One of the most remarkable and significant incidents which has transpired during this campaign, happened at Hales' Eddy on Saturday last. An immense number of Fremonters had gathered to have a pole raising. The pit was dug for the pole, but just as the assemblage were about to commence the operation of raising, a magnificently large Buck burst out of the adjoining woods, and being confused at the unusual, sight of so many mortal enemies, rushed madly into the throng and left with a bullet in his heart in the very pit dug to tel the Fremont pole in Sach shout as the people sent up at that termination of the wild Buck's race never before startled the echoes of those somber mountains of the Delaware. The lifeless Buck was dragged from the pit, the pole raised, and there it stands as a monument of the fate of James Buchanan .- Honesdale Democrat.

Messra Evens of Widson. Center it afforts us the highest satisfaction to date to you, that owing to the very protective qualities of two of the Sahmander Safes which we purchased of you some few months since, we saved a large portion of our Jewelry, Books, Papers, &c., exposed to the calamitous fire in Bonstond Place, on the morning of the 11th inst.

When we reflect that these Safes were located in the fourth story of the building we occupied and that they fell subscondently into a hean of burning runs, where the year concentred.

quently into a heap of burning rains, where the rast concentration of heat caused the brass plates to melt, we cannot but regard the preservation of the valuable contents as most convincing proof of the great security afforded by your Safes. We shall take much pleasure in recommanding these to men of business as a sure reliance against fire.

GENER W. SINONS & BID.

PRILIDELPHIA. April 12, 1864.

Mastra Ercuss of Walson—I have to offer you my testimony in favor of the great accurity afforded to my entire stock of jewelry, books, papers, &c., during the recoult disastrous confingration in Runstead place, from the fact that the same were contained in two of the Salamander Safes manufactured by you. Having talken from the fifth story of the Artisau Boliding, where they were previously placed and exposed to a vast heat for a long time, the preservation of th valuable deposits seemed to every one who witnessed the opening and interior examination, a matter of profound astonichment.

To all who may require a perfect pre-ection from the ravages of fire, I shell not hestfart to recommend the use of your Safes, as I consider they have now undergone the most trying test.

PRILADELPHIA, April 14, 1856.

Mestra Erena & Watson—Gentlemen—No doubt you will be deeply gratified to learn the good coudition in which I discovered my book, policy of insurance, certificates of stock, and other valuable documents, when on Friday last I opened the age made by your ferm.

other valuable documents, when on Friday last I opened the safe made by your Bras.

With my knowledge of its great exposure, both to the intensity of the heat from so hot a fire as time-which destroyed the Aritisas Building, as also from the force of the fall from its former elevated position in the third story, I could entertain but slender hopes prior to its interior inspection, that the contents which I now so highly prized would ever be of any service to me, but as those ferra are now happily removed, I feel it only due to say to you, that I can henceforth recommend the use of your Bafes to all who may wish to feel a confidence in the period sectiff; which such means provide against so frightful as element.

REFERENCES.

The Medicine is now well known and appreciated, and will have a steady and increasing sale. I know of no preparation that can compare with it for the particular complaints for which it is designed. I am satisfied, by the use now making of it in my own family, and by almost every day's oridence of its behefits to others, that it justly merits the warmest recommendations its best friends have given of it.

I am persuaded, after trying it in a great masky cases, that it surpasses all other remedies within my knowledge for that class of difficulties for which it is recommended. It has cared some very extreme-cases under my observation, which have resisted all other treatment L. D. FLEMING, M. D.

DEAR SIR:—After waiting to give the Catholicon a fair triat, I now have the pleasure to say, I think it is all that it is said to be. In the case in which I saw it in use, the patient, at the tipse of commencing it, was suffering the most excruciating point; she could not lift a two pound weight, without severe pain. Now she can do her work with pleasure. Hor general bealth has also much improved. The directions must in all cases be strictly followed, &c.

Having row used the remedy for four years in my practice, I rely wholly on it for the cure of almost all female diseases. With many regards for yourself, I remain yours, &c.
