Australian squatters in general are excel-I at and fearless riders, mounting horses fresh from the bush, untamed, unbroken, and full of many vices, particularly the formidable one of buck jumping, in a way that would astonish many an English rough rider and steeple-chase jockey. Mr. F-- was remarkable for his powers in this way. He had a large mob of horses on his run, and they were generally notorious for their buck jumping propensities, and I remember his accompanying me one day on my return from his house to the diggins, mounted on an animal just driven into his stock-vard from the bush. The forest here and every where else in Australia, is covered with the blackened trunks of trees of every size that have fallen victims to fire, and it is a usual thing for men well mounted to take a straight line across it. leaping over such logs as are practicable.-We were amusing ourselves in this manner when we came to one of the prostrate giants of the forest, which, although my horse was a very good one, I should never have attempted to jump, and did not imagine Fthe little ill-conditioned weed he was ridingwould think of doing. I was astonished how, ever, to observe him dig his spurs into the beast's sides, rush him at it, and as I anticipared, make a clean sommersault over the trunk of a tree about four feet high and fully as many broad-horse and man absolutely turning in the air. F--- was accustomed to this kind of practice (as he broke in his own horses) and knew exactly how to throw himself off on one side; and in this instance without quitting his hold of the bridle, was on the horse's back again in an instant, and with whip and spur urged him on to the charge again. The same result occurred a second time, and now I thought it really was time to interfere, and not allow my friend to break his neck without some remonstrance on my part. He merely waved his hand, and said that he could not afford to spoil his horses by sacrificing to my philanthropy, and ramming him at the leap a third time, cleared it like a buck, observing that had he not persisted in making him jump the log, he would have been spoiled for ever, and of no use as a stock horse, but that now in all probability, he would turn out well. This was a young animal, between three and four years old. Nothing can equal a confirmed buck jumper in equine depravity, and he is rarely, if ever thoroughly cured of vice. After the most quiet and docile behavior for weeks and even months, and whilst traveling at an easy pace and loosened rein, the rider finds himself summarily ejected high up into the air, and thence over his steed's head, by a series of gymnastics, yelept buck jumping, which some sudden caprice or olden recollections have caused him to execute. He fixes his head firmly between his knees, curves up his back and body into the shape of a ball, erects his tail, and simultaneously makes a spring and a kick that would unseat almost any horseman either unprepared or otherwise. D'Ewee's Sporting in both Hemispheres.

### Difference in Cows.

Cows, under certain constitutional circumstances, are naturally disposed to convert their food into fat-so much so that there is great difficulty in keeping some classes in a breeding state, more especially improved Short Horns, Devons and Herefords. Turn a cow of this description into rich grass, and she is soon useless for anything but the shambles. The quality of the milk she gives may be fine, but the quantity almost nothing .-We had a Devon, which carried off the prize of her class at one of the Royal Agricultural Society's meetings, not giving more than one quart at a milking.

On the other hand, there is a class of cows naturally inclined to turn all their food into ommendation. Turn a cow of this kind along with the one above, and she will rather get poorer every day, if the milk is taken from her. while her plump and sleek rival is gaining weight. The former will consume greatly more grass and water than the latter, returning for it in proportion a still greater quantity. When fed on sour grains, distillers' wash, &c., the quantity sometimes yielded is almost incredible. When such is the case, however, life is generally short, especially if cows are in a low state at calving. Hence the reason why dairy men purchase near calves.

The above two classes may be called extremes, between which there is a mean, and this latter class of cows, if turned into a rich pasture along with the others, would keep themselves in good condition, and give a medium quantity of milk, the quantity depending upon the richness of the food.—Mark Lane Express.

RUM DID IT .- Gerrit Smith, in a recently published letter, makes the following allusions to the late Preston S. Brooks:

"The nation would not have been deprived of the services of Charles Sumner, had Congress, before Brooks fell upon him, been willing to be moved by a temperance speech or by any other cause to put a stop to the sale of intoxicating drinks in the city of Wash. ingion. Poor Brooks! I became acquainted with him in Congress, and found him to be a frank, pleasant man. He allowed me to speak freely to him of his habit of drinking to the speak freely him of his habit of drinking to the speak freely him of his habit of drinking to the speak liquor. He promptly confessed his sorrow for it, and added that he would be glad to subscribe to a congressional temperance pledge. But for liquor he would never have committed his enormous crime.

Young FRUIT TREES .- Young fruit trees which lack vigor of growth from too poor a soil, should be stimulated with a good coating of old manure spread round them and spaded in as soon as the frost leaves the ground.-All fruit trees, except of the largest which do not stand in ground kept constantly cultiva. ted by the hoe, should have the soil for severai feet kept well spaded round them. Soap suds, especially for peach trees, are fine.

A sensitive Pennsylvania editor says:— ments, from the sugar and molasses down cellar to the best and most complete assortment of common into our office, with the request to notice it and satin wall paper ever kept in a country store up as lemon beer. If Esau was green enough to sell his birthright for a mess of pottage, it does not prove that we will tell a four shil. it does not prove that we will tell a four shilling lie for five cents."

# Pay-Down System

and shall rigidly adhere to it.
Wellsboro', March 13,1856. H.P. ERWIN.

Charles O. Etz of Tioga Village would respectfully call the attention of the public to the following advertisement. "Man wan's but little here below nor wants that little long" is an old saying and perhaps true to a certain extents. But it seems to me that in this time of general suspension and panic, everything is tending to reversion of time-honored sayings, and everybody wants a little more still. The farmers (and they really ought to have as much as anybody, for they are to our country what a main spring is to a watch,) wants a little more for their wheat, buckwheat, rye, corn, outs, potatoes, &c., than the purchaser feels able and willing to pay. The merchant wants a little more for his Flour, Pork, Salt, Dry Goods, Boots & Sinces, Hats & Caps, Hardware, Crockery and ten thousand title things he has to sell than and ten thousand little things he has to sell than

the farmer thinks he ought to pay.

At this present time it seems to be conceded by all that the cash value of good wheat is \$1 per bushel; buckwheat, 2 to 2-6; corn 3-6 to 4-6; oats, 2 to 2-6; butter, 14 to 16 cents. Now to qualize the matter and make it satisfactory on both sides, I want and will agree to take from every farmer of Tioga county, all the wheat I can get for the next 60 days at 9 and 10 shillings per bushelaccording to quality; buckwheat at orn 5 to 5-6; oats 2-9 to 3 shillings; butter 16 to

POR WORMS.—Give a child over two years old a small tea spoonful of Fluid Extract of Pink

and Senna once every two hours till it operates as a

FARRIER'S OIL—For Horses and Cattle—very L useful for sores, wounds, scratches, galls and in all cases where a healing remedy is required. Price

FARRIER'S LINIMENT—For Horses & Cattle A most valuable article for swellings, broises, sprains, stiff or enlarged joints, windgalls, kicks and sweeney. Price 25 cents.

ESSENCE OF GINGER.—A mild and safe stimulant useful for bowel complaints; much used in hot weather to prevent the bad effects of drinking too much cold water.

BUCHU LEAVES are procured from the south-ern part of Africa. The Hottentots at the cape of Good Hope have long used this article as a remedy in a variety of diseases. From them the medicine was borrowed by the English and Dutch physicians residing there and by their recommendation it was soon employed in Europe. In process of time this medicine has come into general use, and is highly spoken of by the best medicaf writers. Physicians recommend it mostly for complaints of the urinary organs, such as gravel, a morbid irritation of the bladder and urethra, retention of urine also incontinence of urine from want of tone in the urinary organs. It cools the unnatural heat and relieves pain; and in many cases of long standing it has been effectual when other valuable medicines had failed to produce an effect. The active principle of this medicine is a volatile oil which is mostly lost by the old process of boiling. Hence it requires great care and skilful management to prepare this

FLUID EXTRACT OF BUCHU is a strong or concentrated preparation Concentrated preparation prepared by the new process called 'Displacement." By this the valuable properties of the Buchu are entirely preserved, and this form of the medicine is less liable to injury from age and more pulateable. Useful equally in all cases of the kind whether male or female. Price 75 cents per bottle. For sale at Roy's Drug and Chemical Store at Wellsboro Pa.

This is no patent medicine or quack nostrum or secret remedy, but a new and unproved prepara-

or secret remedy, but a new and improved prepara-tion of a well known and valuable medicine. BLEACHING POWDER.—To remove ink and

fruit stains &c., from linen. Price 121 cts per box, with fall directions for use, PERMANENT MARKING INK-To mark collars and other clothing so that the name will not wash out. Price 25 cts per bottle.

POTASH, Sal Soda, Saleratus, Purc Ginger, Pure Ground Mustard, and Humell's Essence of Coffee, just received and for sale at Roy's Drug Store.

DIERSON'S EXPECTORANT.-A valuable remedy for course and the same and edy tor coughs, colds and lung difficulties.

NDIAN SANATIVE DROPS or Life Regulator, is considered a most valuable article for difficulties caused by impurity of the blood, this article recommends itself; certificates are unnecessary try it if you would know its value.

CHEMICAL HAIR TONIC .- This compound is used to prevent the hair from falling off to cause it to grow in thicker—and to restore hair that is growing gray to its original color; it is nicely perfumed and is very pleasant article for toilet use.

# HERRING'S SAFE.

THE ACKNOWLEDGED CHAMPION.

THE RECENT TRIALS at Reading have endorsed the current of public opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the LONLY SAFE that will not burn.

Extract from the Committee's Report on the Trial of Iron Safes at

Reading "On the 26th of February all the members of the committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right. The day following, the burning took place, under the superintend-ence of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs Farrels & Herring were in good condition, and no fire inside." Reading. March 2, 1857.

Reading, March 2, 1857.

(Signed,)

P. N. COLEMAN,
A. H. PELIX,
And endorsed by over 50 of the best men of Reading.
The above Safes can be not the best men of Reading.
The above Safes can be inspected at 34 Walnut Street, where the public can satisfy themselves of the great superiority of the "Horrings Patent Champion," over the defeated and wed-un "inside Iron Door Salamander."

FARRELS & HERRING,

PARRELS & HERRANG,

24 Walnut Street, Philad'a.

Only Makers in this State of Herring's Putent Champion Sofes.

The attempt made by other parties to bolster up the reputation of a Safe which has failed so signally in accidental fires in Philadelphia, (Ranstead Place,) by taking one out of an agent's store, (II. A. Lantz.) made double thickness, (different from those they sell to "burn up" one of Herring's, (half as thick) has met with its true reward. Herring's Safe could not be burnt, proving conclusively that the only reliable Safe now made is "Herring's" of which over 15,000 are now in actual use, and more than 200 have been tried by fire without a single loss.

# July 13, 1857. ly. EVANS & WATSON, DHILADELPHIA Manufactu

red Salamander Safes, No. 26 S. Fourth Street, Philada. Truth is Mighty and must Prevail.

Report of the Committee appointed to superintend the Burning of the Iron Safes, at Reading, Feb. "The undersigned, members of the committee, do "The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the Paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books and papers precisely alike.

and papers precisely alike. fire was started at 81 o'clock, A. M., and The nre was started at 05 octock, A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened and the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Wutson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring, were in our judgment, damaged fully fifteen per cent more than those taken from Evans & Watson's Safe.

We believe the above to have been a fair and im-

We believe the above to have been a fair and impartial trial of the respective qualities of both Safes.

JACOB H. DYSHER, DANIEL S. HUNTER,

Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of their respective G. A. NICHOLLS, H. H. MUHLENBERG,

JAMES MILHOLLAND, EVANS & WATSON have now on hand 300, 000 pounds of the above Safes, which they offer for sale on better terms than any other Manufacturer in THE following named gentlemen, residents of

Reading and its vicinity, who saw the above fire, have purchased Safes from Evans & Watson since have purchased Safes from Evans & Watson since the burning up to May 1st, 1857.

# AYER'S CHERRY PECTORAL.

FOR THE RAPID CURE OF COLDS, COUGHS, AND HOARSENESS.

BRIMFILD, MASS., 20th Dec., 1855.
DR J C ATRE: I do not hesitate to say the best remedy I have ever found for Coughs, Hourseness, Influenza, and the conceminate symptoms of a Cold, is your Cherry Petoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A B MORTLEY, Esq., of Itica, N. Y., writes your Pecloral myself and in my family ever six ed it, and believe it the best medicine for its pa out. With a bad cold I should sooner payers for a bottle than do without it, or take any oth
