steamer Ethiope, from the coast of Africa, arrived at Plymouth at midnight last night. In consequence of information received in Monrovia, Commander Craft left in the Ethiope, on the 14th of April and on the 15th fell in with the French ships Coeli Regina, 420 tons, in the possession of a large number of negroes, who were not able to manage her. After a parley, the second officer of the Ethiope, with part of the crew, went on board when 250 of the negroes swam ashore, where nearly the whole were murdered by the French ship and natives. It appears that the Celi Regina, which is completly fitted for the slave trade, had been cruising for a month near Cape Palmas, and under pretence of taking them to a better place, had secured 500 negroes, who were immediately placed between decks, many of them in irons. When Captain Simon was ashore at Manna, on the coast of Liberia, and part of the crew in a boat alongside, the negroes procured firearms and shot all but the Doctor and two of the seaman, whom they retained to steer the ship. Capt, Simon came within gun shot several times afterwards, but was not allowed to come on board. the Cœli Regina was towed to Monrovia, where she was left in possession of the purser of the Ethiope.

ROMANCE IN REAL LIFE .- The Montrose Review tells the following story:-"In the year 1814, a native of this town took passage on board a steamer at Liverpool, to proceed to Scotland. Soon after the steamer left the dock gates, a young lady accidentally fell overboard, and was rescued from a watery grave by a young Scotchman, who jumping overboard with a life preserver, brought her safely on board the steamer. During the passage, she was asked what recompense she intended making her preserver, when she modestly replied that all she could do was to bestow on him her hand; but, much to her grief, she was informed that, he was a married man. After a lapse of fourteen years, ten of which she had been living with her brother in New York, Miss----felt inclined to return to Scotland, and on her arrival, immediately set to work to find out her kind preserver, which she succeded in doing; and finding him to be a widower, at once offered him her hand and heart which. ras accepted."

On Friday last, the engineer of a fast rain was arrested by the authorities of a one horse town," in Dauphin Co., Pa., for running through the Boro' at a greater rate speed than is allowed by their ordinances. Having neglected, however, to give publicity othese ordinances, they could not impose any fine, and their discomfiture was aggrarated by the malicious excuse of the engineer, hat--"he didn't know there was any town there!" This, we think, was adding insult to ınjury.

The Charleston Courier's Key West corespondent says that Lieut. Pym asserts hat the reports of the outrages on American vessels have been much exaggerated, and in many instances false. The account of the seizure of the ship Cortez was an instance of the grossest exaggeration; the Captain of that vessel, when overhauled, threw his papers and flag into the sea, declaring himself a Spaniard. Contraband articles were found aboard which showed her to be a slaver, and the was accordingly sold as such.

GARLICK'S
Improved Portable Field Fence. NEW GOODS Patented by Isaac D. Garlick, Lyons, NEW GOODS

Wayne Co. N. Y., May 5, 1857. The patentee of this Fence, after numerous trials and experiments, has finally succeeded in perfecting a plan for the construction of Fence, which does away with the necessity of inserting posts in the ground. The above Fence is made to set upon the natural face of the earth, and by its peculiar formation will conform to the undulations of the ground. The mechanical mode of its construction convinces all who examine it of its superiority over anything all who examine it of its superiority over anything of the kind ever offered to the public, as well as of its durability, simplicity and chhapness. It is so put together that it is secured by means of keys, which are easily adjusted, and battens by which it is kept strained to the ground, so that no trouble need be apprehended from winds.

This fence can be built of lumber at \$10 per thousand for the sum of 50 cents are red—making.

thousand, for the sum of 50 cents per rod—making it by far the cheapest fence that can be made; and the case with which it can be put up and taken down, moved, made into stack pens, or used temporarily for any purpose the farmer may require it—no less than the fact that at each joint an opening can be made, thus obviating the necessity for bars or gates—must render it a universal favorite with the farm-

ing class of community.

PREMATURE DECLINE. Just Published, Gratis, the 50th Thousand.

A FEW WORDS ON THE RATIONAL Treatment without Medicine, of Spermatorthea or local Weakness, Nocturnal Emissions, Genital and Nervous Debility, Impotency, and Impediments to Marriage generally, by

B. DE LANEY, M. D.

The important fact that the many alarming complaints, originating in the imprulence and solitude of youth, may be easily removed WITHOUT MEDICINE, is in this small tract clearly demonstrated; and the entirely new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled, to cure HIMSELF perfactly and at the least possible cost, thereby avonding all the advertised nostrums of the day.

Sent to any address, gratis and post free in a scaled envelope, by remitting (post paid) two postures stamps to Dr. B. DE LANEY, 88 kast Jlai street, New York City.
