

Where did Jefferson and Madison Stand?

The Pennsylvania says, "Keep it before the people that the Democratic party stands now where it stood in the days of JEFFERSON, MADISON and JACKSON, upholding the equality of all the States under the Constitution, and the equality of all the citizens under the law, whether rich or poor, proud or humble, whoever their religion or wherever born. This is not so, for JEFFERSON, in his "Notes on Virginia," said: "The whole compromise between master and slave is a perpetual exercise of the most ungentle despotism on the one part and degrading submission on the other." And again: "With what execration should the statesman be loaded who, permitting one half of the citizens thus to trample on the rights of the other, transforms those into despots and these into enemies, destroys the morals of the one part and the amor patriæ of the other! Can the liberties of a nation be thought secure when we have removed their only firm basis—a conviction in the minds of the people that they are not violated but by their own? Indeed I tremble for my country when I reflect that God is just, and that his justice cannot sleep forever." JAMES MADISON, too, has left on record his opinions as to the power of Congress to prevent the introduction of slavery into new States. In the very first Congress under the Constitution he used this language: "Though Congress were restricted by the Constitution from immediately abolishing the slave trade, there yet were a variety of ways by which they might counteract the abolition of that traffic. They might, for example, respecting the introduction of slaves into the new States, make regulations such as were beyond their power in the old settled States—an object which he thought well worthy of consideration."

\$50,000 Raised in Wall Street.

\$50,000 sent to Luzerne, and men paid one dollar a day to ride in the procession. The Buchananians had a large meeting yesterday, but the Speakers all fiddled out. Senator Brodhead was here, McDonald from Maine, and Josiah Randall. In procession were seventy-nine wagons and six hundred and ninety persons including girls and boys. One feature of the procession was really beautiful. In a large wagon drawn by four horses, sat thirty-one young ladies surrounded by evergreens, each with a wreath of green round her head. And these young girls the Buchanan leaders would have surrounded with the curse of slavery.

One Banner had on, "It is a shame to shoot at a man and miss him," and Irishmen rode behind this, with fact books before them that Herbert a Democrat, shot a Keating an Irish writer in Washington and did not miss him. The whole Buchanan party preceded Herbert and he was in the Convention the nominated Buchanan.

We are told by a Democrat that money raised in Wall Street, New York, to buy voters in Pennsylvania, was sent to Luzerne, and teams were hired and men paid by the day to ride in procession. A man from Dallas told us that ten teams only represented Dallas, and every man with it was for Fremont. We want no foreign money to purchase Freedom with. We want it from the good will of the People.—Wilkesbarre Times.

The town elections just held in Co. Seneca establish beyond a doubt that an overwhelming majority of the people of that State are in favor of FREMONT. The contest between the Buchanan men and the Fremont men, in behalf of which the Hon. Everett Brooks has labored and so well labored so zealously, had been consummated there, and the entire Fillmore vote was cast for the Buchanan candidates at these elections, except in a few towns where mixed tickets were supported by the combined parties. The result has been that the coalition is really powerless in the town of Madison, for instance, out of 300 voters only 31 were found to sustain the Buchanan candidate. And in 32 towns, given by The Hartford Courant, comprising nearly all where elections have been taken place, 74 give Fremont majorities, 53 Buchanan majorities, and 5 are divided. Contrasted with the results in the same places last Fall, the Republicans have gained in 23 towns, and the Border Ruffians in 13. This has been accomplished with a great effort on the part of the latter, and without special exertions on the part of the former. Compared with the vote of last Spring the aggrandizement of Freedom in these towns is 7,000! Taking these facts into view, we are justified in saying that at the election in November, 10,000 is the majority that Connecticut will give to the standard-bearer of Freedom.—Tribune.

CLERICAL RASCALTY.—Through the politeness of William Brigham, Esq., a leading Attorney and Counselor at Law in Boston, we have recently received certain manuscript documents in relation to a gross and villainous outrage upon female virtue, perpetrated by a rascally scoundrel of Rockport, Mass. We do not propose at this time to spread before our readers the details of the affair. It is sufficient now to say, that a young and delicate girl from the interior of New York, came to Rockport to pass the summer for the benefit of sea air; that confiding in the honor of the reverend, sinner, under whose protection she was placed she fell at last a prey to his lecherous arts—in which long practice had made him a successful adept; that she returned, dishonored and broken hearted, to her father's house, who she has since died of grief and mortification; that her piously seducer was arrested in Boston, acknowledged his guilt in writing, and agreed to pay the father of his victim the sum of \$2000.—Exeter (N. H.) News Letter.

MILWAUKEE, Sat. May, Oct. 11, 1856. We have advices from Kansas in the last, stating that Gov. Geary had been arrested and confined in Leecompton on the charge of murder in the first degree, one hundred and seven Free State men, who are mostly under the charge of Col. Titus.

The Alternative

Now put by the organs of the self-styled democratic party in—Vote for Buchanan, or we'll dissolve the Union! This is equivalent to the highwayman's alternative: "Give me your money, or I'll blow your brains out!" The equivalent, however, fields good only as to condition at justice. The effect politically, can hardly be so disastrous in the event of non-compliance with the first demand as it would be in the highwayman's. But the condition is the same in both cases. The right of choice in both is bounded by unjust conditions. Do we elect for you to do, or take the awful consequences. We are required to vote under duress—a requirement with which no freeman can comply.

Now mark, no Republican press or leader threatens dissolution in the event of Buchanan's election. We place the facts before the people and trust to their intelligence and patriotism for their guidance in depositing their votes. Our rallying cry is—"No more extension of Slavery!" With that we go forward to victory. Success must be reached in that direction or in none. The issue is direct and unmistakable. Hear the Richmond Enquirer of a recent date on this head:

"The Democrats of the South, in the pending canvass, cannot rely on the old grounds of apology and excuse for Slavery; for they seek not merely to retain it where it is, but to extend it into regions where it is unknown. The Constitution cannot help Slavery if it be a violation of the laws of God and of morality. Slavery is older than the Constitution, existed before it and independently of it. We derive no right to our slaves from it and weaken our cause by seeming to rely on it."

Here is the issue presented to National Democracy, Early and squarely. Mr. Buchanan is advocated solely upon the ground in the South; and as the party boasts loudly of its nationality, it follows that Northern Democracy yield assent to the monstrous doctrine. Northern Democratic leaders do assent to this doctrine; but the masses do not; nor can they be forced to endorse it in November. Threats cannot subdue stout hearts—the bugbear of disunion cannot appal them. But listen again to the same paper in the same connection:

"We must go a step farther. We must show that African Slavery is a moral, religious, natural and probably, to the general, an necessary institution of Society. This is the only line of argument that will enable Southern voters to maintain the doctrines of State equality and Slavery extension."

Now mark the emphasis! "But what if they (Northern Democrats) may prefer their own social system, they will have to admit in this canvass that ours is also rightful and legitimate, and sustained alike by the opinions and usages of mankind and by the authority and express injunctions of Scripture. They cannot consistently maintain that Slavery is immoral, unjust and profane, and yet continue to submit to its extension."

There is your moral duty defined, men of the North. It is the true doctrine, "no assent to the extension of a wrong is to endorse that wrong." This is the rule presented by the leading Buchanan journal of the land. It is a grand rule. We ask the attention of Northern democrats to it.

Now let us examine the record and ascertain how leading Buchanan papers in the North stand upon the Slavery extension issue. Here is an extract from the N. Y. Day-Book, as pertinent as it is plain: "Should the Democratic party fear this issue, to oppose the extension of Slavery? No, indeed! A thousand times, a million times, No! There is not a single democrat in the whole North opposed to the extension of Southern society, or so-called extension of Slavery."

trade in the District of Columbia. False. He voted for it. No other bill touching Slavery in that District during the term of office, came up, upon which his vote was not with Freedom. No man other than this fellow, McKean, with any knowledge of the record, will deny it. His assertion that the fathers of the Republic, compromised with Slavery is true. But he did not show why we should do wrong because our fathers did, though he held that we should. His assertion that Congress passed an ordinance in 1787, expressly preserving the territory west of the slave States for Slavery is utterly false—not in the record, and, expressly, repudiated by the testimony of Webster and other great statesmen. He stated in regard to that assertion that he held the documentary evidence in its support in his hand. He was asked to read the act. "It is right here," said he, patting the book. "Well, read it!" thundered the Fremonters. Upon this the Colonel blushed and paled the air deprecatingly, when a "read it!" that shook the poor fellow in his boots, thundered out, and drew from him the unwilling confession that "he didn't happen to have the ordinance with him." He was asked for a reference, which, after referring to his book, he gave. The gentleman to whom it was given declares that no such reservation is to be found in the ordinance.

The meeting broke up with three tremendous cheers for Fremont and three more for Jesse, which shook the building from roof to foundation. Those who are familiar with Irish Heep, in David Copperfield, can form a very fair idea of what Col. McKean is in language, manner and bearing. Well, the Fair turned out grandly—or, the folks did, contrary to our prediction last week. The days were glorious for clear skies and June breezes, and the people raved in force. The numbers present exceeded any previous Fair in this County.

The display in the Fair was not so good as it was last year, yet it was very good. The ladies' department lacked greatly, but it will doubtless be remedied next year. We noticed several articles of utility better represented than last year, among them several pieces of home-made carpeting of good quality and tasteful patterns. The display of dairy products seemed to us better than last year. The butter challenged especial admiration.

Mammoth beets, carrots, turnips, and potatoes made the Root department more than usually interesting. The potatoes on exhibition seemed to east a broad, Irish smile over the whole building. Potatoes are a weakness of human nature in all civilized lands. We all come back to potatoes when we speak of life's substantial. The huge fellows, lying in their baskets, good naturedly prophesied of plenty.

Mr. N. Whitney had a very fine display of fruit and also a jar of cultivated cranberries, looking very fine. We noticed several fine lots of fruit and some tiptop box honey.

There were a few specimens of Cabinet ware on exhibition that could not be beat. Many good pictures there were, and some poor ones. Very little fancy needlework was to be seen, but there were a number of fine samples of table linen.

The Stock department, outside, was unquestionably the best feature of the Exhibition. We learned the names of but few of the exhibitors. Mr. O. H. Blanchard had a fine lot of Devon which justly attracted attention. Mr. Ira Bulky exhibited a very large and fine lot of Durhams which seemed hard to beat. We saw many others deserving especial commendation, but were unable to give the names of owners. The awards in another column will say all we have to say.

Horses: We thought the exhibition very fine. There were some A. No. 1. teams on the ground and many fine single horses. There was a grand display of carriages, a good number of which were from the Covance-que region.

The Charleston Band contributed in a good degree to the enjoyment of the occasion. The receipts were \$1000.00. We are not sure on this head definitely. The occasion was memorable and marked good feeling pervaded the concourse. The Society will do well to set apart three days next year for these festivities, instead of two. Such an arrangement will prove advantageous in many respects, both to the Society and to the people. Two days just arouses interest; the third would enable all to reap the benefit of that interest.

Mr. G. W. Childs, of Liberty, has shown us a model of a Root and Vegetable Cutter, for which he obtained letters patent, bearing date October 7th, 1856. We have examined it with attention and should judge it to be one of the most important labor-saving machines of the time. It is adapted to cutting all kinds of vegetables, from cabbage down to pumpkins; and may therefore be advantageously used for fruit as well as for feed cutting. Our description of the machine would be as follows:

A square box divided into four compartments or hoppers, having adjustable slides for regulating the feed. The bottom of this box is a disc into which are set four cutters at right angles with the axis. Underneath the disc, and at its sluces, or outlets, a number of cutters are placed transversely. The disc is attached to an upright shaft, and made to revolve by a crank geared at the top. The cutters on the upper side slice the vegetable and the rotary motion forces the sliced mass down through the sluces, where it is met by the cross knives and reduced to mince meat in short time.

It is truly a credit to the ingenuity of the inventor, and will, we feel confident, bring him a handsome reward. Mr. Childs may be addressed at—Nauvoo, Tioga Co., Pa.

MURDEROUS AFFRAY.—A young man named Robert Howland was seriously if not fatally injured by stabbing at Knoxville, Monday evening. A party of young men and ladies were returning from singing school, when some misunderstanding arose between Howland and a German named Herberer which resulted in a scuffle. Howland had disengaged himself and passed on, when Herberer came up behind him and stabbed him in the left side, Howland cried out that he was stabbed, and after running a few yards, fell. His wound is pronounced dangerous, if not mortal. He was not expected to recover at last accounts.

Herberer was arrested and lodged in jail Tuesday morning. We forbear comment until the matter shall have been legally investigated.

Gov. Geary says that the Free State men of Kansas must submit to the Kansas bogus law, bloody and tyrannical as they are. Those laws are stupendous frauds, and the man who dares submit to them is no true patriot. We trust that the Free State men of Kansas will resist tyranny in whatever guise it may threaten them. Stand firm. The traitors of the North are striking down the cowardly home ruffians who crucify the bones of their fathers daily and exult like fiends over every triumph of the Border ruffians. Thank God, the truth shall triumph at last. It is a glorious promise—a pillar of strength in the darkest seasons.

SUSQUEHANNA, Oct. 10, 1856. The call for a Republican meeting here today was responded to by three thousand people. The speakers were Gen. Wilson, the Hon. David Wilcox, and the Hon. Galusha A. Grow. It was a gathering of the right kind, and will produce good fruit.

HURRA!

TIOGA THE BANNER COUNTY!

2786 Majority for the Republican Ticket in 29 districts!!!

ONE DISTRICT TO HEAR FROM.

Is that Thunder?

Freemen! We have achieved a splendid victory! Not over men, but over a bad principle. Not for the aggrandizement of a party, but for the preservation of a great and almost free people. This is what we win when every man becomes a worker! Freemen, the fruition of our dearest hope is near. We have put on each our armor, and we will not put it off until the fetters are torn from the limbs of this unhappy people. 29 banner towns in one great and glorious Banner County! Just think of that!

We are unable to give more than the majorities this week. Those given below will not vary materially from the official count, we presume. The official will appear next week. Here are the majorities so far as ascertained:

Table with 3 columns: Name, District, Majority. Includes Delmar, 255 Wellsboro, 105 Charleston, 248 Shippen, 84 Tioga, 191 Jackson, 72 Rutland, 87 Richmond, 137 Law's neck & h. 143 Middlebury, 180 Farmington, 136 Covington & h. 31 Elkland & b. 172 Chatham, 42 Clymer, Elk & Gaines, 200 Westfield, Brookfield, Deerfield & (Knoxville), 256 Morris, 52 Bloss, 89 Union, 103 Ward, 21 Sullivan, 240

Political News.

Great Fremont meetings during the past week have been held in Lancaster, Philadelphia, Harrisburgh, Detroit, Milwaukee, &c., at none of which less than 20,000 free men assembled. The enthusiasm for Fremont increases every day, and will culminate in his election Nov. 4th. Henry Bennett has been re-nominated for Congress in the 21st District. The Worcester Palladium (Mass.) has come out for Fremont. It is a strong Democrat journal. So has the Allentown (Pa.) Register (Dem.). Rev. James B. Fioley, a Methodist preacher, formerly Warden of the Ohio State Prison, while attending a Fremont meeting at Prrble, (O.), as a mere listener, was knocked down with a bludgeon, in the hands of a Buchanan. The Richmond, (Va.) Whig, recommends Mr. Buchanan's withdrawal.

By request of leading Merchants in New York and Philadelphia, Speaker Banks recently addressed an immense assembly, in each city, on the benefits pecuniarily of Liberty over Slavery. J. J. M. Read, the ablest Democratic lawyer in Philad., is making powerful speeches in favor of Fremont.

Wm. J. Duane, who put in type the Farewell Address of Gen. Washington, and was Secretary of the Treasury under Gen. Jackson, is exerting his pen for the election of Fremont.

Moses H. Grinnell, the first merchant in New York, and James S. Wadsworth, the richest farmer in the State, have the Fremont Electoral Ticket in that State.

David Barclay, at present a Democratic Member of Congress from Jefferson Co. Pa., is "stumping it" for Fremont.

Judge Conrad, of Philadelphia, "goes with the crowd" for Fremont.

Col. Wm. P. Smith, for sixty years a leading Democrat in Philadelphia, advocates the election of Fremont.

KEEP IT BEFORE THE PEOPLE!—That if Kansas is lost to Freedom, all is lost! Ten new slave States will be created if Kansas is not snatched from the grasp of the South! SHALL AMERICA BE FREE?

Arrivals from California, show that the Republicans are wide awake. They claim that the old settlers, and all the miners acquainted with Col. Fremont will support him, with the greatest hope and enthusiasm.

The most effective speaker in the Fillmore party is John M. Bats, of Virginia, who says that Fillmore cannot be elected, but JOHN C. FREMONT will be, even though the election may be carried to the House of Representatives!

A BUCHANAN ELECTOR FOR FREMONT.—Henry G. Webb, one of the Democratic Electors of the State of Wisconsin, publishes a letter wherein he very plainly and clearly states his reasons why he cannot support the Pro-Slavery Democratic ticket.

20,000 KENTUCKIANS FOR FREMONT.—The Kentucky Whig "would not be surprised if FREMONT's vote in the State would be swelled up to six thousand." We should not be surprised, says the Newport News, if we should find, in November next, that there are six and twenty thousand good men and true—100,000 Kentuckians—who vote the Constitutional, FREMONT ticket.

On Thursday a reporter of the Tribune was beset by a gang of Ruffians while quietly pursuing his tedious duty in taking notes of Governor Floyd's speech at the Exchange. They tried to beat and bruise, and, perhaps, kill him—all because he was recognized as attached to this journal. He bore himself with gallantry and coolness amid the furious throng, and by the help of the police escaped unhurt.

On Thursday night another gang of Ruffians, led, as we hear, by a "Democratic" Councilman, entered a Republican meeting in the Fourteenth Ward and broke it up. The venerable Judge Emmet was speaking; but they paid him the compliment of forcing him to quit.—N. Y. Tribune.
