Virginita, as one of the States of the Rhpublic, theoretically admits universal suffrage. In practice' however, it appears that this right must be exercised according to the prevailing State sentiment, or, a man is in danger of life. A Mr. Timothy Stannard, recently, at Nor-fotk, gave a vote for Fremont, which, when proclaimed by the inspector, as is the custom in that State, was refused by that officer, and the voter had to leave the State for fear of fund Arolence.

OREGON.-A recent letter from Oregon states that the condition of things connected with the Indian tribes in Northern Oregon and Eastern Washington Territory, have assumed a more plarming aspect than ever, owing to the fact that several of the largest tribes in Oregon and Washington have joined together as one band to fight the Bostons, Nesperces, Spokans and Flatheads, numbering about fifteen hundred warriors, who have heretofore taken no part with the small bands that have caused so much trouble within the last two years in that part of the country.,

BRAH-KILLING .- Mr. Tracy, of Ratiling Run, in the extreme Northwestern part of this county, writes that himself: and fellowhunters have killed ten bears within a few beeks, and that several have been killed by weeks, and that several nave been killed by the parties, making in all seventeen. The reader at a distance would no doubt infer from this that Lebanon county is a wilderness, and that we all here are fiable, at any time to be we may indeed regret; for chiralters, that we all here are fiable, at any time to be we may indeed regret; for chiralters, that such an the weild have a wild benefit. devoured by wild beasts. The harbor for this kind of visitors is found in the Blue Mountains, which pass through the Northern part of our county. - Lebanon Courier.

DOES TIGHT LACING PREVENT OF PRO-DUCE: CONSTMPTION .- Dr. Hall maintains in his Journal of Health, that tight lacing on the part of ladies does not originate consumption, but has a tendency to prevent it; if not actually present, and to cure it if it is. The doctor asserts that tight lacing affects the lower portion of the lungs mainly, and causes the person to breathe less with the bottom of the lungs and more with the top; while he adds that consumption attacks the top of the lungs, under the collar bone, and that long before it reaches half way down, the person dies, not actually for want of enough sound lungs to live upon, but from the effect which the consequence of their wearing corsets; after and accepted, shall at last sit down with those who which he proceeds to show that, in proportion hear the footfalls of the angels. to population, fewer woman than men die of consumption, and gives his conclusion in regard to the efficacy of tight lacing.

A WORM IN A TOOTH .- On Thursday last, a medical gentleman of Ballymena was employed to extract a patient's tooth. It was a grinder of large size, apparently sound, and so firmly seated that it broke in the effort for THES. E. E. KIN BALLE, its removal. On examining that portion of the tooth which came off with the instrument, a very extraordinary worm-shaped living animal was found adhering to the centre of it. On being carefully removed without injury, it proved to be five-eights of an inch long, lively examine her stock and work before purchasing elseas an est, of a blood-red color, and about the thickness of a woolen thread. On viewing it through a microscope of limited power, it appeared to be ringed or jointed in its formation. No legs were visible, and it moved by erecting its body, arch-like, in the centre, and projecting either end at pleasure-for it appeared to have a head at each extremity. One of the heads was large, flat and broad in proportion to the creature's size, with a capacious mouth, and two black eyes, set very widely apart, and projecting from the upper part of its head. The other head was small er, with a lengthened snout, and mouth opening from underneath.—Ballymena Obser-

A DISAPPOINTED FREMONTER .- A friend of ours residing in Palantine precinct. Cook county, told us a fortnight ago that Palantine would go unanimously for Fremont. He said that all the Democrats had been couverted but one old fellow, who could neither read nor write; but that a compromise had been effected with him-that he had agreed to pair off with a Fremonter, and not go to the polls. Yesterday we received the following letter from that friend:

"PATANTINE, Nov. 5th, 1856.—Eds. Tribune: That old cuss voted-he wouldn't stay paired. An Irishman got into the precinct and voted. It is bad, but could not be helped. We did the best under the circumstances we could. Next time it will be a clean vote for freedam."—The vote in Palantine stood:

The history of this curious boy is as follows.

Button, an officer of the East India Company,
having by a long residence in Unper India, acquired
a perfect knowledge of the Oriental, languages and projected a visit under the auspices of the Royal Geographical Society, to the Holy City of Mecca, and the tornb of the Prophet at Medina, places rarely, if ever before visited by any English-man. This he successfully accomplished in 1853-4, disguised as a Mohammedan Darvish. The his-4. disguisce as a Monammedan Lorvish. Line his-tory of the pilgrimage is not surpassed in interest and originality by any book of travel ever published —embracing his residence at Caire as a Mohamme-dan Student; the journey across the desert with the great annual caravan of Pilgrims; the visit to the tomb of Mohammed; the discovery that the sacred black stone of Mecca is an aerolite; the annual ser-

and the only accurate account of the caremonies of the Mussleman faith.

To the religious community this work furnishes information never before made public, respecting the ceremonial laws of a large proportion of the Eastern World; while for general interest, Burton's narrative will compare favrrably with sither Eothen of Crescent and the Cross.
