Of all the many unhappy effects of the resent financial revulsion, none is, so deeply ainful as that which is visited upon those who had the least agency in producing itthe hundreds of thousands of prudent, industrious, useful, and productive members of society, who have obtained their daily livelihood by manufacturing industry. The proportion of this class to the whole mass of population is hardly realized. They are not to be seen. ike those of other pursuits, in all localities. but, in general, are segregated in close comnunities by themselves, and when they come to be enumerated by the omni-present censustaker, a grand total is obtained which many are not at all prepared to expect. The census of 1850 shows that in New England over three hundred thousand persons; were engaged in manufacturing establishments—in New York about two hundred thousand-in Pennsylvania one hundred and fifty thousand—and in other States nearly three hundred thousand-making an aggregate of very nearly a MILLION in the entire country. This number comprises those who are actually engaged in these mills; if to them be added those who, as children or other family connections are dependent upon the wages there earned, we get some adequate idea of the immense personal interests at stake in the prosperity of these establishments. The effects of the stoppage of manufactories might be presented impressively in the light of politial economy. The capital invested in them is four hundred and twenty-seven millions of dollars, and the value of their annual product over a thousand millions; and every one must see that the locking up of such a vast capital in idleness, and the cessation of such an amount of productive industry, must sell with tremendous effect upon every material interest of the country. But it is in its direct personal bearings that the subject excites the most painful concern. -N. Y. Courier & Enquirer.

DON'T HOARD THE SPECIE.-There is abundance of specie in the country for all the ordinary transactions of daily life, if it is only kept in circulation. Specie, or other small currency, is the life-blood of business, and if it be wanting to any considerable extent, business will languish, stagnate or decay in proportion, as its life-blood is wanting.

The propensity to hoard specie is one of the lowest and meanest vices of the human mind. It is the very essence of selfishness. The propensity is naturally heightened in times of panic like the present, and often seizes upon good men who in ordinary seasons would be entirely free from it. Let all who have a spark of kindly and liberal feeling "resist the temptation and it will flee from them.

There is still sufficient gold and silver in the country to keep the wheels of business in motion and thereby enable honest industry by daily labor to earn its daily bread .-Whatever of want and suffering may prevail this winter among those who would labor, but can find no employment, will be largely owing to the hoarding of specie. Those who cause this want to fall upon the poor, will receive their pay in due season if it be true that "with the measure ye mete withal, the same shall be measured to you again."

PURSUING GOLD UNDER DIFFICULTIES .-The New Haven Journal says that for the past two weeks a party of men and women from that city have been digging for treasure on the premises of Mr. L. P. Allis, at Savin Rock. It seems some clairvoyant sojourning there has discovered that there are some \$11,000 of gold and jewelry, besides other treasures, buried near the stump of an old tree at the rock. They were stolen, they say, from a store in New Haven some forty years ago, and were then buried there by the robbers. The deluded people have dug a place Mr. Allis says, large enough for the cellar of a meeting house, but they have not yet discovered the treasure, and yesterday the clairvoyant, (a woman,) was to be taken to Savin Rock and put to sleep on the spot, so that she might more accurately point out the position of the valuables. One of the men says he has spent a good deal of money, and means to have a thorough search. It will be gratifying for them to know that the property would belong to the person from whom it was stolen, in case they find it, and their work is a "labor of love" for his benefit.

Mr. Buchanan has travelled further South than all the former Presidents. But three years ago it was barely intimated that the Missouri Compromise prohibiting slavery was unconstitutional. The original Nebraska Bill did not even intimate it, the second draft of that bill left it to be implied, and it was only at a third trial that the full iniquity was developed. Then all the sectional and in-Missouri Compromise prohibiting slavery was tended effect of the bill was explained, or sought to be explained away, and it was even proclaimed that it would redound to the interests of freedom. It was a great step to the dictum of Judge Taney, that any prohibition of slavery in the Territories is unconstitutional, and that slavery existed in the Territories of the Union under the Constitution. This dictum of the Judge, Mr. Buchanan, as President, endorses. It is the greatest pro-slavery concession any Northern man has ever made. President Buchanan's Kansas and Slavery Letter reached Maine just as the election was pending. The "Democratic" papers did not dare to publish it for fear of injuring their prospects at the polls, and so suppressed it entirely! Even this, it seems, failed to save them.

OPPOSITION TO HIGH PRICES NO MONOPOLIES: DOWN WITH COMBINATIONS.

An Open Field for Competition. K ANSAS has had her share of the Glory, Fun, Confusion &c., and I am happy to state that she is about quicking herself and yielding the palm

to the little village of Tioga.

About the first of November last I commenced selling Goods in Tioga, am still selling. For a little time past there has been quite an effort on the part of some to establish a standard price for goods particularly on leading articles the very articles of which the poor man uses the most. A few days since I made up my mind to change my prices or

FLOUR & MEAL, as I thought I had a right to. I therefore had a very modest handbill printed informing the people of what I intended doing in the future. No sooner had the fact become known that I had reduced the price, than one man selling the same kind of Goods, says: "Its a he! Cun't be the same article! I know it ain't good!" Another, interested in keeping up old fogy prices, presents the documents to show from the prices he pays in Buffalo for Flour, Meal &c., of course ETZ'S article at the low price can not be as good as ours at our high prices. Great discovery! Sensible reasoning! Humbug conclu-

How long since did they find out that my articles were not tip-top? Why, just the moment my price did not agree with theirs. Our only answer to their unkind remarks toward us, is, that our flour was very nice until we changed the price. Did that change the quality? when it is the self same article we have sold since last April. Hundreds can bear me witness that it is as nice as any article they ever need.

used.

It has never been our practice nor never will be to say aught of the quality of our neighbor's goods. But we do say that our "extra superfine" and "superfine" flour is as good as any flour manufactured or sold in Tioga County. You citizens that buy don't longer believe the humbug yarn that you must pay from 50 to 75 per cent for goods, especially if you get trusted a few months. No wonder every plank in the Wellsboro' and Tioga Plank Road has received a thousand curses from the merchants of received a thousand curses from the merchants of Tioga village, because it has driven trade from us, they say. The curses will grow louder and deeper both from buyer and seller until Goods are sold at a reasonable cash profit. Since we commenced we have tried to meet the wants of the public, and we flatter ourselves that our large cash sales are good thatter ourselves that our large cash sales are good evidence that our effort has not been a failure, but has been appreciated by a generous and candid public. We shall continue selling Goods in the corner store of A. C. & J. S. Bush, directly opposite of Baldwin, Lowell & Co., where we shall be pleased to show our Goods and give our prices. We shall buy a large stock of all kinds of Goods in New York this fall, and shall hope by pursuing a straight forward course to merit the favor of enough of the nearly of Tiorn county to sell them and get our pay people of Tioga county to sell them and get our pay We shall try and have the quality and price satis-factory. Call and see before purchasing.
