HERRING'S SAFE. THE ACKNOWLEDGED CHAMPION.

THE RECENT TRIALS at Reading, Pa. have endorsed the current public opinion, and confirmed the verdict of more than 20000000 of people, proving conclusively that HERRING'S IS THE ONLY SAFE that will not burn.

On the 28th of February all the members of the committee met to witness the safe and books and papers, (placed in them) and were perfectly satisfied that all was right. The day following, the burning took place, under the superintendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs Evans & Watson was first opened, the safe being on fire inside, and the contents partially consumed, while the contents in the safe of Messrs Farrels & Herring were in good condition, and no fire was seen.

And endorsed by over 50 of the best men of Reading. The above safes can be inspected at 434 Walnut Street, where the public can satisfy themselves of the great superiority of the HERRING'S Patent Safes, over the defunct and used-up "MILNER'S" and "SALAMANDER" brands.

Only makers in this State of HERRING'S Patent Safes. The above safes have been sold so extensively in accidental fires in Philadelphia, (Passant Place), by taking one out of an agent's store, (H. A. Lantz's), and the other in a fire from those they sell to "burn up" one of Herring's, (half an inch) has met with its true reward. Herring's safe could not be burnt, proving conclusively that the only reliable safe now made is HERRING'S of which over 150,000 are now in actual use, and more than 2000 have been tried by fire without being injured.

EVANS & WATSON, PHILADELPHIA. Manufacturers of Salamander Safes, No. 26 S. Fourth Street, Philadelphia.

Report of the Committee appointed to superintend the burning of the Iron Safes, at Reading, Feb. 27, 1857.

The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed by side in a furnace, viz: The Safe in use by the Proprietor of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely alike.

The fire was started at 8 1/2 o'clock, A. M., and kept up until four o'clock of good wood, two cords dry oak and half cord of pine were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened and the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee.

Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of their respective Safes.

EVANS & WATSON have now on hand 300,000 pounds of the above Safes, and they offer for sale on better terms than any other Manufacturer in the United States.

The following named gentlemen, residents of Reading and its vicinity, who saw the above fire, have purchased Safes from Evans & Watson since the burning up to May 1st, 1857.
