EVANS & WATSON,

PHILADELPHIA Manufactured Salamander Safes, No. 26 S. Fourth Street, Philada. .

Truth is Mighty and must Prevail. Report of the Committee appointed to superintend the Burning of the Iron Safes, at Reading, Feb.

27, 1857.
"The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a turnace, viz:
The Safe in use, by the Paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books

and papers precisely alike.

The fire was started at 81 o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened and the books and papers taken out by the Committee and sent to H. A. Lantz's stars for public accountable of the superintendent of the purpose of the superintendent of the superinten store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Sase manusactured by Evans & Wutson were but slightly affected by the intense heat, while those taken from the Sase manusactured by Farrels & Herring, were in our judgment dynamed fully fifteen per cent more than judgment, damaged fully fifteen per cent more than those taken from Evans & Watson's Safe.

We believe the above to have been a fair and im-

partial trial of the respective qualities of both Safes. JACOB H. DYSHER, DANIEL S. HUNTER,

Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of their respective Safes.

G. A. NICHOLLS,

H. H. MUHLENBERG,

JAMES MILHOLLAND, EVANS & WATSON have now on hand 300, 000 pounds of the above Safes, which they offer for sale on better terms than any other Manufacturer in the United States.

YOU DON'T SAY SO? YES SIR, I DO! I say that FOLEY has the best and cheapest assortment of WATCHES I ever saw in Wellsboro,' Such heavy cases and

TO THOSE WHO WANT PARMS A FARM WITHIN THE REACH OF EVERY MAN.

THE RIDGWAY FARM COMPANY has made arrangements by which all who desire to settle or purchase a home can do so.

The Farms consist of the best limestone soil of the most can do so.

The Farms consist of the best limestone soil of the most superior quality for farming, in a rapidly improving place, into which an extensive emigration is now pouring. The property is located in Eik County, Pennsylvania, in the midst of a thriving population of some 10,000. The climate is perfectly healthy, and the terrible plague of the west faver is unknown. It also has an abundance of the best quality of Coal and fron. The price to buy it out is from \$3 to \$20 per acre, payable by instalments, to be located at the time of purchasing, or a share of 25 acres entitling to locate the same for \$300, payable \$6 per menth or 12½ acres payable \$4 per month. Discount for every sum of \$100 and under, paid in advance, a discount of 10 per cent.

In considering the advantages of emigrating to this locality the following are presented:

First—The soil is a rich limestone, capable of raising the heaviest crops, owing to which this settlement has attained its present great prespectity.

Scoul—1 is the centre of the great North West Coal Basian, and is destined soon to become one of the greatest business places in the State. It will supply the great Eake mar-

its present great presperity.

Scond-nt is the centre of the great North West Coal Basin, and is destined soon to become one of the greatest business places in the State. It will supply the great Lake market, (according to population and travel the greatest in the Union.) It has five horkable veins of the best Bituninous Coal amounting in the agregate to over 22 feet, which makes 22,000 tons of coal under each acre. This will make the land of inestemable value.

The eminent state geologist Dr. Chas, T. Jackson of Boston, has made a geological survey of the land, and analysed the coal, the iron ore and the limestone. This report together with maps will be furnished to inquirers.

**Third-Three railroads are laid out through this property. The Sunbury and Erie Railroad gives us a market for our coal to the lakes—it runs from Erie to Philadelphia. A large part of this road has been finished, and is now in running order. A heavy force is now working from Erie towards our land in the western direction, the means for the completion of which has been raised—it will soon be finished. The Alleghany Valley Railroad connects us with New York, Boston and Pitts-burg. The Venango Road connects us with the West.

There are already good Turnpike Roads running through this property, various other roads have been opened to accommodate the emigration and settlement which has already taken place.

this property, various other roads have been opened to accommodate the emigration and settlement which has already taken place.

There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a climate PERFECTLY HEALTIY.

No case of the fever ever having been known to occur in this settlement. It is not like going to the backwoods of the West, among perhaps intolerant people, where there is no society, churches, or schools, where the price of land is high, and where the emigrant, after boing used to the healthiest climate in the world, has to endure sickness and pain, and perhaps rains his health and that of his family. But here is a thriving settlement having three towns, containing churches, schools, hotels, stores, saw mills, grist mills, and everything desired. There is a cash market at hand. The lumber trade last year amounted to over two hundred million feet of lumber. In a short time, owing to the coal, it will become still more valuable, as a number of iron works and manufactories will soon be started; they are at present starting them extensively at Warren. Even for those who do not wish to go there, the payments are such that they can easily luy a farm to save their rising families from want in the future, or to gain a competence by the rise which will take place in the value of lands. By an outlay scarcely missed, a substantial provision can be made.

Persons should panke early application, apply or write to P. Jeffories, Secretary, No. 135 Walnus Street, below Fifth, Philadelphila. Lotters carefully answered giving full information.

HERRING'S SAFE,

THE ACKNOWLEDGED CHAMPION. THE RECENT TRIALS at Reading have endorsed the current of public opinion, and confirmed the verdict of opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the ONLY SAFE that will not burn. 2 Extract from the Committee's Re-port on the Trial of Iron Safes at

port on the Trial of 110n Saies at Reading
"On the 25th of February all the members of the committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right. The day following, the burning took place, under the superintendence of the Committee. After a fair and impartlal burning for five hours, the Safe of Messrs Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs Farrels & Herring were in good condition, and no fire inside."

MAP OF TIOGA COUNTY,

From actual Measurement, and Surveys throughout the county. By a corps of Surveyors who are fully competent to the difficult task assigned them.

I'll undersigned will publish shortly, provided a sufficient number of Subscribers be obtained, a NEW AND COMPLETE MAP OF TIOGA COUNTY.

A The MAD COMPLETE MAP OF TIOCA COUNTY.

All the public Roads, Railroads, Crossings and Stations, Post-Offices, Churches, School Houses, Stores, Mills, Public and Private Houses, Cometeries, Manufactories, Shops, &c. are to be shown on the Map, in addition to the usual topography of Rivers, Streams, Ponds and Mountains. The names of property holders generally. (including those in the county who subscribe in advance for the Map) are also to be inserted at their respective places, in the style of the Maps exhibited by the canvassers.

Maps of the principal villages will be inserted, on a large scale, in the margin; also engraved views of public and private buildings.

No expense will be spared to execute the Map in the highest style of art. The plan will be plotted on a suitable scale, so as to show distinctly all the particulars above specified, and make a large and ornamental map. To be engraved and delivered to subscribers, handsomely colored, so as to show the territory comprised in each township, and mounted on rollers. As the map will contain some eighteen square feet of engraving, at a cost of several thousand dollars, it will be seen that only a large subscription list will warrant the heavy expense neutred.
