From Washington.

WASHINGTON, Jan. 31, 1858. he Lecompton Constitution was delivered he President last night by Mr. Clarkson, Postmaster of Leavenworth. Attorneyeral Black and Senators Bigler and Gwin e in conference with the President at the

The Constitution will be sent to Congress Tuesday, with a special message, recomnding the admission of Kansas as the best de of pacification, and recognizing the Lepoton contrivance as the legitimate exssion of the will of the people.

Clarkson brought no authentic intelligence cerning the result of the elections. He es that the vote of Delaware Crossing cincl, received after the count by Gov. over and the officers of the Legislature ve Leavenworth County to the Pro-Slavery y, and thus secured the Legislature to it iso says that the vote of Coffee County ived afterward, but before the semi-offipublication, elected the Free-State officers. represents that Gen. Calhoun never saw latter returns. Mr. Clarkson's statements received cautiously here, as he is radilly Pro-Slavery.

Gen. Calhoun is expected here on Wednes-Clarkson saw him starting for Wesand was informed that he had engaged express to Jefferson City with the view of thing Washington promptly. It has been pertained by the Administration, that Calun has not issued any certificates of elecand it is evident that the result will be anged here to suit the exigency.

The President is greatly exercised by acunts from the South of intended demonstrans in case Lecompton be rejected.

The Northern friends of the Administran are much annoyed by erroneous intellince heretofore sent by secret agent Martin d others from Kansas, upon which mista. n action has been predicated here. Martin commissioned by Secretary Thompson clusively.

The Administration counts four or five jority for Lecompton in the Senate. The ise is doubtful, but the chances are thought be in its favor.

A Warning for Doughfaces.

Of the thirteen Northern members of the nate who voted for the Kansas-Nebraska Il three years and a half ago, but four now ve seats in that body. These four are nator STUART, of Michigan, Senator Jones lows, Senator Douglas of Illinois, and mior Thompson of New Jersey. The reason why the three first of these have lost their seats is simply because their ms have not expired, and there has been opportunity to elect other men. Of the ty-two members of the House, from the orthern States who voted for the Bill, but ree are members of the present House. hese are J. GLANCY JONES and T. B. FLOR-KCE, of Pennsylvania, and W. H. ENGLISH, Indiana. Upon all the other thirty-nine, waters of political oblivion have closed rever. The fate of those Northern Demcrats who voted for the Nebraska swindle ught to be a sufficient warning to their sucessors who contemplate forcing the Lecompn iniquity upon the people of Kansas .ost of the members who voted against the ebraska bill were returned to Congress the ext session and still hold their places or are cceeded by men of like sentiments. In me instances owing to the apathy of the epublicans or the dishonesty of bogus mericans, Democrats have been elected to I the places formerly occupied by Republins. But the perpetrators of the crime ainst freedom in the repeal of the Missouri mpromise have nearly all gone down before condemnation of the people. The Noron members who vote for the admission of ansas under the Lecompton Constitution just as certain to be condemned by the at the next congressional election as e day of election comes. That man from e Free States who bows the knee to the al of Slavery may as well make up his ind to retire from public life. He is morlly certain to receive an emphatic notice at his "services are no longer needed." he reign of doughfaces is about over .hree years longer at most will make an end it .- Erie Constitution.

TERRIBLE SUFFERINGS OF A SPORTSMAN. he following remarkable narrative is from St. Anthony (Min) News of the 5th inst: "A German named Walter, who formerly ived in Troy, N. Y., while following a deer few weeks ago, in the vicinity of Platte er, got lost in the woods, and was unable retrace his steps. During his absence he ffered much from the intense cold. His on got wet, and he could neither kill game build a fire to warm him. At the end of hree days, his hunger becoming desperate, e killed his faithful dog, and ate a portion of m-of course aithout any of the appliances of cookery He threaded the heart and hver upon a stri. g around his neck; and devoured them the next day to keep himself om starving. When he had wandered four lays and five nights, he was discovered sitng on the bank of a lake, his food was conumed, and himself resigned to die. He was onveyed to a cabin, food was given him, and is boots were cut off from his frozen feet, but for want of proper attention, mortificaon ensued and extended nearly to the ankle pints. He was then brought to this city, where both his legs were amputated at the inkles. He lies in a precarious state, and it thought he cannot survive."

SUICIDE OF A FEMALE HORSE THIEF .e learn from the Kingston, C. W., News, at a woman in man's attire, committed suicide by poisoning herself, at McKay's Hotel, St. Mary's, on Tuesday evening last. She had been arrested for horse stealing. Soon after her arrest she was observed to put a handkerchief to her face, for the purpose, it as thought at the time, of hiding her emo-tion, but really for the purpose of swallowing portion of strychnine and chloroform which she had prepared, and concealed for that or some other purpose in a phial. She was instantly seized with spasms, and a physician was immediately sent for. He arrived in half an hour, but the woman soon expired. Her name was Margaret Cook, and she is said to have been respectably connected in the town of Woodstock, where some of her

A CURIOUS FACE. The Albany Evening Journal calls attention to the following curious fact connected with the opening of the old and new Halls of the Representative

"He who shall hereafter write the history of these renowned legislative chambers—the ancient and the modern—will not overlook the remarkable fact, that the closing hours in the old Hall of 1819 were devoted to exciting debates upon the Missouri Compromise question-that the opening hours of the new Hall of 1819, (now the old Hall,) as well re several succeeding months, resounded with the din of debate on the same theme-that. after the lapse of more than a third of a century, the last Congress which occupied this Hall, shook the country with agitations respecting the same Missouri Compromise-and that the first speech delivered in the new Hall of 1857, was devoted to an examination of the principles involved in the enactment of this celebrated measure, and the legitimate consequences springing from its repeal."

MADE OF THE RIGHT METAL.-The wife of a farmer living in Smyrna, Chenango Co., N. Y. was left alone one night last week, and as women generally are, she was timid, listening to every sound. Towards morning she heard an uproar in the hog-pen, and hastily throwing on her garments she went to the door, and in looking about, she saw a span of horses and wagon standing by the side of the road, and from the noise in the direction of the barn concluded the owner was looking over the live stock. She ran to the team and jumped into the wagon and drove to the nearest neighbor, which was about a mile, and in a short time she returned with several men, and upon investigating the premises the two fat hogs in the pen were found dead, but the butcherers had ramosed. The team and wagon are still in possession of the woman.

MR. BUCHANAN IN FRANCE.—The Paris Charavari, the French Punch, pretends to have been informed by its correspondent at Washington that, during the reading of his Message, Mr. Buchanan was present in the House with his pockets full of revolvers; and that, not satisfied with the reception given to the document, he shot at the Clerk, the Speaker and several members of the Opposition; and, while passing home through Pennsylvania avenue, amused himself by emptying the contents of the remaining barrels on the passers by. It insists, moreover, that the President is a confirmed fillibuster, and that Gen. Walker wrote that portion of the Message which relates to his movements.

AYER'S CHERRY PECTORAL.

FOR THE RAPID CURE OF COLDS, COUGHS, AND HOARSENESS.

BRIGHTHID, MASS, 20th Dec., 1855.

Dr J C Argu: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown if to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A B MORTLEY, Esq., of Utica, N. Y., writes: "I have use your Pectoral myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy." Croup, Whooping Cough, Influenza.

SPRINGPILLD, MISS., Feb. 7, 1856.

BROTHER ATZE: I will cheerfully certify your Pectoral is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fracteristy is the Assout appreciate your skill, and commend your medicine to our people.

AMOS LEE, Esq. Montercy, Ia., writes. 3d Jan., 1856:

"I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your Pectoral by the advice of our clergyman. The first dose relieved the sorteress in my throat and lungs; less than one-half the bottle made me completely well. Your medicines are the best as well as the cheapest we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma, or Phthisic, and Bronchitis.

West Manchester, Pa., Reb. 4, 1856.
Siz: Your Cherry Pectoral is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the langs for the last forty years.

HENRY L. PARKS, Merchant.

A RAMSEY, w. p., Albien, Monroe Co., Iowa, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your Cherry Pectoral for giving case and relief to consumptive patients, or enring such as are carable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption. Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the Cherry Pectoral affords relief and comfort.

Aron House, New York Citr, March 5, 1856.

Doct. Aron, Lowell: I feel it a duty and a pleasure to inform you what your Cherry Pectoral has done for my wife.—

She had been five months laboring under the dangerous symptoms of Consumption, from which no sid we could procure gave her much relief. She was steadily failing, until Dr Strong, of this city, where we have come for advice, recommend a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

AYER'S CATHARTIC PILLS.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish, or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not you to they cure the every-day complaints of every body. but also formidable and dangerous diseases that have buffled the best of human skill. While they produce powerful effects they are at the same time, in diminished doses, the safest and beat physic than can be employed for children. Being sugar coated, they are pleasant to take; and being purely vegetable are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the publia the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute timenessly to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints: "Costiveness, Billious Complaints, Rheumalism, Dropsy, Heartburn, Headache árising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain artifug therefron, Flatulency, Loss of Appetite, all Vlecrous and cutasfous Diseases which require an exacuant medicine. Charles O. Etz of Tioga Village would respectfully call the attention of the public to the following advertisement. "Man wants out little here below nor wants that little long" is an old saying and perhaps true to a certain extent But it seems to me that in this time of general suspension and panic, everything is tending to a reversion of time-honored sayings, and every body wants a little more still. The farmers (and they wants a little more still. The larmers (and they really ought to have as much as anybody, for they are to our country what a main spring is to a watch,) wants a little more for their wheat, buckwheat, rye, corn, oats, potatoes, &c., than the purchaser feels able and willing to pay. The merchant wants a little more for his Flour, Pork, Salt, Dry Goods, Boots & Siocs, Hats & Caps, Hardware, Crockery and ten thousand little things he has to call they and ten thousand little things he has to sell than

the farmer thinks he ought to pay.

At this present time it seems to be conceded by all that the eash value of good wheat is 31 per bushet; buckwheat, 2 to 2-6; corn 3-6 to 4-6; oats, 2 to 2-6; butter, 14 to 16 cents. Now to equalize the matter and make it satisfactory on both sides, I want and will agree to take from every farmer of Tinga county, all the wheat I can get for the next 60 days at 9 and 10 shillings per bushel according to quality; buckwheat at 2-6 to 3; cern 5 to 5-6; oats 2-9 to 3 shillings; butter 16 to

19 cents.
Will sell you in exchange: Salt per barrel, 16s. Flour extra superfine 13s per sack, 86 50 per barrel. Superfine, 11s per sack, 85 50 per bbl. Coffee sugar letter "A" as white as snow at Is.
