section of the validity of the Lecompton onstitution." "That the people of Kansas will no more

he upon the Lecompton Constitution, under conference bill, than they voted upon the loption of the Lecompton Constitution in first instance." And again :

"The conference bill will operate as an ening of a certain event, [a population sufcient for the election of a Representative, ut until that event shall occur, it operates estrictively, and confining Kansas to her ong-eared bonnet and high quarter shoes, eeps her out of the electoral college, out of ongress, and out of mischief, for many ears to come."

"In the mean time, should the Southern States desire to occupy the contested Terriory, as Mr. Zollicoffer in a very able argument has recently shown there is much eason to believe they can do, the postponement of admission will give them the benefit of the decision of the Supreme Court. They can carry their slave property into the comnon territory, and participate fairly in its llimate organization."

And finally: "If the conference bill pass, Kansas may ome into the Union as a slave State or she an not come in at all. That is the issue."

AD TO THE PUBLIC—As there are many Gift Book Storrs advertised throughout the country, M. EVANS deems it just to himself add his duty to the public—inasmuch as he originated the Gift Book business—to state, as evidence of the instability of such concerns, that they conceal their real manes from the public, and are advertising their business under assumed ones. Mr. E. is aware that these various concerns published as Gift Book Stores, are calculated to bring the business established by himself into disrepute. He acks of the public a correct judgment in regard to his Gift Book Enterprise, for the honor, integrity, and success of which he refers to all the prominent publishers in the United States.
