and West. The St. Louis Intelligencer, in reviewing the prospects of Mr. Buchanan says:

Buchanan is a doomed and defeated man. " "As surely as Cass was borne down and defeated in 1848, so will Buchanan be defeated now. He will never sit in the Presidential chair. Buchanan will not get a single New England State. He will lose New York and Ohio by nearly 100,000 majority. His strong hold of Pennsylvania is torn from him, and nothing is more certain than his inglorious defeat in his own State. In all the Northwest Buchanan is as dead as an Egyptian mummy buried a thousand years ago. He will not get a single State north of the Ohio river or west of the lakes. -- He will be overwhelmingly defeated in the Northwest. His own partizans there feel it and know it."

Mrs. Northup came to this place with her lineband, six years ago. Mingling as much as her attention to her family would allow, in the scenes of affiction to which the profession of her husband called her, she soon became favorably known as a sympathising, christian friend in time of need. In everything good she had a willing heart and ready hand. In early life she had become a member of the Presbyterian church, and among the last public acts of her lite, was her uniting with her husband and two other persons, to form the First Presbyterian Church of Brookfield, a few months previous to her death. Her friends were numerous as her acquaintances, and though comparatively a recent citizen among us, she was followed to the grave by a large number of sincere mourners. Of her husband it may be truly said, "Tis the survivor dies." When we reflect that these Safes were located in the fourth story of the building we occupied, and that they full subsquently into a heap of burning ruins, where the vast concapitation of heat caused the brass places to not, we cannot but regard the preservation of the valuable contents as most convincing proof of the great Security afforded by your Sales.

PRILABELEMIA, April 12, 1856.

Messes Evans & Wilson—I have to offer you my testimony in favor of the great security aborded to my entire stock of jewelry, books, papers, &c., during the recent disastrous configration in Ranstead place, from the fact that the same were contained in two of the Salamander Safes manufactured by on. Having tables from the lifth story of the Artisan Building, where they were previously placed and exposed to a vast heat for a long time, the preservation of the valuable deposits seemed to every one who witnessed the opening and interior examination, a matter of profound astonishment.

To all who may require a perfect protection from the ravacter of the 1 shall not hesitate to recommend the use of your safes, as I consider they have now undergone the most trying test.

PHILADELPHIA, April 14, 1856,

Messrs Frans & Watson—Gentlemen—No doubt you will be deeply gratified to learn the good condition in which I discovered my book, policy of insurance, certificates of stock, and other valuable documents, when on Friday last I opened the safe node by your firm.

With my knowledge of its great exposure, both to the intensity of the heat from so hot a fire as that which destroyed the Artisan Building, as also from the force of the full from so former elevated position in the third-story, I could entertain but slender hopes prior to its interior inspection, that the contents which I once so highly prized would ever be of any service to me, but as those foars are now huppily removed I bed it only due to say to you, that I can benecforth recommend the use of your Safes to all who may wish to fel a confidence in the perfect scentify which such means provides against so frightful an element.

1856, the genuine HEBRING SAFE
preserved the Jewelry of Geo. W. Sismons & Bro.; Books, Papera,&c. of
Fisher & Bro., and Edward Scamans
& Co., after remaining exposed in the
burning ruins for nearly FORTY
HOURS, and proving conclusively
what we have always claimed for them
their great superiority over all securities now known.

their great superiority over all securities now known.

In these fire, the HERRING'S SAFE, standing side by side with those advertised as "warranted to stand 10 per crut. more fire than Herring's come forth the acknowledged vieter, not only preserving their contents in excellent order, but being themselves in a condition to go through another ordeal, while the boasted "Salamanders" of other makers were badly used up in every instance, and in some cases their entire contents completely destroyed.

To the public we would simply say, that, during the four-teen years the Herring's safe has been before them, increthan two bundred have passed through accidental fires without the occurrence of a single loss.

We would therefore, caution purchasers against the misterpresentation of interested parties. The Herring's Patent is the only Fire-proof Safe made in this city which is protect do by a Patent Kight, and we will guarantee it to resist more than double the amount of heat of any other safe now known.

IMPROVEMENT EXTRAORDINARY,

dower in this vicinity, to a patented Iron Water Wheel, (called Greenleaf's gravity and percussion Water Wheel,) one of which they have recently put in a Saw Mill owned by Judge White of Wellsboro' and Dr. Archer of Morris township, and situated one and a fourth miles from Babb's Creek, on the Stony Fork. This wheel on Saturday the 7th inst., drove a single saw to saw five thousand and one bundred feet of white pine lumber; #100 feet of which was one inch in thickness, 400 feet 2 inches thick, 500 feet 14 inches thick. This Wheel used a very small quantity of water, only discharging about 90 square inches and with about 11½ feet head and fall of water while performing the above. These Wheels are well adapted to the propelling of all kinds of Machinery driven by Water power. They are very simple and substantial in their construction, and will do from one third to one half more work than any other Iron Water Wheel in operation in this vicinity with which they are acquainted. They offer for sale on very liberal terms the patent right for Counties or States, and also to furnish and put in operation the Wheels in Mills in this vicinity on reasonable terms.
