Congresiman Orr, of South Carolina, has published a letter to the Hon. C. W. Dudley, upon the subject of the Cincinnati Democratic Convention, in which, in behalf of the South and of Slavery, he gives the Democratic party the following credit for servile work and labor done and performed:

The northern Democrats aided us to bring into the Union, Texas, a magnificent slaveholding Territory-large enough to make four slave States, and strengthened us more in that peculiar interest than was ever before done by a single act of the Federal Government. Since then, they have amended a very imperfect fugitive slave law, passed in 1793, and have given us now a law for the recovery of fugitives slaves, as stringent as the ingenuity of man could devise. Since then, they have aided us by their votes in establishing the doctrine of non-intervention with slavery by Congress in the Territories. Since then they have actually repealed the Missouri restriction, opened the Territories to settlement, and enabled us, if the South will be true to berself, to aid in peopling Kansas, to form another State. In 1843 a man would have been pronounced insane, had he predicted that slavery would be introduced there by the removal of Congressional restrictions.

Philadelphia, April 12, 1856.

Messrs Evans & Watson—I have to offer you my testimony in favor of the great security afforded to my entire stock of jewelry, books, papers, &c., during the recent disastrous confingration in Ranstead place, from the fact that the same were contained in two of the Salamander Safes manufactured by you. Having tallen from the fifth story of the Artisan Building, where they were previously placed and exposed to a vast heat for a long time, the preservation of the valuable deposits seemed to overy one who witnessed the opening and interior examination, a matter of profound astonishment.

To all who may require a perfect protection from the ravages of fire, I shall not hesitate to recommend the use of your Safes, as I consider they have now undergone the most trying test.

N. E. Moroak.

PHILDELPHIA, April 14, 1856.

Mesers Evans & Watson—Gentlemen—No doubt you will be deeply gratified to learn the good condition in which I discovered my book, policy of insurance, certificates of stock, and other valuable doctments, when on Friday last 1 opened the sefe made by your few.

other valuable doctments, when on Friday last 1 opened the safe made by your firm.

With my knowledge of its great exposure, both to the intensity of the heat from so hot a fire as that which destroyed the Artisan Building, as also from the force of the fall from its former elevated position in the third story. I could entertain but slender hopes prior to its interior inspection, that the contents which I once so highly prized would ever be of any service to me, but as those fears are now happily removed. I feel it only due to say to yon, that I can henceforth recommend the use of your Sofes to all who may wish to feel a confidence in the perfect security which such means provides qualust so frightful an element.

UNRIVALLED MOTIVE POWER for driving all kinds of Machinery, proved and confirmed by actual experiment to equal an overshot. We would respectfully call the attention of all interested in the use of Water Power, to "Goodwin's Patent Central vent Direct Acting Water Wheel," patented April 4th 1834, and ranks in the first class of Hydraulic Motors. Its simplicity of construction and durability acted do to the comparative small cost are considerations that cannot fail to attract the attention of these engaged in the use of Water Power. Being of small dimensions, it requires but little space and is readily secured from frost! It runs upon an upright shaft and needs but a trifling amount of gearing to drive any kind of machinery.
