PRINTER'S LUCK .- A week or two ago a Cincinnati printer visited the theatre and found a pocket book containing \$250. Rich beyond all expectation, he determined to rest awhile. He "put a sub on," spent what monev he had of his own, incurred several little debts, and then concluded to break in upon his treasure by purchasing a new hat. He entered a hat store, bought one of the latest style, and tendered one of the \$5 notes in payment. It was pronounced a counterfeit. and so, in turn, every note of his treasure. He has gone to work again, saying that being a printer he should have known that the bills were worthless.

Charles O. Etz of Tioga Village would respectfully call the attention of the public to the following advertisement. "Man wan's but little here below nor wants that little long" is an old saying and perhaps true to a certain extents. But it seems to me that in this time of general suspension and panic, everything is tending to a reversion of time-honored sayings, and everybody wants a little more still. The farmers (and they really ought to have as much as anybody, for they are to our country what a main spring is to a watch,) wants a little more for their wheat, buckwheat, rye, corn, oats, potatoes, &c., than the purchaser feels able and willing to pay. The merchant wants a little more for his Flour, Pork, Salt, Dry Goods, Boots & Sinces, Hats & Caps, Hardware, Crockery

and ten thousand little things he has to sell than the farmer thinks he ought to pay.

At this present time it seems to be conceded by all that the cash value of good wheat is \$1 per bushel; buckwheat, 2 to 2-6; corn 3-6 to 4-6; oats, 2 to 2-6; butter, 14 to 16 cents. Now to causlive the matter and make it satisfactory on both oats, 2 to 2-0; outer, 14 to 16 cents. Now to equalize the matter and make it satisfactory on both sides, I want and will agree to take from every farmer of Tioga county, all the wheat I can get for the next 60 days at 9 and 10 shillings per bushel according to quality; buckwheat at 2-6 to 3; eorn 5 to 5-6; oats 2-9 to 3 shillings; butter 16 to 19 cents.

BUCHU LEAVES are procured from the southern part of Africa. The Hottentots at the cape of Good Hope have long used this article as a remedy in a variety of diseases. From them the medicine was borrowed by the English and Dutch physicians residing there and by their recommendation it was soon employed in Europe. In process of time this medicine has come into general use, and is highly spoken of by the best medical writers. Physicians recommend it mostly for complaints of the urinary organs, such as gravel, a morbid irrita-tion of the bladder and urethra, retention of urine, also incontinence of urine from want of tone in the urinary organs. It cools the unnatural heat and relieves pain; and in many cases of long standing it has been effectual when other valuable medicines had failed to produce an effect. The active principle of this medicine is a volatile oil which is mostly lost by the old process of boiling. Hence it requires great care and skilful management to prepare this medicine properly.

FLUID EXTRACT OF BUCHU is a strong or concentrated preparation prepared by the same Concentrated preparation prepared by the new process called 'Displacement." By this the valuable properties of the Bucha are entirely preserved and this form of the medicine is less liable to injury from age and more pulateable. Useful equally in all cases of the kind whether male or female. Price 75 cents per bottle. For sale at Roy's Drug and Chemical Store at Wellsboro Pa.

THE ACKNOWLEDGED

CHAMPION. THE RECENT TRIALS at Reading have endorsed the current of public opinion, and confirmed the verdict of more than 200 accdental fires, proving conclusively that "Herring's" is the ONLY SAFE that will not burn.

Extract from the Committee's Report on the Trial of Iron Safes at

Port on the Trial of Iron Safes at Reading "On the 26th of February all the members of the committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right. The day following, the burning took place, under the superintendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messrs Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs Farrels & Herring were in good condition, and no fire Inside."

Only Makers in this State of Herring: Putant Champion Safes.

The attempt made by other parties to bolster up the reputation of a Safe which has failed as signally in accidental fires in Philadelphia, (Ransteal Pince,) by taking one out of an agent's store, (H. A. Lantz,) made double thickness, different from those they sell) to "burn up" one of Herring's, (half as thick) has met with its true reward. Herring's Safe could not be barnt, proving conclusively that the only reliable Safe now made is "Herring-" of which over 15,000 are now in actual use, and more than 200 have been tried by fire without a single loss.

July 13, 1857. 1y.

Truth is Mighty and must Prevail. Report of the Committee appointed to superintend the Burning of the Iron Safes, at Reading, Feb.

"The undersigned, members of the committee, do respectfully report, that we saw the two Safes origi-nally agreed upon by Farrels & Herring and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the Paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books

and papers precisely alike.

The fire was started at 8½ o'clock, A. M., and kept up until four cords of green hickory, two cords kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the Committee. The Safes were then cooled off with water, after which they were opened and the books and papers taken out by the Committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the Safe manufactured by Farrels & Herring, were in our judgment, damaged fully fifteen per cent more than those taken from Evans & Watson's Safe.

FOR THE RAPID CURE OF COLDS, COUGHS, AND HOARSENESS.

BRIDGHILD, MASS., 20th Dec., 1855.
DB J C.Avra: I do not hesitate to say the best remedy I have ever found for Couphs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.
