THE TIOGA COUNTY AGETATOR.

THE LEGEND OF A HORSESHOE .- This is the simple legend of one. A good countryman whis taking a rural walk with his son, little Thomas. As they walked along, the fa her suddenly stopped.

"Look !" he said, "there's a bit of iron, a pice of a horseshoe, pick it up, and put it in your picket,"

"Posh I" answered the child. "It is not worth stooping for."

The father, without saying another word, picked up the iron, and put it in his pocket. When they came to a village, he entered the blacksmith's shop, and sold it for three farthings, and with that sum he bought some cherries. Then the father and son set off again on their ramble. The sun was burning hot, and neither a house, tree, nor fountain of water were in sight. Thomas soon com-plained of being tired and had some difficulty in following his father, who walked on with a firm step. Perceiving that his boy was tired, the father, let fall a cherry, as if by accident. Thomas stooped down and quickly picked it up, and devoured it. A little farther he dropped another, and the boy picked it up as eagerly as ever; and thus they continued, the father dropping the fruit, and the son picking them up. When the last one was eaten the father stopped and turning to the place. boy said :

"Look my son! If you had chosen to stoop once, and pick up the piece of horseshoe, you would not have been obliged to stoop so often to pick up the cherries !"

There's a good and pleasant moral in this little anecdote, which may be of benefit to all 01 U.S.

HE DIED AT HIS POST .- A sad, but beautiful and touching, scene was witnessed at the nccident at Du Page bridge. On the morning after the accident the slow tolling of a bell was heard On looking to see whence it came, it was discovered to proceed from the engine as it lay submerged in the water. The waves as they foamed and surged over the sunken engine swayed the bell, which alone with the smoke pipe appeared above water. and caused it to give it a tolling sound. When the engines was raised from the water the engineer was found in a standing posture, with his stiff, cold, icy hand firmly grasping the throttle valve, as though amid the thick darkness he had discovered the perilous condition of the train, and had sprang to avert the run. But it was too late, the engine and train, with its precious freight of life and property, went down, and during the dreary night, the engine boll and the mad rushing waters rang out a solemn requiem for the deac. It is probable that had not the freight train gone down as it did, the passenger train from Chicago, due two hours later, and loaded with sleeping passengers, would itself have taken the fatal plunge.-Jolict Democrc.

TYRANNI -Addison says, that the dog has been the companion of man 6,000 years and has learned only one of his vices, that is to worry his species when he finds him in trouble Tie a saucepan to a dog's tail, and another dog will fall upon him; put a man in prison for debi, and another will lodge a detainer against him

PRACTICAL BOY .- "Little boys should be seen, not heard." as the urchin said when he could not recite his lesson.

CHINESL SUGAR-CANE.-Hon, Schuyler Coltax, of indiana, writes as follows of the peculiarities of the new Corn : "1. is cultivated like corn, and can be

raised wherever that crop can be matured.

To get the greatest benefit from manure, it must be intimately mixed with the soil. I makes a much greater difference than most farmers suppose, whether the manure is buried in lumps or clods, or whether it is carefully spread and intermixed with the soil, as far as may be by plowing and harrowing. The richest fertilizer is of no use to a plan. unless fitted for plant food-so intermixed

with the soil as to invite the roots, and so porous to moisture as to become soluble, that the roots may take it up.

IF you would fatten cattle profitably and well, give them plenty of good wholesome air, plenty of rest, a nice clean resting place and do not disturb the paturally quiet state of their minds, and finally give them plenty of good nutritious food properly prepared. If, you feed grain, let it be crushed or cooked; if hay or fodder, let it be cut.

A FABMEB in southern Alabama advises those smoking hams to throw upon the fire occasionally, a handful of china berries, which, he says, will be an effectual preventive against skippers.

HAVE a place for every tool, and never leave one out of its place; or, to go further, "a place for everything, and everything in its

IF you would preserve the health of your horses, exercise them in the open air every day when not in use.

THE best plan to make cattle vicious and jumping, is to have very fine feed just the other side of a very poor fence.

THE temperament of animals is always shown by their color. Animals of different colors always possess superiority of temperament.

Keep the legs of your horses clean-dirt is productive of diseases.

THE Subscriber having purchased a part of the Stock of Drugs and Medicines formerly owned Stock of Drugs and Medicines formerly on new by Robert Roy, is now receiving fresh supplies. He would respectfully inform the public that he intends to continue the Drug business at the old stand. The store will be left still in care of the former proprietor (Robert Roy) and it is hoped that by its ample provision for the wants of the community, and by attention to customers, it may still be found worthy of public favor and patronage. Call and see for yourelves. JOHN A, ROY. October 9th, 1856.
