THE TIOGA COUNTY AGETATOR.

onets taken at Franklin just before Lawrence was attacked. Capt. Jennigen was a gentleman, and was evidently surprised at the liberality with which he was treated. He said, as he prepared to leave, "By God, boys, is not this carrying the thing too far ?" and then he solemnly promised that those arms just returned, should never be used against Free-Siste people. He cursed Shannon for Middlebury, a d-d old fool, and said he had left Buford, and was down on him. He added, with admirable naivette, that he was a gentleman when he was at home. Mr. Storrs and family left their prairie home and returned to Lawrence for safety, taking all the furniture they could in their wagons. It was a sad scene-that bustling, hurried departure.-Once I saw Mrs. Storrs wipe the perspiration from her husband's brow, and say with that inspiring tone-woman's best gift-"Well, yeats. never mind, we will get over this yet."-

How outrageous that such people have to be Storrs had a horse stolen by the "Law and Order's mon a few days before, he thought that Capt. Jennigen's horse should supply its place, but the company had come from the city of Lawrence to the rescue. Had they taken these Georgians in the act of attack. ing the house it would have been a different matter, but although there is no question but they were of the party, still, they denied it, and the people of Lawrence were determined that no reproach or shadow of a reproach should fall on them. That night the house of Mr. Storrs was burned down by the "Law and Order" men. I hope Capi. Jennigen

has had no figure in that business. GUBRILLA PARTIES. - While the warfare waging here is beginning to assume a more general and systematic character, most of what has been done, (and it is only in the past week that any steps to resist have been adopted by Free-State men), has been done by Guerilla parties. I can only hear of two of these, both quite small. One of them be-gan the battle of Palmyra, and, in point of fact, finished it, too, before assistance came. of these, both quite small. One of them be-Those engaged in this warlare are chiefly men who have been robbed of all they had by the "Law and Order" men, and who, voting the Committee of Safety and its conservatism as a humbug, have turned out to fight those who are rambling over the country plundering and maltreating Free-State men. They have been remarkably successful in their operations since they began, having beaten every party they attacked, and recovered and taken a large quantity of arms and ammunition, and, I believe, some horses.

Six youths belonging to one of these companies performed a daring act a few nights ago. There was a company of men coming up the California road from Westport, Mo, eighty in number, well armed, and evidently on a war expedition to this Territory. These vouths crept into their camp, inside of their guards, at night, and each man picked out the best horse he could find, and saddling them, galloped off through the lines amid the flying bullets, firing back in turn. Nobody was hur:, and they got off with the horse.

On another occasion, just three days ago, some of these Guerillas learned that a Pro-Slavery resident had a large amount of powder and ammunition in his house for these parties. They surprised the house at night, and, without bloodshed, got several kegs of powder and other ammunition, and also some arms, among which was some of the coveted Sharp's rifles. As this business has been going altogether against the Pro-Slavery men, I think likely that the Territorial authorities will try and put a stop to it soon.

IMPROVEMENT EXTRAORDINARY. WE would respectfully call the attention of Mill VV owners and all interested in the use of water dower in this vicinity, to a patented Iron Water

Wheel, (called Greenleaf's gravity and percussion Water Wheel.) one of which they have recently put in a Saw Mill owned by Judge White of Wellsboro' and Dr. Archer of Morris township, and situated one and a fourth miles from Babb's Creek, on the Stony Fork. This wheel on Saturday the 7th inst., thick, 500 feet 11 inches thick. This Wheel used a very small quantity of water, only discharging about 90 square inches and with about 111 feet head and fall of water while performing the above. These Wheels are well adapted to the propelling of all kinds of Machinery driven by Water power. They are very simple and substantial in their construction, and will do from one third to one half more work than any other Iron Water Wheel in operation in this vicinity with which they are acquainted. They offer for sale on very liberal terms the patent right for Counties or States, and also to furnish and put in operation the Wheels in Mills in this vicinity on rea sonable terms. There is the thermal period of the same rate monthly. There is the thermal period of the thermal period of the thermal box for an front upon a road thirty feet in width. Till SOLL is a rich limestone loam, and especially adapted to cultivation, as it is neither hilly nor stony, but gently roll-ing or fine table land. Around and through this property there are already some 20.000 acres under cultivation, and its fertility has been established from the cropsproduced. Upon this subject it is easy to be fully satisfied. There is a ready cash market for produce which is mach better than trade. TIS THE CHEAPEST, as land of a similar quality is sell-ing at much higher prices adjoining, and especially such as contain COAL. THE COAL.—This in particular is the Coal District, several refins underlaying the whole property, and the attention of miners, and these acquainted with coal lands, is specially called to it. It lims the davantage of being the nearest to the grant lako market, with which it will be connected by the sunbury and Erie Rallroad now under contract and in course of completion from Erie to Ridgeway, with descending grade the whole way. The soil over binamions cual is the bast, for instance England and other countries. The price per acre is trifling for the coal alone, as it will certainly in so fa-vorable a location within a short time pay largely. This is important as an immense coal trade will soon open. Four coal computies have already been started to work mines in the vicinity, and there are now fifteen openings around St. Mary's.

It is very salmable, and ill pay for a growat part of the hand. On account of the ex-collence of streams there aro fine opportunities for milts. FOR IHALTH, the location is much recommended by Phy-scienns. The chills and fevers are unknown, also pulmonary complaints, being protected from the north east winds by the land abounding in fine springs. FOUR IKALINGADS will shortly be completed connecting it by a direct communication with New York, Philadelphia, Pittsburg, Erich, Und.do, and all the cities on the Lakes. They are the Sonbury and Erie, the Allephany Yalley, the Pittsburg and Buffalo, and the Verango. Energetic overtions are also being made for tho building of the Tyrone and Clear-field, which also passes through this property. The effect of this upon trade, and general development, as well as the coal may be imagined.

commenced operations, appropriated about halt a dozen. The course pursued is, for him to go round with a lot of dragoons, search Free-State houses for arms, and after he has gone, the Georgians, who are camped near Lecompton, come up and steal the horses. They follow close at his heels, and it is, on the whole, a very clever arrangement, as the Georgians run little risk. There is some small probability that this business will be interfered with shortly On last Friday Governor Shannon, while out on one of these expeditions, was so drunk that he could not have told a Sharo's rifle from a blunderbuss. He gave a poor woman who appealed to him a written order which would entitle her to protection against the Southerners, and other " Law and Order" marauders. 1 would have sent a copy, but it is altogether inscrutable, no doubt owing to the Governor's peculiar situation at the time it was penned. 1 could hardly make out even the "Wilson Shannon" at the bottom, and there Farm of 126 acres, in Clymer township. 45 acres would be no use in sending you a copy without lithograping it.

THE STOCKHOLDERS OF THE RIDGWAY FARM COMPANY, and others desirous of seeing the land, will have an excursion about the first of July in order to spend the Fourth in S., Marys, We do not know a more pleasant trip that any one could go upon than an excursion to Elk county, Pennsylvania. The scenery is beautiful and varied. The object is as useful as agreeable, and in the sultry month of summer, we cannot imagine anything more refreshing or healthful. From what we hear a large number will avail them selves of this opportunity to buy land as well as a pleasant journey. We do not yet know the route which will be taken by the excursionists, but it will soon be published, and will no doubt be the best. There are two routes, one by the New York and Erie Railroad to Olean upon the line, and from thence to St. Marys by stage, or by the way of Tyrope on the Pennsylvania Central Railroad, and thence by stage. The first will be convenient to those who go from the North, the other is also an excellent one. By arrangements made with the different companies the fare and whole expense will be greatly reduced. St. Marys is a beautiful little town, provided with good hotels, and has already become, on account of its attractiveness, a place of summer resort.
