The following is an extract from a speech delivered in the Ohio Legislature by Mr. Plant, of M-igs Co., upon the bill granting the use of the jails of Ohio to slave catching. The irony of the Hon. gentleman will be found extremely sharp as it points to the bogus Democracy. Read it:

MR. PRESIDENT -I am from a very close county, where the real political majority is very uncertain. On this account I desire to make a speech for buncombe; one that will suit both sides; and in order to satisfy a'l the different interests among my constituen 8, I propose to make a speech on one side and vote on the other. The gentleman from Lorain (Professor Monroe) has said that he could see no use in the passage of the bill at this time, when, in fact, there were many reasons why it should pass now; one of them, and a very important one, was that the permanency of the Democratic party dependen upon it, and modern Democracy, as he understood it, was a wise arrangement to prevent people from running around loose!

The gentleman from Lorain seemed to think that our jails were designed to be used only for criminals, and in all this he would agree with him. But who are criminals? That gentleman had, in a most eloquent manner, drawn an affecting picture of the fuginve slave mother who had escaped with her child from Virginia. Now, he would show that this woman was a criminal of the worst sort. According to the gentleman's in Ohio with her child was reduced to a mere skeleton-a skeleton in rags. She was guilty of three great crimes. First evidently guilty of grand larceny in stealing her child, which was the property of her master; she had also embezzled and wasted her own body, which was no less her master's; and lastly, she had committed high treason against the 25 cents. National Government-for was it not shown by speeches made by Democrats of this body and by Congress, and so understood throughout the Union, that this Government was founded on niggers? It has been declared treason to destroy the Government, and would it not be an "attempt" to destroy the Government in undermining its foundation Government in undermining its foundation by stending away the niggers upon which it rests? The common relation of pillars and scales, crupions on the skin &c. Price 12 and 25

and it is well known that Democrats cannot get office under this Government unless witling to catch niggers. Office holding made men honorable. Then were not the means which made office-holders, equally honorable? It must follow of course-that the end justifies the means is a principle of Dem-

The member from Lorain, being a professor of moral sciences, might on that account he excused from not understanding the exacter sciences; but is certainly not so easily pardoned for the error into which he had fallen in regard to 'he natural instincts of blood-hounds, as far as nigger catching is involved. Blood-hounds know nothing of nigger-catching until trained to it—while this vocation seems to be the natural instinct of the Buchu are entirely preserved, and this form of the medicine is less liable to injury from age and more pulateable. CHERRY PECTORAL.

FOR THE RAPID CURE OF COLDS, COUGHS, AND

HOARSENESS. BRIMFIELD, MASS. 20th Dec., 1855.
DR J C ATHE: I do not hesitate to say the best remedy I have ever found for Couple, Hourseness. Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A B MORTLEY, Esq., of Utica. N. Y., writes: "I have use your Pecloral myself and in my family ever since you invent your Pecloral myself and in my family ever since you invented it, and believe it the best medicine for jis purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial. Consumption.

AYER'S CATHARTIC PILLS.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pla-sault to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects they are at the same time, in diminished doses, the safest and best physic than can be employed for children. Being sugar coated, they are pleasant to take; and being purely vegetable are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while other have sent me the assurance of their conviction that my Treparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints: Contineess. Billous Complaints, Rheumatism. Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom. HERRING'S SAFE.

THE ACKNOWLEDGED CHAMPION

THE RECENT TRIALS at Reading have endorsed the current of public opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herrings" is the ONLY SAFE that will not burn.

Extract from the Committee's Report on the Trial of Iron Safes at

port on the Trial of Iron Safes at Reading "On the 26th of February all the members of the committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right. The day following, the burning took place, under the superintendence of the Committee. After a fair and impartial burning for fire hours, the Safe of Messrs Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs Farrels & Herring were in good condition, and no fire inside." Reading, March 2, 1857.

(Signed,)

H. F. FELIX, P. N. COLEMAN, Committee.

And endorsed by over 50 of the best men of Reading.
The above Safes can be inspected at 34 Walnut Street, where the public can satisfy themselves of the great superiority of the "Herrings Patent Champion," over the defeated and used-up "inside fron Door Salamander."

FARRELS & HERRING,

ARRELS & HERRING,
34 Walnut Street, Philad'a.

Only Makers in this State of Herring's Putent Champion Safes.

The attempt made by other parties to bolser up the reputation of a Safe which has failed so signally in accidental fires in Philadelphia, (Ranstead Place,) by taking one out of an agent's store, (H. A. Lantz,) made doubte thickness, (different from those they sell) to "burn up" one of Herring's, (half as thick) has met with its true reward. Herring's Safe could not be burnt, proving couclusively that the only reliable Safe now made is "Herring's of which over 15,000 are now in actual use, and more than 200 have been tried by fire without a single loss.

Truth is Mighty and must Prevail. Report of the Committee appointed to superintend rning of the Iron Safes, at Reading, Feb.

27, 1857. "The undersigned, members of the committee. do espectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the Paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books

manufactured by Evans & Watson, and put in books and papers precisely alike.

The fire was started at 8½ o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Sases were then cooled off with water, after which they were opened and the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examination, after they were first store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring, were in our judgment, damaged fully fifteen per cent more than those taken from Evans & Watson's Safe.

We believe the above to have been a fair and impartial trial of the respective qualities of both Safes. JACOB H. DVSHER. DANIEL S. HUNTER,
