One of our neighbors had it bad, and my wife cured him with two doses of your Fills, while others around us paid from five to twenty dollars doctor's bills, and lost much time, without being cured entirely even then. Such a medicine us yours, which is actually good and honest, will be prized here.

The Farms consist of the best limestone soil of the most superfor quality for farming, in a rapidly improving place, into which an extensive emigration is now pouring. The property is located in Elk County, Pennsylvania, in the midst of a thriving population of some 10.000. The climate is perfectly healthy, and the terrible plague of the west fever is unknown. It also has an abundance of the best quality of Coal and Iron. The price to huy it out is from \$3 to \$20 per sere, payable by instalments, to be located at the time of purchasing, or a share of 25 acres emitting to locate the same for \$500, payable \$5 per month or 12½ acres payable \$4 per month. Discount for every sum of \$100 and under, paid in advance, a discount of 5 per cent. will be allowed, and for over \$100 ad discount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented:

First—The soil is a rich limestone, capable of raising the heaviest crops, owing to which this settlement has attained its present great prosperity.

the following are presented:

First—The soil is a rich limestone, capable of raising the heaviest crops, owing to which this settlement has attained its present great prosperity.

Scoon—It is the contre of the great North West Coal Ba-

second—It is the centre of the great Aorth west Cost Basin, and is destined soon to become one of the greatest business places in the State. It will supply the great Lake market, (according to population and travel the greatest in the Union.) It has five workable veins of the best Bituminous Coal' amounting in the agregate to over 22 feet, which makes 22,000 tons of coal under each acre. This will make the land

22,000 tons of coal under each acre. This will make the land of inestemable value.

The eminent state geologist Dr. Chas. T. Jackson of Boston, has made a geologucal survey of the land, and analysed the coal, the iron ore and the limestone. This report together with maps will be furnished to inquirers.

Third—Three rullroads are laid out through this property. The Sunbury and Eric Railroad gives us a market for our coal to the lakes—it runs from Eric to Philadciphia. A large part of this road has been finished, and is now in running order. A heavy force is now working from Eric towards our land in the western direction, the means for the completion of which has been raised—it will soon be finished. The Alleghany Valley Railroad connects us with New York, Boston and Pittsburg. The Venango Road connects us with the West. There are already good Turnpike Roads running through this property, várious other roads have been opened to accommodate the emigration and settlement which has already taken place.

There is no opportunity could to it now offered to the man

mo date the emigration and settlement which has already taken place.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a climate PERFECTLY HEALTHY.

No case of the fever ever having been known to occur in this settlement. It is not hike going to the backwoods of the West, among perhaps intolerant people, where there is no society, churches, or schools, where the price of hand is high, and where the emigrant, after being used to the healthiest climate in the world, has to endure sickness and pain, and perhaps ruins his health and that of his family. But here is a thriving settlement having three towns, containing churches, schools, hotels, stores, saw mills, grast mills, and overything desired. There is a cash market at hand. The lumber trade heat year amounted to over two hundred million feet of lumber. In a short time, owing to the coul, it will become still more valuable, as a number of iron works and manufactories will soon be started; they are at present starting them exmore valuable, as a number of iron works and manufactories will soon be started; they are at present starting them extensively at Warren. Even for those who do not wish to go there, the payments are such that they can easily buy a farm to save their rising families from want in the future, or to gain a competence by the rise which will take place in the value of lands. By an outlay scarcely missed, a substantly provision can be unde.

Persons should make early application, apply or write to E. Jefferies, Secretary, No. 135 Walnus Street, below Fifth, Philadelphia. Letters carefully answered giving full information.

Shares or tracts of land can be bought or secured by letter enclosing the first installment of five dollars, when the subscriber will be furnished with books, maps, &c. Warrantee Deeds given Persons can also purchase from our Agents. Route from Philadelphia to Tyrone on the Pennsylvania Central Railroad, and thence by Stage to the land. This is a delightful season to visit St. Mary's—the best hotel accommodation is offered. Enquire for E. C. Shultz, Esq., the Agent for the property at St. Mary's.
