"GREAT ORIGINAL STORY." --- A dark frown overspread the handsome and courtly features of Fernando, the Rover. "Why why," he asked brandishing his silver hand dled sword furiously around, "wilt not beheve me, my beauteous Maria de Argyle! By this good sword I do swear I love theetruly, wildly, passionately love thee! Then why stand so coldly aloof from this bosom which is bursting for thee ?"

The beautiful girl essayed to speak, but could not.
"Ha!" exclaimed Fernando the Rover,

and a sardonic smile lit up his face, "thou luv'st another?"

"No!" she tremblingly, yet with dignity,

"Then, why not come to this bosom?" wildly repeated the Rover.

"Because, sir," she replied, drawing her-self up to her full height, "I'm afraied yer a blowin!"

MARRIED MEN MARRED INDIVIDUALS .-How is it that girls can always tell a married man from a single one! The fact is indisputable. The philosophy of it is beyond our ken. Blackwood says, that "the fact of matrimony or bachelorship is written so legibly in a man's appearance, that no ingenuity can conceal it. Everywhere there is some inexplicable instinct that tells us whether an individual whose name, fortune and circumsunaces are totally unknown, be or be not, a married man. Whether it is a certain subdued look, such as that which characterizes the lious in a menagerie, and distinguishes them from the lords of the desert, we cannot tell; but the truth is so, we positively affirm."

AN EXTENSION. - A punctual and wealthy landlord, remarkable for his urbanity of manners and willingness to oblige every one who is up to the mark when pay day comes, has a large number of tenants, and never varies five minutes from a certain hour on each quarter day, to call on persons and receive great care and skilful management to prepare this his due. One time a very good tenant skied medicine properly. his due. One time a very good tenant asked a little delay, as the times had been bad, and he had a note to meet at the bank, and plead in addition that he had always been up to time before, and only wished a little extension now. "Oh. certainly," said the gracious landlord taking out his watch; "It is now twelve o'clock; Fil call around at two."

GET A HOME. - Get a home, rich or poor, get a home, and learn to love that home, and make it happy to wife and children by your beaming presence; learn to love simple pleasures, flowers of God's own planting, and music of his own; the bird, wind and water. fall. So shall you help to stem the tide of de-olation, poverty and despair, that comes upon so many through the scorn of little things. Oh, the charm of a little home; comforts dwell there that shun the gilded halls of society. Live humble in your little home and look to God for a grander one.

Buffalo Rum .- It appears that the liquor sold in Buffilo is perfectly "orful." The Advertiser gives the following description of

The brandy is poison—the whiskey of that variety known as "hardware"-strychnine would improve it-and gin is kept in glass bottles simply because it would eat through the staves of a barrel in fifteen minutes."

"WILLIAM," said a carpenter to his apprentice, "I'm going away to day, and I want you to grind all the tools."

"Yes, sir." The carpenter came home at night.

"William, have you ground all the tool.

"All but the hand-aw," said Bill; "I could not get quite all the gaps out of that."

A Yankee and a Southerner were playing poker on a steamboat.

"I havn't seen an ace for some time," re-

WHAT'S IN A NAME. - The apothecaries of some of our neighboring cities are advertising a new perfumery called "kiss-me-quick." Only imagine, says the shy editor of the Lowell News, a pretty girl walking up to the counter and briefly saying to the clerk, "kiss-me-quick."

One of the Western editors, speaking of a large for cotemporary, remarked that if all flesh was grass, be must be a load of

BUCHU LEAVES are procured from the south ern part of Africa. The Hottentots at the cape of Good Hope have long used this article as a remedy in a variety of diseases. From them the medicine was borrowed by the English and Datch physicians residing there and by their recommend-ation it was soon employed in Europe. In process of time this medicine has come into general use, and is highly spoken of by the best medical writers. Physicians recommend it mostly for complaints of the urinary organs, such as gravel, a morbid irrita-tion of the bladder and urethra, retention of urine, also incontinence of urine from want of tone in the urinary organs. It cools the unnatural heat and relieves pain; and in many cases of long standing it has been effectual when other valuable medicines had failed to produce an effect. The active princi-ple of this medicine is a volatile oil which is mostly lost by the old process of boiling. Hence it requires great care and skills!

F LUID EXTRACT OF BUCHU is a strong of Concentrated preparation prepared by the new process called Displacement." By this the valueble properties of the Buchu are entirely preserved, and this form of the medicine is less liable to injury from age and more palateable. Consumptives, do not despair till you have tried Ayer's
Cherry Pectoral. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high
merits of its virtues.—Philadelphin Ledger. Astor House, New York City, March 5, 1956.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce thas best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, rainave the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breel and grow distemper, stimulate slungish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-lay complaints of every body, but also formidable and dangerous diseases that have balled the best of human skill. While they produce powerful effects they are at the same time, in diminished does, the safest and best physic than can be employed for children. Being sugar coated, they are pleasant to take; and being purely vegetable are free from any risk of hurm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbul the suspicion of untruth. Many eminent clergy men and physicians havelent their names to certify to the public are the effects, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named la pleased to furnish gratis my American Almanuac, contuning directions for their use and

net of my anneted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, contaming directions for their use and certificates of their cures, of the following complaints:

Costiveness. Billous Complaints. Rheumatism, Dropsy, Heartburn, Headsche arising from a foul stomach, Namea, Indigestion, Morbid Inaction of the Bowels and Eain arising therefrom, Flattlency, Low of Appetite, all Ulcrous and Cutaneous Diseases which require a womant medicine, Scrofula or King's Evil. They also, by ourford the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Biladness, Neuralgis and Nervons Britability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for Ayer's Pills, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sak want the best aid there is for them, and they should have it.

27, 1857, "The undersigned, members of the committee, do respectfully report, that we saw the two Sases originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the Paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Furrels & Herring, and the safe in use by H. A. Lantz, in his store, manufactured by Evans & Watsdn, and put in books

and papers precisely alike.

The fire was started at 8½ o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened and the books and papers taken out by the Committee and send to H. A. Lanz's out by the Committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring, were in our judgment, damaged fully fifteen per cent more than those taken from Evans & Watson's Safe. We believe the above to have been a fair and im-
