THE SALAMANDER SAFES OF PHILADELPHIA AGAINST THE WORLD. EVANS & WATSON.

7:

26 South Fourth Street, Philadelphia. have had the surest demonstration in the following Certifi-cates, that their manufacture of Salamander Safes has at length fully warranted the representations which have been made of them, as rendering an undoubted security against the terrific element;

other valuable doctments, when on Friday last I opened the safe made by your firm.

With my knowledge of its great exposure, both to the intersity of the heat from so hot a fire as that which destroyed the Artisan Building, as also from the force of the full from its former elevated position in the third story, I could entertain but slender hopes prior to its interior inspection, that the contents which I once so highly prized would ever the of any service to me, but as these fears are now happily removed. I feel it only due to say to you, that I can henceforth recommend the use of your Safes to all who may wish to feel a confidence in the perfect security which such means provides against so frightful an element.

The only Safe which, in every instance, preserved their entire contents in the late Extensive Fires.

A T the burning of the Artizan A Buildings, April 10th, and in the great fire in Market Street, May 1st, 1856, the genuine HERRING SAFL, preserved the Jewelry of Geo. W. Slight and Strot. Books, Papara, Sc. of Fisher & Bro., and Edward Scamana & Co., after remaining exposed in the burning ruins for nearly FURTY HOURS, and proving conclusively what we have always claimed for them, their great superfority over all securities now known.

In these fires, the HERRING'S SAFE, standing side by side with those advertised as "warranted to stand 10 per cent, more fire than Herring's came forth the acknowledged victor, not only preserving their contents in excellent order, but being themselves in a condition to go through another ordeal, while the beasted "Salamanders" of other makers were badly used up in every instance, and in some cases their entire contents completely destroyed.

To the public we would simply say, that, during the fourteen years the Horring's safe has been before them, more than two hundred have passed through accidental fires without the occurrence of a single loss.

We would therefore, caution purchavers against the mistrepresentation of interested parties. The Herring's Patient is the only Fire-proof Safe made in this city which is protected by a Patent Right, and we will guarantee it to resist more than double the amount of heat of any other safe now known.

subscribe in advance for the Map) are also to be inserted as their respective places, by the style of the Maps exhibited by the capvassers.

Maps of the principal villages will be inserted, on a large scale, in the margin; also engraved views of public and private huildings.

No expense will be spared to execute the Map in the highest style of art. The pian will be plotted on a suitable scale, so as to show distinctly all the particulars above specified, and make a large and ornamental map. To be engraved and delivered to subscribers, handsomely colored, so as to show the territory comprised in each township, and mounted on rollers. As the map will contain song eighteen square feet of engraving, at a cost of several thousand dollars, it will be seen that only a large subscription list will warrant the heavy expense incurred. The maps are sold only by subscription, and at only one price. No more maps issued than subscribed for. The map will contain tables of the population, productions, assessed value of property, religious societies, schools, number of voters. &c., of each township and village raspectively, carefully made up from the latest authentic documents.

Relying upon a just appreciation of our efforts, by the citizens of Tioga, to issue a map of their county on the above plan, that shall answer their proper expectations, and he entirely satisfactory, subscriptions are respectfully solicited by
