

NEW NORTHERN STATE.—An excellent proposition has lately been promulgated by the Chicago Tribune, which we opine will seriously alarm the slavery extensionists, as likely to upset their schemes for further aggrandizement and the extension of slavery.

A Rich Scene in Church.—One Sunday within the last 100 years, the service had commenced in a country church a few miles from Penrith, when a woman in a gray cloak, accompanied by two half grown urchins, with eyes and mouth both fearfully aspe, and the trio took their seats in all modesty near the door.

CHOLERA DROPS.—The most effective remedy for cholera, dysentery, and all the ailments of the bowels, and is entirely preserved, and is thus far the best medicine for cholera, and is more palatable. Useful equally in all cases of the kind whether male or female.

ROMANTIC YOUNG LADY.—A romantic young lady fell the other day into the river, and was near drowning but succor being fortunately at hand, she was drawn out senseless and carried home.

WASH UP.—Uncleanliness is a breeder of sin. We care not how professedly pious a man may be, let his hide get crusted with dirt, and very soon his mind, manner and morals will become tainted.

A countryman entered Whipple's daguerrotype saloon recently, and wished a daguerrotype of his uncle.

"Oh, Mr. Grubbles!" exclaimed a young mother, "shouldn't you like to have a family of rosy children about your knee?"

A worthy minister noted for his wit, on being asked what kind of a person the wife of Mr. — was, replied, "I will give you her grammatical character. She is a noun substantive,—seen, felt and heard."

That which is past is irrevocable, and wise men have enough to do with things present and to come; therefore, they do but trifly with themselves that labor in past matters.

HERRING'S SAFE.

THE ACKNOWLEDGED CHAMPION. THE TRIALS at Reading have demonstrated that all was right. The day following the burning took place, under the superintendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs Evans & Watson was first opened, the Safe being on the inside, and the contents partially consumed, while the contents in the Safe of Messrs Farrels & Herring were in good condition, and no fire inside.

Only Makers in this State of the best iron safe. The attempt made by other parties to bolster up the reputation of a safe which has failed so signally in accidental fires in Philadelphia, (Ransford Place), by taking one out of their own store, (Lea's), made double the price, (different from those they sell to "burn up" one of Herring's, half as thick) has met with its true reward. Herring's Safe could not be burnt, moving coolly away that the only reliable safe now made is "Herring's" which over 15,000 are now in actual use, and more than 200 have been tried by fire.

EVANS & WATSON, PHILADELPHIA. Manufactured Salamander Safes, No. 26 S. Fourth Street, Philada.

Report of the Committee appointed to superintend the Burning of the Iron Safes, at Reading, Feb. 27, 1857.

The undersigned, members of the committee, do respectfully report, that we saw the two Safes, originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the Passenger of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely alike.

The fire was started at 8 1/2 o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened and the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring, were in our judgment, damaged fully fifty per cent more than those taken from Evans & Watson's Safe.

We believe the above to have been a fair and impartial trial of the respective qualities of both Safes. JACOB H. DYSTER, DANIEL S. HUNTER, G. A. NILES, H. I. MULENBURG, JAMES MILHOLLAND, EVANS & WATSON
