Canvass in Hilmois, Mr. Douglas has opened the campaign in

Illinois by a speech at Chicago, in which he takes direct issue with the noble Republicans of that State, and makes: open war upon them and their principles. He permitted himself to assert that the Union could not exist if the doctrine avowed by the Republi-cans of that State, and maintained so nobly by Mr. Lincoln, that Congress has power to prevent the extension of Slavery and ought south half that distance, to exercise it, should prevail. This seems to us supremely silly. It would be simply ridiculous if uttered by some puny demndegree. The government of the United States was conducted upon that principle and during all that time the Union reposed more firmly upon its foundations than it has done since it was abandoned for the new-fingled doctrine of squatter sovereignty. The country was never so near the brink of danger as it has been under the practical opera-tion of the new doctrine as administered by democratic exponents of it in Kansas. We have no hesitation in expressing our preference for the principle under which the government was so safely administered by Wash. ington, Adams, Jefferson, Madison and Jackson, over the substitute as administered by Pierce and Buchanan. The five Northwestern States, together with Iowa and Minnesota, have come into the Union without a murmur of resistance or shadow of trouble, under the broad principle laid down by the republicans of Illinois; whilst Kansas, the illustration and embodiment of the doctrine of, Mr. Douglas, has been the victim of constant war and bloody contest, and is to be the theatre of a to the decision of the Republican Convention. prolonged future conflict before it is martherefore, as Mr. Douglas does, that the doctrine of Washington, Jefferson and the fathers of the Republic, which has operated so peacefully, is dangerous to the safety of the finon-and that the Union can be saved only by maintaining a principle which, so far. has eventuated only in blood and in the bitter hosplities of a sectional conflict, is simply to expose the weakness of his position. long as Mr. Douglas warred upon the Buchanan wing of his party, he was not only fight the Republicans, he betrays a weakness which is fatal to him. The campaign, however, is opened, and it

is to be a warm one. Mr. Lincoln, his competitor for the Senate, is ready to follow Mr. Douglas throughout the State and to combat his arguments on every stump. The two men are well pitted, and it will be the struggle of two giants for the mastery. That
Lincoln will be the victor we do not entertain
a doubt.—Pittshura Gazette a doubt .- Pittsburg Gazette.

has occurred in Monroe county, Ark., which shows how strong a chain of circumstances can arise against an innocent person. Two men, named Passmore and Lewis, had rafis contiguous to each other, in While river. An oar escaped from the raft of P., and lodged in the neighborhood of that of L., who secured it, and the former had the latter arrested for stealing it, but he was acquitted. Very naturally L. gave vent to some hard words against P. The latter did not resent them, but vowed to give L. "a hot bed in hell before three days." A short time after, Pass. more was seen going in a canoe towards Lawis's raft armed with a double-barreled shot gun and a Bowie-knife. When about sufficient time had elapsed for P. to reach L.'s mill in Clarendon, close by, but as he did not ly are invited to attend on the occasion do so, suspicious of something wrong were excited, and a number of persons went to where the raft had been, but it was gone, an no traces of anybody connected with it could be found. Some weeks after this period, a man going up the river found, in some drift wood, a body, whose size and dress answered a description of Lewis's. The body had in " buckshot holes and stabs. Passmore was arrested and held in heavy bail. Shortly afer this, the steamer Sam Hala arrived at Carendon, and the pilot Bateman, and Caplaa Doughery, cleared Passmore of all And by the way, let us say to you that you need have no fear of getting Old Goods. Lewis at Napoleon three weeks after the occurrence, and that the boat had paid him money that had been owing him. Passmore was of course discharged.

TERRIBLE ACCIDENT .- We are pained to nnouncee the occurrence of a sad catastrophe, the result it is to be feard, of carlessness. It appears that about noon on Tuesday last, five men and two boys ascended the shaft at the Thomastown collery, in a car resting on a cage. When within a few inches of the top, a pin, upon which the cage resis when it reaches the top, was pulled out 100 soon, and the car was not on a level with the platform sufficiently to permit it to rolled off the cage. In this position two the wheels of the car were rolled off the ege; but it was found impossible to get the other wheels off. A signal was given to the the cage, to hoist it a little. Unfortunate-"was hoisted too high; the car tilted, was estirely from the cage, and the next located with its freight of precious lives, conising of four men and two boys, was dashed down the shaft, a perpendicular depth of two hundred and forty feet. The remains of the unfortunate man and how we have the remains the unfortunate men and boys were, after the occurrence, removed to the surface in a theckingly mutilated condition. Two of the men killed, named Sullivan and Kenwich, take lamilies. The other two one of whom as named Brennan, were unmarried. The The Two boys we have not learned. This is one of the most terrible mining accidents which has ever happened in this country, and we grieve to say that it is one allibutable alone to carlessness. If miners hemselves would only, be as a body, carelul as their employers and bosses are solicilous for their safety, we should not be called upon so ofien to note these distressing casu-Alies. Miners Journal.

The man who courted an investigation tys it isn't half as good as courting an aflectionate girl.

The amount of rain that has fallen over a large portion of the United States in six weeks, running from the 1st of May to the 12th of June, has scarcely a parallel. The Pittsburgh Journal says the average of observations will give about 10 inches in May and 2 inches to the 12th of June, or 15 inches in 43 days. These rains do not appear to have been local but extend east and west at least 1000 miles; north and

SUICIDE OF A PHYSICIAN .- On Friday Dr. O. D. Wilcox committed suicide at El gogue; but in the mouth of Mr. Douglas, mira, N. Y. He had amputated a leg for a who knows better, it is silly in the highest man by the name of Hammond, in the town of Chemung, who soon afterwards died. Dr. W. was charged with mal-practice, and crimifrom 1787 to 1847—a period of sixty years, nal proceedings instituted against him, and immediately after the Sheriff served the papers on him he took some deadly poison, and died in half an hour.

Wellsboro, May 27, 1859. GARLICK'S Improved Portable Field Fence.

Patented by Isanc D. Garlick, Lyons, Wayne Co. N. Y., May 5, 1857. Wayne Co. IV. Y., May 5, 1851.

The patentee of this Fence, after numerous trials and experiments, has finally succeeded in perfecting a plan for the construction of Fence, which does away with the necessity of inserting posts in the ground. The above Fence is made to set upon the na nral face of the earth, and by its peculiar formation will conform to the undulations of the ground. The mechanical mode of its construction convinces all who examine it of its superiority over anything of the kind ever offered to the public, as well as of its durability, simplicity and chhapness. It is so its durability, simplicity and chhapness. It is so put together that it is secured by means of keys, which are easily adjusted, and battens by which it s kept strained to the ground, so that no trouble

need be apprehended from winds,
This fence can be built of lumber at \$10 per
thousand, for the sum of 50 cents per rod—making
it by far the cheopest fence that can be made; and the ease with which it can be put up and taken down, moved, made into stack pens, or used temporarily for any purpose the farmer may require it—no less than the fact that at each joint an opening can be made, thus obvioung the necessity for hars or gates -must render it a universal favorite with the farm-

ing class of community,

The Subscriber has purchased the territory comrising Charleston, Delmar and Wellsboro, and will devote himself to the disposal of farm rights.

RICHARD W. JACKSON.

Delmar, June 17, 1858.

THE Subscriber is selling this valuable Machine, and invites all who want a really good Mower and Reaper, to examine it before purchasing any other machine. It is superior to all other Mowers and Reapers in use, in the following particulars: It is the lightest in use; is strong and durable; requires less draft than any other machine; has no side draft that the target will work any other machine; side draft the it cuts a wide swath: will work on rough ground where no other machine can follow it; very difficult to be clogged in any kind of grass, be it wet or dry; is simple in construction and not lia-b'e to get out of repair; is a perfect combined machine; working equally well, whether mowing or resping; and is the CHEAPEST in price, the Mower being only \$100, and the combined machine \$120 -making it altogether the most desirable Mower and Reaper in market. Call at the Tin and Stove Siore and examine for yourselves.

## The Young Flying Morgan.

The Young Flying Morgan.

HIS splendid horse was sired by the justly celebrated trotter,—
"Flying Morgan" the pride of Vermont horse breeders, and does credit to the unequalled stock from which he sprang. His dam was a Messenger mare, a stock second only to the Morgan in all that constitutes excellence in the horse. For strength, speed and endurance, this stock of horses has never been surpassed. Young Flying Morgan is seven years old, 15½ hands high, and weighs 1100 lbs. He can trot his mile inside of three minutes, and was a warded the first premium for speed and general excellence, at the Windbam Co. Fuir, held at Bratt.o-

#### TO THE LADIES! A New Kind of Soap

persede all other kinds of hard soup. It is used extensively for washing clothes, and possesses the retensively for washing clothes, and possesses the remarkable property of extracting dirt without boiling the clothes and without the use of the rubbing board. The process of washing requires less than half the time, and only about half the labor, by using this Patent Soap. This article is peculiarly excellent, and superior to any thing else called Soap; because white it saves time and labor, it never rots or injures the clothes. It is just the article it is represented to be, and never disappoints the expectations of purchasers. It does not take out stains. For sale at Roy's Drug Store, Well-boro, Ps.
