

For the Farmer.

LAMPAS IN HORSES.

Correspondent of the New York Spirit of the Times inquires as to the burning for the lampas, and whether that was the only cure for it.

As soon as the meat is salied to your taste, which will generally be in about five weeks, take it out, and if any of it has been covered with brine, let it drain a little.

Curing Bacon Without Smoke.

"O, the trouble folks have taken, To smoke and spoil their bacon."

To smoke the best bacon, says the Portage Democrat, let your hogs early and fat them well.

Curing bacon is like the Irishman's mode of making punch. He says: "Put in the sugar, then fill it up with whiskey, and every drop of water you put in after that spoils the punch."

To PRESERVE IRON AND STEEL KNIVES. Procure home melted virgin wax, the purer the better, and rub it thoroughly over the blades of the knives.

MILK IN BREAD.—I have more objections than one to milk in bread, but the most serious is, that persons of advanced age, who are in the daily use of milk made bread, will be expected to suffer from an over supply of osseous or bony matter, and particularly if their kidneys be affected.

To MAKE FRUIT PRES.—No under crust should be made to apple or any fruit pie. It is always heavy and not fit to eat.

BUSINESS DIRECTORY.

THE AGITATOR is published every Thursday Morning, and furnished to subscribers at \$1.00 per annum in advance, or \$2.00 in payment for a shorter period than a month, and when for the latter only payment must be made strictly in advance.
