TO THOSE WHO WANT FARMS A FARM WITHIN THE REACH OF EVERY MAN.

THE RIDGWAY FARM COMPANY has made arrangements by which all who desire to settle or purchase a home

an do so.

The Farms consist of the best limestone soil of the most The Furms consist of the best limestone soil of the most superior quality for farming, in a rapidly improving place, into which an extensive emigration is now pouring. The property is located in Elk County, Pennsylvania, in the midst of a thriving population of some 10,000. The climate is perfectly healthy, and the terrible plague of the west forer is unknown. It also has an abundance of the best quality of Coal and Iron. The price to buy it out is from \$3 to \$320 per scre, payable by instalments, to be located at the time of purchasing, or a share of 25 acres entifling to locate the same for \$300, payable \$50 per month or 12% acres payable \$4 per month. Discount for every sum of \$100 and under, paid in advance, a discount of 5 per cent. will be allowed, and for over \$100 a discount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented:

over \$100 a discount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented:

First.—The soil is a rich limestone, capable of raising the heaviest crops, owing to which this settlement has attained its present great prosperity.

Scond.—It is the centre of the great North West Coal Basin, and is destined soon to become one of the greatest business places in the State. It will supply the great Lake market, (according to population and travel the greatest in the Union.) It has five workable veins of the best Bituminous Coal amounting in the agregate to over 22 feet, which makes 22,000 tons of coal under each acre. This will make the land of inestemable value.

The eminent state geologist Dr. Chas. T. Jackson of Boston, has made a geological survey of the land, and analysed the coal, the iron ore and the limestone. This report together with maps will be furnished to inquirers.

Third—Three railroads are laid out through this property. The Sunbury and Erie Railroad gives us a market for our coal to the lakes—it runs from Erie to Philadelphia. A large part of this road has been finished, and is now in running order. A heavy force is now working from Erie towards our land in the western direction, the means for the completion of which has been raised—it will soon be finished. The Alleghany Valley Railroad connects us with New York, Boston and Pitts-burg. The Venange Road connects us with the West.

There are already good Turnpike Roads running through this property, various other roads have been opened to accommodate the migration and sottlement which has already taken place.

There is no opportunity equal to it now offered to the man

mis property, various other roads have been opened to accuming date the emigration and settlement which has already taken place.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a climate PERFECTLY HEALTHY.

No case of the fever ever having, been known to occur in this settlement. It is not like going to the back woods of the West, among perhaps intolerant people, where there is no society, churches, or schools, where the price of hand is high, and where the emigrant, after being used to the healthiest climate in the world, has to endure sickness and pain, and perhaps ruins his health and that of his family. But here is a thriving settlement having three towns, containing churches, schools, hotels, stores, saw mills, grist mills, and everything desired. There is a cash market at hand. The lumber trade last year amounted to over two hundred million foot of lumber. In a short time, owing to the coal, it will become still more valuable, as a number of iron works and manufactories will soon be started; they are at present starting them extensively at Warren. Even for those who do not wish to go there, the payments are such that they can easily buy a farm to save their rising families from want in the inture, or to gain a competence by the rise which will take place in the value of lands. By an outlay scarcely missed, a substantial provision can be made.

Persons should make early application, apply or write to E. Jefferies, Secretary, No. 135 Walnus Street, below Fifth, Philadelphia. Letters carefully answered giving full information.

Shares or tracts of land can be bought or secured by letter

adeiphia. Letters careinty answered group for manimation.

Shares or tracts of land can be bought or secured by letter calcioning the first instalment of five dollars, when the subscriber will be furnished with books, maps, &c. Warrantee Deeds given Persons can also purchase from our Agents. Route from Philadelphia to Tyrone on the Pennsylvania Central Railrond, and thence by Stage to the land. This is a delightful season to visit St. Marys—the best hotel accommodation is offered. Enquire for E. C. Shultz, Esq., the Agent for the property at St. Marys.

the Burning of the Iron Safes, at Reading, Feb. 27, 1857.

"The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a turnace, viz: The Safe in use by the Paymaster of the Philadel, phia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and naners precisely alike.

M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened and the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring, were in our judgment, damaged fully fifteen per cent more than those taken from Evans & Watson's Safe.

La Salle's Original, ONE DOLLAR A BOX.

DROF, GEO, H. DE BAR, has recently returned I from Europe, and while there, obtained from the celebrated French Chemist, La Salle, at an enormous outlay, the receipt and exclusive right of the United States and Canadas, to manufacture and sell this celebrated preparation called "whiskerando," which has never been known to fail to cause whiskers and moustaches to grow luxuriantly and heavy, ers and moustaines to grow unturnity and neavy, even on beartless faces, in two months after-first application. To those persons whose beards are light and wiry it recommends itself. A few applications w'll render it soft, thick and pliable. Frenchmen are noted for their beautiful whiskers and moustach 2s, which many of them attribute to the excel-lence of La Salle's Whiskerando.
