"The undersigned, members of the committee, do respectfully report, that we saw the two Safes origi-nally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a turnace, viz: The Safe in use by the Paymaster of the Philadel-phia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and panere precisely alik?

manufactured by Lynn & Walson, and put in books and papers precisely alike. The fire was started at 8½ o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened and the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring, were in our judgment, damaged fully fifteen per cent more than those taken from Evans & Watson's Safe. We believe the above to have been a fair and im-partial trial of the respective qualities of both Safes. JACOB H. DYSHER, DANIEL S.
