THE SALAMANDER SAFES OF PHILADELPHIA
AGAINST THE WORLD.
EVANS & WATSON.
26 South Pourth Street, Philadelphia.

have lind the surest demonstration in the following Certificates, that their manufacture of Silamander Sufes has at longth fully warranted the representations which have been made of them, as rendering an undoubted security against the terrific element:

made of them, as rendering an indoubted security against the terrific element:

Puntarkens, April 12, 1856.

Meirrs Evans & Midson—Genits:—It affords us the highest satisfaction to state to you, that owing to the very protective qualities of two of the Sahmander, Sales which we purchased of you some few months since, we saved a large-portion of our Jewelry, Books, Papers, &c., exposed to the calamitous fire in Ranstead Place, on this morning of the 11th inst.

When we reflect that these Safes were located in the fourth story of the building we occupied, and that they fell subsequently into a heap of hurning ruins, where the vast concentration of heat caused the brass plates to melt, we cannot but regard the preservation of the valuable contents as most convincing proof of the great security afforded by your Safes. We shall take much pleasure in recommending them to men of business as a sure galance against fire.

George W. Sinons & Dro.

PRILABELPHY, April 12, 1856.

Messrs Evans & Watson—I have to offer you my testimony in favor of the great security afforded to my entire stock of jewelry, books, papers, &c., during the recent disastrons confingration in liansteen place, from the fact that the same were contained in two of the Salamander Safes manufactured by you. Having milen from the fifth story of the Artisan Building, where they were previously placed and exposed to a vast heat for a long time, the preservation of the valuable deposits secured to every one who witnessed the opening and interjor examination, a matter of profound astonishment.

To all who may require a perfect protection from the ravages of fire, I shall not hesitate to recommend the use of your Safos, as I consider they have now undergone the most trying test.

N. E. Mordan.

N. E. Morgán.

Prilabelphia, April 14, 1856

Messrs Erans de Watson—Gentlemen—No doubt you will be deeply gratified to learn the good condition in which I discovered my book, policy of insurance, certificates of stock, and other valuable documents, when ou Friday last I opened the safe made by your firm.

With my knowledge of its great exposure, both to the intonsity of the heat from so hot a fire as that which destroyed the Artisan Building, as also from the force of the fall from its former elevated position in the third story. I could entertain but slender hopes prior, to its interior inspection, that the contents which I once so highly prized would ever be of any service to me, but as these fears are now happily removed, I feel it only due to say to you, that I can henceforth recommend the use of your Eades to all who may wish to feel a confidence in the perfect security which such means provides against so frightful an element.

July 3d 1886.

Corn Shellers,
Of all the improved patterns that commend them-Or all the improved patterns that commend themselves to farmers.'

Besides this, we intend to furnish better Ware, better articles and better work, at lower prices than any other establishment in Tioga county will be able to do. And the man who pays CASH, can get what he buys at reduced prices. This is the fair way of doing business, and the system upon which

the Tioga Foundry and Muchine Shop will be conducted hereafter. Don't wait for the wagon, but come on.

TABOR, BALDWIN & CO.

Tioga, Nov. 15, 1855.—If. Old Iron and Copper, and all kinds of produce aken in exchauge for work.

IMPROVEMENT EXTRAORDINARY, WE would respectfully call the attention of Mill owners and all interested in the use of water dower in this vicinity, to a patented Iron Water Wheel, (called Greenleaf's gravity and percussion Water Wheek, one of which they have recently put in a Saw Mill owned by Judgo White of Wellsboro' and Dr. Archer of Morris township, and situated one and a fourth miles from Babb's Creek, on the Stony Fork. This wheel on Saturday the 7th inst., drove a single saw to saw five thousand and one hundred feet of white pine lumber; 4100 feet of which was one inch in thickness, 400 feet 2 inches thick, 500 feet 14 inches thick. This Wheel used a very small quantity of water, only discharging about 90 square inches and with about 11.1 feet head and fall of water while performing the above. These Wheels are well adapted to the propelling of all kinds of Machinery driven by Water power. They are very simple and substantial in that any other from Water Wheel in operation in this vicinity with which they are acquainted. They offer for sale on very liberal terms the patent right for Counties or States, and also to furnish and put in operation the Wheels in Mills in this vicinity on rea sonable terms. For farther information address A Greenleaf, Morris township, Babba Post Office, or L
