# THE TIOGA COUNTY AGITATOR.

A BEWILDERED EDITOR.-The editor of the Auburn American has been attending a musical source. Some of the music did not please him. He says : "After the Italian music, it was proposed

to sing an English glee; and at length Calcoll's old, familiar, and beautiful Red Cross Knight was fixed upon. The print was small, the light was dim, and as everybody insisted upon joining, of course not half of the performers could read the words. The consequence was that the Red Cross Knight was wafied to our ears, as we stood modestly apart-we dont sing-in the following shape. "Blow, warden, blow thy sou-ou-ounding

horn, "'Thy horn-

" 'And thy ba-a-anner wa-a-ave on high-"'For the Christian's have come to the

tum tum tum, ""And have ah-ah tum to ry?

"We left."

"THAT which thou hast to do, do it with all thy might," said a clergymen to his son one morning. So I did this morning, replied Bill, with an enthusiastic gleam in his eye .----"Ab, what was it, darling ?" and the father's hand ran through his offspring's curls. Why I walloped Jack Edwards till he yelled like thunder; you should just hear him holler, dad." "Dad" looked unhappy while he explained that the precept did not apply to any act like that and concluded mildly with, "You should not have done that my child." "Then he'd a walloped me," retorted Bill. "Better,' exposiblated the sire, "for you to have fled from the wrath to come." "Yes," answered Bill, by woy of a final clincher. "Jack can run twice as fast as I can." The good man sighed, went to his study, took up a pen and endeavored to compose himself.

THE LAW OF THE FINGER-RING,-If a gentlemen wants a wife, he wears a ring on the first finger of the left hand; if he is cngaged, he wears it on the second finger; if married, on the third; and on the fourth, if he never intends to get married. When a lady is not engaged she wears a diamond ring on her first finger; if engaged, on the second; if married, on the third; and on the fourth, if she intends to be a maid. When n gentleman presents a fan, a flower or trinkets to a lady with the left hand, this, on his part, is an overture of regard : should she receive it with the left hand, it is considered us an acceptance of his esteem : but with the right hand, it is a refusal of the offer. Thus by a few simple tokens, explained by rule, the passion of love is expressed.

THE VAN OF CIVILIZATION-BEES AND QUAILS,-Two remarkable facts are to be noticed in respect to the advancement of the whites. The first is that of the quail, unknown to the Indian, makes its first oppearance--from whence no man knows-when the white man plows and plants fields, affording an abundance of delicious food to the pioneers. The second fact is, the honey bee is not found in the country while in the possession of the Indians. It keeps just in advance of the advancing wave of civilization. When the Indians see swarms of these new visitors their wise men sadly acknowledge that it is time for them to abandon their pleasant hunting grounds and the graves of their fathers and seek new homes

AN INCIDENT .- The Congregationalis publishes the following account of an accident which happened at Hanover, N. H.:

"Yestërday afternoon, after churdh we had n pretty operation. A young man was out hunting rabbits down by the river and while standing with his rifle resting on the ground, his dog jumped up and his paw striking the hammer discharged the rifle, driving the shattered ramrod into his cheek and side of his head, lodging the bullet, which entered his with, upon, his temple, in front of his ear

There is an inscription on a tomb-stone at La Point, Lake Superior, which reads as follows: "John Smith, accidentally shot, as a mark

of affection by his brother." It is said that the first personage who wore hoops, is lady Saturn, one of the ladies in waiting upon the Sun. High authority for fashion, that.

MINNESOTA .- By the law passed by Congress to enable the people of Minnesota to come into the Union as a State, the apportionment of representatives is of course, one to each 100,000 inhabitants, and an additional one for any number over 50,000. It is supposed that the Territory will contain this summer more than 250,000 people, so that the State of Minnesota will come in with three representatives, the same number that Wisconsin has now, with a population of over 700,000, and as many as Wisconsin can have till after the next apportionment, to be made in 1861, four years hence, when the State will number over a million of people.
