CHAMPION. THE RECENT TRIALS at Reading have endorsed the current of public opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the ONLY SAFE that will not burn.

Extract from the Committee's Report on the Trial of Iron Safes at

Reading
"On the 26th of February all the members of the committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied, that all was right. The dry following, the burning took place, under the superintend-ence of the Committee. After a fair and impartial burning for five hours, the Safe of Messra Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messra Farrels & Herring were in good condition, and no fire inside."

The above Safes can be inspected at 34 Walnut Street, where the public can satisfy themselves of the great superiority of the "Herrings Patent Champion," over the defeated and uncel-up "inside Iron Door Salamander."

FARRELS & HERRING,

34 Walnut Street, Philad's.

Only Malers in this State of Herring's Putent Champion Safes.

The attempt made by other parties to bolster up the reputation of a Safe which has failed so signally in accidental fires in Philadelphia, (Ranstead Place,) by taking one out of an agent's store, (H. A. Lantz.) made double thickness, (diffurent from those they sell) to "burn up" one of Herring's, (half as thick) has met with its true reward. Herring's Safe could not be burnt, proving couclished that the only reliable Safe now made is "Herring's" of which over 12,000 are now in actual 134e, and more than 200 have been tried by fire wellhout a single loss.

Truth is Mighty and must Prevail. Report of the Committee appointed to superintend the Burning of the Iron Safes, at Reading, Feb.

21, 1857.

"The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the Paymaster of the Philadelphia and Reading Railroad Company, in his office. at Reading, manufactured by Farrels & Herring, and the safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books

The fire was started at θ_1 o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which Safes were then cooled off with water, after which the books and papers taken the control of the safes were then cooled of the books and papers taken the cooled of the cooled of the books and papers taken the cooled of the cooled o consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened and the books and papers taken out by the Committee and sent to H. A. Lants's out by the Committee and sent to H. A. Lantzs store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring, were in our judgment, damaged fully fifteen per cent more than those taken from Evans & Watson's Safe. We believe the above to have been a fair and im.

partial trial of the respective qualities of both Safes,
JACOB H. DYSHER,
DANIEL S. HUNTER,

Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of their respective Safes.

G. A. NICHOLLS,
H. H. MUHLENBERG, JAMES MILHOLLAND,

EVANS & WATSON have now on hand 300,000 pounds of the above Safes, which they offer for sale on better terms than any other Manufacturer in July 13, 1857. ly.
