MONROE STEWART .- The pardon of this han has reached Pittsburg, but what disposiion has been made of the other indictment nder which he is confined, we have not earned. The Evening Chronicle says, tho' ardoned unconditionally for the crime for which, had the law been allowed to take its ourse he would have been executed on Friay, he has still to answer for the murder of Nizabeth McMasters, for which an indictment pending against him, and cannot conseuently be discharged until the matter is disosed of.

What the action of the commonwealth may in the matter we do not know. To our nd a nolle prosequi ought to be entered in s case, and the man set at large; but the agnitude of the offence laid in the indictent will probably afford the District Attorey good ground for declining to make a moion to this effect, or in case it was made, the ourt, for the same reason, might well refuse o take upon itself the responsibility of grantng it.-Harrisburg Telegreph.

TERRIBLE ACCIDENT .- A few days ago t the large furnace called "Union Deposit Furnace," situate in South Hanover township, Dauphin county, Pa., a terrible accident ocurred. It appears that while several persons ere about the furnace, the hot metal came unning out in torren's, so unexpectedly that ve persons were literally showered over with he liquid fire, immediately setting their cloth. g on fire and burning them in a dreadful nd shocking manner. Some of the unforunate men jumped into the canal, and others H to the water tub; but this proved all una- La ailing-they were so dreadfully burned that fo human help could save them. John Ba-David Landis, W. Murray and a man de led Dutch John, have since died from their the ounds, whilst Moses Wolf, another of the pa jured, can hardly survive his injuries.

LUDICROUS SCENE IN A COURT ROOM .nong the prisoners awaiting sentence in Brooklyn Police Court, last Monday, says New York Express, was an Irishman upwhose face the small-pox was found to be breaking out with great virulence. A neral stampede took place, the clerk turned astly pale and made a somerset out of the ndow, and the Judge, thinking the building s falling, went after the clerk in a most dignified manner, while the Deputy Sherand others climbed the posts and took refamong the rafters. The poor Irishman s forced out of the door and bidden to clear and never return; and, as no one could nture back, the Court was pronounced adrned.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordi-nary medicines. And that they win unprecedentedly upon the steem of all men. They are safe and pleasant to take, but powerful to care. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate isogain or disordered organs into their nutural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the bost of human will. While they produce powerful effects they are at the same time, in diminished doses, the safest and best physic than can be employed for children. Being sugar costed, they are pleasant to take: and being purgly vegetable stere from any risk of harm. Cures have been made which urated position and character as to forbid the susplicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my rom-dies, while others have sent me the assurance of their con-let of my afflicted, suffering follow-men.
