

A French Trick.

We find this in a French correspondent's letter to a Southern journal: "My dear," asked a young Paris lady to a female friend, "do you believe that miserly X. would lend me three thousand francs?"

SOMETHING NEW

HERRING'S SAFE.

THE ACKNOWLEDGED CHAMPION.

THE RECENT TRIALS at Reading have endorsed the current of public opinion, and confirmed the verdict of more than 200 impartial jurors, proving conclusively that "Herring's" is the ONLY SAFE that will not burn.

Extract from the Committee's Report on the Trial of Iron Safes at Reading. "On the 26th of February all the members of the committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right. The day following, the burning took place, under the superintendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs Farrels & Herring were in good condition, and no fire inside."

Reading, March 2, 1857. (Signed), H. F. FELLIS, Chairman, A. H. PEACOCK, Committee.

And endorsed by over 50 of the best men of Reading. The above Safe can be seen at any place where the public can satisfy themselves of the great superiority of the "Herring's Patent Champion," over the defeated and used-up "inside Iron Door Safemakers."

FARRELS & HERRING, 84 Walnut Street, Philad'a.

Only Makers in this State of Herring's Patent Champion Safes. The attempt made by other parties to bolster up the reputation of a Safe which had been so signally and accidentally tried in Philadelphia, (Ranstead Place), by taking one out of an agent's store, (H. A. Lantz), made double thickness, (different from those used by Herring's) and which was (half as thick) as met with its true reward. Herring's Safe could not be burnt, proving conclusively that the only reliable Safe in the world is Herring's. It is now in use in actual use, and more than 200 have been tried by fire without a single loss. July 13, 1857. Jy.

EVANS & WATSON, PHILADELPHIA Manufacture of Salamander Safes, No. 26 S. Fourth Street, Philad'a.

Truth is Mighty and must Prevail. Report of the Committee appointed to superintend the burning of the Iron Safes, at Reading, Feb. 27, 1857.

"The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the Mayor of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely alike.

The fire was started at 8 o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole
