# THE TIOGA COUNTY AGITATOR.

#### Three Fourths of the Village of Corning Under Water.

We delay the Journal, to give a brief ac count of another disastrous flood in this village and vicinity. For the last ten days rain has fallen in large quantities, until the it rained very hard for two hours, raising McCulloch's Creek, (which comes into this village a little west of the Court House,) to an unusual height. Four or five shanty dwellings and the bridge over the Creek, on First Street, were carried down the stream and broken to pieces, and the gravel and flood trash accumulating where the creek passes under the Erie Railroad soon blocked up the channel and turned the roaring current west towards the Depot and east down Erie Avenue, from whence it spread over the entire village plot, between the hill and the river. This was about six o'clock in the afternoon. The streets were under water from one to three feet in depth and the rapid current rendered most of the crossings im-passable. The cellars on Market St., were generally filled with heavy Goods, Groceries, Provisions &c. &c. The water rushing like a torrent, filled the cellars, before, the larger portion of the Goods could be removed. The destruction of property was therefore immense. R. E. Robinson was the greatest sufferer. His damage is estimated at \$5000. The Dickinson House cellar was filled to overflowing. A greater proportion of Goods were saved from the cellars below, as the Merchants had longer notice of the impending flood, but all suffered seriously. Throughout the level portion of the village, the cellars of nearly all the dwelling-houses were partially or entirely filled with water. It is impossible to estimate the damage done in the destruction, of Groceries, on Market St.Pand the injury done to gardens, fences, and cellars through out the village.

The flood came so unexpectedly that but little could be done, to save property. No loss of life occurred as far as is known. The Shanty dwellings on the border of the creek were undermined so suddenly that the families lost everything and escaped themselves with great difficulty. The one story frame building, which was an addition to the dwelling house of Geo. Sergeant on the bank of the creek on First Street was swept away, Large portions of the Erie & Tioga Railwere undermined or washed away. ronds

At Painted Post, we learn that the Conhocton River was turned out of its course and overflowed nearly the whole village, doing immense damage. On the Tioga Railsond the creeks rose rapidly and washed away the track at several points between here and Lawrenceville. Above that point the storm did not reach.

AreGibson, the creek that flows down to the East of Narrows Hill, became a furious torrent, sweeping away the Tavern Stand of Peter Reese, and bearing it into the Canal. Mr. Reese kept. also a Grocery & Provision Store, and had just replenished his stock. Nothing of any consequence was saved. He lost about 85000, which falls with peculiar force upon him, as it swept away his entire property .--- Corning Journal,

SHOCKING AND FATAL ACCIDENT.-A.most distressing and fatal accident occurred on Wednesday afternoon at the paper mill of J. H. Duriz, at Eden, about three miles from this city, which resulted in the death of a young man, named Cyrus Harmes, in the employ of Beecher & Bro. A new pulp engine, which had just been finished for the paper mill, was put in operation for the first time. The young man was learning the moulding business with Messrs. Beecher, and about four o'clock in the afternoon, he went to the water wheel for the purpose of checking its speed in order to put on the lan belt. Wishing to clean the rack which is set in the bay above the water wheel to keen the rubbish out, and not finding the rake in its place, he went into the paper mill to look for it .--In attempting to pass between the wall and a large belt wheel, he missed his footing, and fell on the pulley, which caught his thigh between the abutment sill and the edge of the pulley, a space of about 11 inches, mangling it in a shocking manner, and literally tearing the leg off close to the abdomen. Medical aid was called in, but his system had received so severe a shock that it was not deemed advisable to amoutate the limb. He lingered until about midnight .- Lancasier Intelligencer.

#### TO THOSE WHO WANT FARMS A FARM WITHIN THE REACH OF EVERY MAN.

**OF EVERY MAN.** THE RIDGWAY FARM COMPANY has made arrange-' ments by which all who desire to settle or purchase a home can do so. The Farms consist of the best limestone soil of the most superior quality for farming, in a rapidly improving place, into which an extensive englgration is now pouring. The property is located in Elk County, Fennsylvania, in the midds of a thriving population of some 10,000. The climate is per-fectly healthy, and the terrible plaque of the west fover is unknown. It also has an abundance of the best quality of Coal and Iron. The price to buy it out is from 32 to 320 per acte, payable by instalments, to be located at the time of pur-chasing, or a share of 25 acres entitling to locate the same for \$200, paymble 36 per month or 12½ acres payable 34 per mouth. Discount for every sum of \$100 and under, paid in advance, a discount of 5 per cent. In considering the advantages of emigrating to this locality the following are presented: Event The series of the state of the solution of

The critical constraints of the form the limit of the li

this property, various other roads have been opened to accom-modate the emigration and settlement which has already ta-ken place. There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where le can live in property and inde-pondence in a climate PERFECTLY HEALTHY. No case of the fore ever having been known to occur in this settlement. It is not like going to the backwoods of the West, among perhaps intolerant people, where there is no so-ciety, churches, or schools, where the price of land is high, and where the ending used to the healthick cli-mate in the world, has to endure sickness and pain, and per-haps ruins his health and that of his family. But here is a chriring settlement taying three towns, collicating aburches, schools, hastos, stores, saw mills, grist mills, and everything desired. There is a cash market at hand. The lumber trado last year amounted to over two hundred utilion feet of lum-ber. In a start time, owing to the cost, it will become still mare valuable, as a number of iron works and manufactories will soon be started; they are at present guring there ex-tensively at Warren. Even for these who do not wish to go there, the payments are such that they can easily buy a farm to zave their tising families from want in the future, or to fain a competence by the rise which will take place in the value of lands. By an outlay scarcely missed, a substantial provision can be made. Persons should make early application, apply or write to E. Peffories, Screttary, No. 135 Wains Street, below Fifth, Phil-adelphia. Truth is Mighty and must Prevail. Report of the Committee appointed to superintend the Burning of the Iron Safes, at Reading, Feb. 27. 1857.

"The undersigned, members of the committee, do respectfully report, that we suw the two Safes origin nally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz The Safe in use by the Paymaster of the Philadel phia and Reading Railroad Company, in his offic at Reading, munufactured by Farrels & Herring, and the safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books

and papers precisely alike. The fire was started at 84 o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half clostnut top wood were entirely, consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened and the books and papers taken out by the Committee and sent to 11. A. Lantz's out by the Committee and sent to 11. A. Lantz's' store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring, were in our judgment, damaged fully fifteen per cent more than those taken from Evads & Watson's Safe. We believe the above to bave been a fair and inte

We believe the above to have been a fair and int partial trial of the respective qualities of both Safes. JACOB H. DYSHER,

DANIEL S. HUNTER, Having been absent during the burning, we fully seincide with the above statement of the condition of the papers and books taken out of their respective Safes.
