## A LETTER FROM SWEDEN.

FOREIGN OPINIONS ON THE ELECTION.

Correspondence of The N. Y. Tribune. Kalkar, Sept. 10, 1856.

If any of you readers in the present campaign should be tempted to use the old talk about " America being the model for all na-"tions," and to speak of our Republic as a "light to the oppressed peoples of the Old "World," they may as well at once stopit is not true.

The European nations understand our matters far better than they did five years ago. They know very well the struggle going on within our borders, and which principle thus far has conquered. The bloody history of whole Kingly and Conservative press of Eu-"model," or if one outwardly, like a Parisian artiste-least of all a model of virtue or

The public opinion in Europe about America has fallen fifty per cent since I was here six years ago. The mass of the people of course cannot distinguish between the fruits of Despotism in the United States and the Truits of Freedom. They jumble them all together. Brooks represents at least a wealthy society of "gentlemen" in our country, and a large party they hear approve him. South Carolina speaks for certainly much of the Union; and the crying injustices of Kansas—such as no German or scarcely Italian petty despot has as yet attempted-are sustained, and may be continued, by an immense political organization, which has been supposed to hold by far the majority of American citizens. Is it to be wondered at that with such appearances America has lost her old fame here-nay that she is now a scoff and a reproach with

every friend of tyranny and kingly rule! She represents now, not Liberty to the oppressed of Europe, but Slavery. The coarseness, the lawlessness, the cruelty of Slavery, its bluster and dishonesty and greed are the prominent American traits to the world .-The advocates of the kings and aristocracies know how to use this. American republicanism is openly declared a failure; self-government, as it is in Kansas and Virginia, is thrown in the teeth of the Liberals. They point to the ballot-boxes in Kansas, the bludgeons in Washington, the tyranny of press and speech in every Stave State, and say, "There is your " Liberty, your universal suffrage, you De-"mocracy! "Will you have that?"

It cannot be imagined how all this has crushed down Republican aspirations in Europe. Often and often this Summer has it been haid to me personally by European Liberals, "You are ruining us in America!" The noble and free-thinking of every nation on this Continent have mourned over America during these late events. " If the American Republic goes down Humanity is down," one hears. People watch us, as friends on shore watch a costly ship freighted with the hopes and wealth of a thousand families, plunging fearfully through scurrying storms close on black lines of rocky reef. Yes, more-os a truth-seeker, beguiled, might see the Faith of his childhood and the Hope of all his future, disappear before him, and only a blank of dis-

appointment and inanity left. We bear with us the ideals of mankind,-If we wreck, or if this order of things continues and we are simply a representative of Southern chattelism, il seems to me the friends of liberty throughout the world will hide their heads-not hapily doubting of final and universal liberty, but sadly owning it is not for

them or their times. Of late, a beam of light has come through your stormy troubles to the Liberals of Europe—the nomination of Fremont. His name, for he is known only second to Humboldt in every itelligent circle of the continent-his heroic career, and, above all, the manly, honest, noble declaration of his principles, and the enlightened "Platform" of his party, have struck a chord of generous sympathy and hope in every people of Europe. I have Scandibavia" where his chances are not ea- me,"

"The triumph of Fremont will be the tri-umph of "civilization," I heard lately said by one of the first men of Sweden, at a large dinner-table. "Fremont will be your second Washington." and savans of the country.

An impression is general, that the election of Buchanan would so involve the country in endless fillibusterism, war and Slavery extension, as to split the Union.

The great struggle is appreciated in Europe. VERMONT AND MAINE.-The overwhelming result in Maine is not considered so significant of the grand result, by an old Democrat, in the New York Times, who says Maine has usually been Democratic, and the active men of that party have been in the habit of trying to keep on the successful side. That they should change, therefore, he did not consider surprising. But in Vermont, said he, those who voted with the Democratic party, did so hopelessly, in a known minority, without any selfish ends and thoroughly upon principle. When you find such men changing, said he, you may know there's trouble ahead! If the Democrate of Vermont fail to stand up to the rack, there is little hope from those of any other State.

To form a proper idea, where the responsibility rests for the present flate of affairs in Kansas, it is necessary to trace the origin of the disturbances, We can easily do it now, hough a few months ago it was covered by that some good people may have had their on that supposition that we copy a plain statement, which subsequent investigations, especially of the industrious and able Investigating Committee of the House of Representatives, have enabled the Newark Advertieer to prepare. How they proceded to carry out their plan, as soon as that act passed, was afterirruption of its members and others into that Territory, taking violent possession of the ballot boxes, driving away the real inhabivote at all. Thus were elected the members of their sham Legislature and their delegate to Congress. In consequence of these illegal House, and the acts of the Legislature have been declared to be a disgrace to any country, not only for their base origin but for their unconstitutional and tyrannical provisions. They have been denounced and repuopinions on other matters may be, has a word to utter in their desence. We shall not now ject, however, was professedly to make Kansas a slave State, by first making it a slave body, were consequently made at once the laws of the Territory, and the flagitious acts referred to were subsidiary to this great design.

DUNN'S BILL.

Hypocrisy of Black Republicans in Congress, as Exhibited by the Official Journal of the House of Representatives!

Such is a threatening title of a pamphlet, ssued by the Democratic Committee at Washington, and now being circulated both by the Buchanan and FILLMORE adherents, with an earnestness which shows that they expect, with it, to carry destruction into the Republican ranks.

Now, we have Dunn's bill before us, and we aver that it does not contain a single provision at variance with the declaration of principles made by the National Republican Convention at Philadelphia.

Dunn's bill repeals the law abrogating the Missouri Compromise, and re-enacts and restores that Compromise. The Republican plaiform declares these to be leading objects of the Republican organization.

The bill repudiates Squatter Sovereignty, and restores to Congress its Constitutional powers, declaring that "all the laws passed by the legistative assembly, and governor, shall be submitted to the Congress of the United States, and if disapproved, shall be void and of no effect," thereby " restoring the action of the Federal Government to the principles of WASHINGTON and JEFFERSON," and is in this respect, in accordance with the

It contains no provision at variance with the confidence, are appointed to take place in Constitution, or with the principles upon which it was administered from the time of its adoption to that of the disastrous repeal of the Missouri Compromise, and none to which any one but a slavery extensionist can reasonably object. It restores freedom to Kansas, and extinguishes Slavery there, giving to those lawfully holding slaves within that Territory, till the first of January, 1858, to remove them-a most just and liberal provision. It also provides "that any person lawfully held to service in any other State or Territory of the United States, and escaping either into the Territory of Kansas or Nebraska, may be reclaimed and removed to the person or place where such service is due, under any law of the United States which shall be in force on the subject."

basely fallacious, as the other charges heretofore urged against our party, and our candidate by our pro slavery opponents. We hope the pamphlet will have general circulation, as it is well calculated to disabuse the public mind of the charges made against the Republican party as to its principles and its objects. It will convince all honest minds that these principles and objects are in accordance with the Constitution, and are calculated to restore peace and harmony to the whole Country. If, on the accession of the Republican party to power, their enforcement shall not do so, it will be because the Bu-CHANAN and FILLMORE Slavery extensionists constitutional administration of the Government, by enactments in accordance with the policy of the fathers of the Constitution, and with that of every Administration from WASHINGTON down to the fatal departure from that policy under Pierce,-Elmira Advertiser.

Stringfellow's Squatter Sovereign, which receives the paironage of the General Government, and is the organ of the Democratic is headed by J. C. Fremont,-his principles party in Kausas, says:

"We are determined to repel this Northern invasion, and make Kansas a SLAVE State; though our rivers should be colored with the blood of their victims, and the carcases of dead abolitionists should be so numerous in the Territory as to breed disease and sickness, we will not be deterred in our purposes, Let those who desire graves in Kansas en-gage in this unholy and unjust war against he extension of our beloved institution.

"I do not hesitate to declare that if Fremont be elected the Union cannot and ought not to be preserved .- Hon. John Slidell.

So says Senator SLIDELL, of Louisiana, the man who managed the card so skillfully for Buchanan at Cincinnati, and who is to be Secretary of State under Old Buck. He was a disunionist in '50, but now a Union. Saver, upon one condition only, and he to make it, namely, the election of JAMES Bu-CHANAN. Defeat him and the Senator cannot be Secretary of State, and he threatens to dissolve the Union. The "cloven foot" sticks out too plainly to deceive intelligent voters,-Harrisburg Telegraph.

The following anecdote shows the probability of Maryland favoring disunion :

· "When a Northern Representative took Maryland, at the National Capitol, he said to met for the last time!' 'How so?' said Bowto Libra' replied the other, 'before we meet again Col. Fremon will be elected, and the South will not submit to that.' think it will,' said Bowie, for my part, I have made up my mind, if he is elected to give him a trial."

After a long search, the Fillmore party completed their Electoral ticket by filling the vacancy in the Bradford District with the name of Charles F. Welles, Esq. Mr. W. is a true American in every sense of the word, as is proved from the fact that he presided over a Fremont meeting held in his neighborhood last week. As the current goes, the Republicans may perhaps not need to take the trouble to get up another Ticket!

SMALL FAVORS GRATEFULLY RECEIVED. -The Pennsylvanian brings out a big gun and declares just below it that the tide has turned in Ohlo and that Democracy is going on there, conquering and to conquer for the following reason:

"An election for Justice of the Peace, warmly sontested on political grounds, lately came off in Miami Township, Perry county, Tioga, think of this! We are not ashamed Ohio. It resulted in the success of Hardin, Democrat, by sixteen majority."

MR. BROOKS, when on the 4th of March he commences his foray upon Washington, to seize the archives and treasury, will meet with an insurmountable difficulty. He can treasury is at New York and Philadelphia, and Boston, where the public revenues are collected, and he cannot get to those places without going, "through the enemy's country."-Providence Journal.

CORRUPTION FUNDS,-The Southern traders and stock-jobbers in New York, have lately raised two funds, one of 50,000 dollars. and another of 70,000 to be expended in Pennsylvania. The funds will be used to colorize and bribe voters. Will the freemen of Pennsylvania consent to be bought like cattle in New Yorks, and less Virginias and Carolinas the market?

CURIOUS INCIDENT .- The Concord Reporter states that when President Pierce was approaching the big Buchanan flag, suspended across Main street, in that city, at his reception on Thursday, it was struck by a gust of wind, his horse's feet.

The Washington Union has a long article rying to discredit the testimony of James Buchanan, in regard to Col. Fremont's claims to be called the " Conqueror of California." Such, fellow citizens, is the company that James Buchanan is keeping. They make no disguise on this matter, but like honest politicians, dome out, and declare themselves. boldly in favor of slavery. Up here our Democratic friends call the Republican move, ment a Whig trick and do very eloquently exhort the political brethren to beware of the "ghost of Slavery." But while they call us Premoniers, Whigs, they no doubt forget that J. B. Clay, son of the "immortal Henry of the West," has taken the stump in favor of the Cincinatti nominees—that Kentucky that has always been a Whig state, has gone Buchanan by the Whigs and Democrata forming a union ticket. They also forget that the Whig Senators of Maryland have each adacts of the Society as any way contrary to of hypocrisy, therefore, is proved to be as dressed a long letter to their constituents, exhorting them to leave the Whig ranks and go for Buck and Breck for the sake of saving the Union; that there is no longer any Whig party, but simply a union of all the pro-slavery ranks upon Buch & Co., for the sake of carrying out the Slave power. Not only are the pro-slavery Whigs of the South-united upon Buchanan, but the pro-slavery Whige of the North also. All pro-slavery men, no matter where they may live are in favor of James Buchanan, while every manthat believes that Slavery had ought to be restricted is in favor of Col. Fremont. If a man is known by the company, he keeps then' it is very evident that James Buchann is proprefer anarchy and dissolution to a just and slavery, and if he is elected he will be honese enough to carry out the demands of the South. ern oligarchy. Every intelligent man knows full well that James Buchanan is the candidate of the Slave Power,-in fact the more honest part of the party admit it, and we think that we have produced enough evidence te convince any unprejudiced mind that his principles are not acceptable to the great mass of freedom loving people of the North. The party that opposes slavery extension

> are on the side of freedom, and he has been tried and found true on the great question of Human Rights, and he is sustained by all the conservative freedom loving men of the whole union. He is not supported by a "faction" but by all the truly national men of the States. He is no more an abolitionist than is James Buchanan for they, the Abolitionists have a candidate of their own, Gerrit Smith, and oppose the Republicans in the strongest and most uncompromising manner. The supporters of Col. Fremont do not seek to meddle with slavery where it now exists by virtue of local law,-they have no desire to interfere with the sovereignty of the States, but they are opposed to the breaking up of sacred compacts, and transfering lands, once consecrated to freedom by national compromises, to slavery. They believe that the repeal of the Missouri compromise was a great wrong, wholly uncalled for by the spirit of the age-they discountenance the numerous Border Ruffian invasions into Kansas-the controling of the election polls by non-resident missourians, and believe that the Legislature elected by the hired minions of southern oligarchy to be a base fraud and imposition, not to be tolerated by men that "know their rights, and knowing dare maintain them." This is all the Republicans ask. After we make a fair bargain with the South, we'do leave of Mr. Bowie, a Representative of not wish it to be broken as soon as it becomes binding upon them. You know that the white laborer and black laborer move in the same social circle—that there the children of the poor white man must associate with the despised children of the degraded slave, and that they are frowned down upon by the chivalric sons of the South.
