made of them, as rendering an undoubled security against the terrific element: PHILABELPHIA. April 12, 1866. Mears Evans & Wilson-Gentis--It affords us the highest satisfartion to state to yon, that owing to the very protective qualities of two of the Salamander Safes which we purchased of you some few months since, we award a large portion of our Jewerly, Books, Papers, &c., exposed to the calumitous fire in Ran stead Place, on the norming of the 11th inst. When we reflect that these Safes were located in the fourth story of the bunding we occupied, and that they fell sub-se-quently into a heap of burning ruins, where the vast concen-tration of heat caused the brias plates to mell, we cannot but regard the preservation of the valuable contents as most con-vincing proof of the great security afforded by your Safes. We shall take much placsure in recommending them to men of business as a sure reliance against fire. GRONGE W. SIMONS & BRO.

GEORGE W. SLIGON & BHO. PRILADELPRIA, April 12, 1856. Mestrs Front & Walton--I have to offer you my testimony in favor of the great security afforded to my entire stock of jewelry, books, papers, &c., during the recent disatrons con-flagration in Rainstead place, from the fart that the same were contamed in two of the salamander Safes manufacth-ed by you. Having rellen from the first story of the Aritisan Build-lag, where they were previously placed and exposed to a vast seemed to every one who witnessed the opening and interior examination, a matter of profound astonishment. To all who may require a perfect projection from the raya-get of fire. I shall not he-site to recommend the use of your Safes, as I consider they have now undergonethe most trying, test. J. N. E. PHILAPPLENTA. April 14; 1856. Meters Econe & Walsom-Gentlemen-No doubt you will be decidy gratified to learn the good condition in which 1 discor-cred my book, pelley of insuance, certificates of stock, and other valuable documents, when on Friday last 1 opened the safe made by your firm. With my knowledge of its great exposure, both to the inten-sity of the heat from so hot a fire as that which destroyed the Artisan Building, as also from the force of the fall frofil its former elevated position in the third story. I could enter-tain but stender hopes prior to its interior imay, eiton, that the contents which 1 once so highly prized would ever be of nary serve to me, but as these fears are now hapfly re-moved. I feel it only due to say to yon, that I can henceforth recombened the use of your Safes to all who may work to feel a confidence in the perfect security which such means provi-des against so frightful an element.
