative effect is present. Alkthe juer and obnotious qual-ities of each substand dimpoved are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.
As it is frequently expedient that my medicine should be taken under the counsol of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formule by which both my pectoral and Pills are made to the whole hody of Practitioners in the United States and British Amer-ican Provinces. If, however, there should be an Family Grocery & Provision THE subscriber would inform his friends and the citizens of Tioga county generally, that he has just received a large and superior sup ply of

Their life consists in their mystery. I have no mysteries. The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced, by scientific men to be a wonderful medicine before its effects were known. Many em-inent Physicians have declared the same thing of my Fills, and even more confidently, and are will-ing to certify that their anticipations were more than realized by their effects upon trial. They operate by their powerful influence on the internal viscent to purify the blood and stimulate it into healthy action — remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derange-ments as are the first origin of disease. Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity. For minute directions, see wrapper on the Box. <u>FIGETARED' BY</u>

TO-DAY AND TO-MORROW .- The present rolls onward into the unknown future : thither the soul turns in silent hope, and from the golden harvest of prospective joy, the heart gathers in the ripened grain of life. Life glides onward; sternly to-day we behold the line of mortality-to-morrow we cast the an-· chor into the sea of immortality. To-day we stand upon the shores of time-to-morrow the light of God's eternal day breaks through the bars of earthly night, and on the plains of Paradise we hold the tree of everlasting life.

A LUCKY PRINTER .--- We learn that Mr. Moritz Loeb, of the Morgenstern, published at Doyelstown, by the death of an uncle in Gormany, has fallen heir to the snug little fortune of ten thousand dollars.
