Douglas and Lincoln have had their first polest of the campaign. They met at nitest III. last Saturday, and measured Douglas was nervous, almost franand used some very harsh terms. His onent was cool, deliberate, argumentative, gendemanly in his bearing, and as a gentieman, in societal advantage of adversary. Douglas was guilty of a herate meanness. He attempted to palm on his hearers a series of resolutions that d been passed by an Abolition county conand neen passes years ago, as the platform ntion, a 16 praction of the praction of the praction of the lilinois Republicans at their dopted by the Indian in 1854. He was contate Contempled deception, and thus loted of the hands arraigned before the public for the ands arranged strong as base as a forgery Must not his friends, who are possett. All the least of honorable feelings, feel hamed of their leader? In the evening the nublicans of Ottawa held an enthusiastic eging; the Democrats, skulked off into the ark corners. Lincoln and Douglas have te other meetings during the campaign.

A PEACEFUL TOWNSHIP .- In Lewis townhip, Clay county, Indiana, they have a sort foretaste of the millenium. It has within limits one hundred and seventy families. white except one, and they keep dark hould. There are one hundred and sixtye voters, and during the last twenty years ere has been no fight or quarrel at any lection held in the township. It contains even school houses, seven road districts, ven bachelors and seven large men; three purches, three preachers, three pair of twin ors, three fiddlers, three carpenters, three ost offices, three crazy men, and three over eventy-five years old. There is not a lawer, doctor, or loafer in it, nor a grocery nor auper. A better, friendlier, happier populaon is not to be found in the State.

In the vicinity of Wolcottville, Ct., in the ally which lies between Torrington and orringford, on Friday, the 6th ult., was an shibition of the power of the electric fluid arely, if ever, surpassed. It entered a hemock tree two and a half feet in diameter and bity-five feet high and so completely did it emolish the tree, that not a fragment of it remained which a boy might not have laid she shoulder. The mass of the tree, was regally reduced to splinters, which covered he ground in every direction for distance of selve or fifteen rods from where the tree had stood. Entering the ground, the fluid lowed three deep furrows in different direcions, throwing from their beds large stones, and excavating a hole in the earth some echteen inches in diameter.

SAND'S, NATHAN'S & CO'S THE CIRCUS CORPS:

AMERICAN CIRCUS. And Great Elephant Exhibition.

The fame of this unparalleled establishment has, of course penetrated to this section of the United States long since, and the Managers have the pleasure of bringing their Star Artists and Star Animals bodily before this community that they may be assured that all which has been said of their almost incredible feats is really true.

6 TRAINED ELEPHANTS.

Among which are the unparalleled Performing Elephants VICTORIA & ALBERT, are prominent in their entertain ments. Among their performances are the following: they ASCEND AN INCLINED PLANE 30 feet long and but to ASCEND AN INCLINED PLANE 30 feet long and but 9 inches wide, and one of them at the summit; ten feet from the ground, BALANCES HIMSELF ON HIS HEAD! They evince their superior training and sagacity, also, as well as the musical susceptibility of their remarkable species, by keeping perfect time with music, when they WALTL DANCE SINGLY, MARCH, EXECUTE FEATS OF GYMNASTICS, Posturing and Play on the Hand Organ! Nothing like these exploits have ever before been tanght to animals originally wild! That animals so ponderous and generally considered clumsy, should enact such deeds hitherto regarded physically impossible to them, may well excite incredulity. But these statements are facts. Mr. Richard Sands, the well known senior proprietor, outbid all competitors at the great sale in Paris, where they were performing at the Port St. Dennis.—They cost him an enormous sum, but the expensive venture was warranted.

The Calliope,

OR MAMMOTH STEAM MEMNONEON, is another great woulder of this Show. It is the most powerful and melodious of all musical instruments, cost \$6,000, and is capable of playing any musical composition, either Operatic or other wise. It is supplied with steam, by an Engine, and an accomplished Artist presides at the keys, which are like those of the piano. The voice of this MUSICAL MARVEL may be distinctly heard for ten or twelve miles. It has created an intense sensation wherever heard, and is the climax of all modern Musical Inventions. Two gorgeous and capacious Chariots contain the Mennoneon and Steam Engine.

Twelve Shetland Ponies.

Of distinguished beauty and perfect training, accompany this Show. Their performances have never been equalled. They were imported by Mr. R. Sands; and have an equal fame in Europe and America.
