In Springfield, Bradford county, Monday morning, 13th inst., IDA, daughter of Andrew and Sarah Crowl, of this village, aged 8 years.

(She left home on the Friday previous in charge of some relatives residing in Bradford county, and while descending a hill two miles west of Springfield Centre, on Saurday, the horses took fright and ran away, throwing the occupants from the carriage and injuring the subject of this notice fatally, and two others seriously. IDA was taken up insensible, in which state she lingered until Monday morning, when her gentle spirit took wing for the Better Land.

IDA was one of those quiet and womanly children whom to see is to love. She jewas a womanly child when we first knew her, four years ago, quiet, unobtrusive, yet not averse to the sports and pastimes of childhood. She is taken in the morning of her youth and beauty, and her vacant place will wring the hearts in which her sweet face will never grow old; but let the beruved parents be comforted in the knowledge that she has escaped the bitter sorrows and the buffetings of an existence chequered at the best.

# CATHARTIC SYRUP.

Physicians often wish for a mild, safe and reliable medicine which can be used as a sub-stitute for Castor Oil as a cathartic, and which at the same time is pleasant and palatable and well adapted to children. Such an article is here offered to physicians and to the public generally, under the name of Cathartic Syrup. The dose is about the same as that of Castor Oil, and should be varied to suit the age and constitution of the patient. It is carefully and accurately prepared, (by displacement, like the Fluid Extracts,) according to the best rules of modern Pharmacy, from the more mild and pleasant vegetable cathartics, as senna, rhubarb, &c. As far as it has been tested by practicing physicians, it has re-ceived their unqualified approval.

Though not always necessary, yet it generally best to shake the bottle before ouring out the dose.

The Oxygenated Bitters,

The Cxygenated Bitters,

For the cure of Dvspersia on Indicastron, Liver Complaint, Asthma, Costiveness, Loss of Appetite, Fever and Ague, Heart Burn, Water Brash, Acidity, Sea Sickness, Scurvy, Nausea, Hesdache, Ennni, and General Deblity, or any disease having its origin in imperfect digetion.

These Bitters, as all classes of our fellow citizens, including Members of Congress, Lawyers, Physicians, Clergymen, Planters, Farmers and others testify, are the only safe, certain and sovereign spectro for the immediate relief and permanent cure of the many cruel complaints which in some phase or other of Drspersia afflict our race.

These Bitters were discovered by Dr. Grong B. Green, and in their formula differ entirely from that of any other preparation of medicine. Containing no alcohol—no mineral—no poison—no noxious drug,—in their nature tonic, not stimulating,—retaining their virtues in any clime; they are a "combination and a form indeed" of Medicine which knows no rival in exterminating disease and restoring the system

a "combination and a form indeed" of Medicine which knows no rival in exterminating disease and restoring the system to its prigitine vigor and health. No matter of how long standing, or however induced or chronic in its character the disease may bee-no matter that it has baffled the \*kill of the physician, and resisted the efforts of Medicine, a slugle trial of these Bitters will satisfy the sufferer that his disease is amenable to the proper remedy.

In testimony of the many cures effected by this Remedy reference is had to the written certificates from distinguished individuals known all over the land.

To the People of Tioga County:

YIELDING to the carnest solicitation of numerous triends and acquaintances, I announce myself as an INDE-PENDENT CANDIDATE for the office of Sheriff. I rely upon no party exclusively for support, but appeal directly to my fellow citizens. If they prefer to give me their votes, I shall be grateful; if they see fit to vote against me, it is their privilege to do so, and I shall not complain. Should a majority of the people, setting aside party distinctions and prejudices, come to my support, and elect me Sheriff, I will discharge the duties of the office to the best of my ability, remembering always that every man has rights, and that wealth and power are no excuse for the practice of injustice and oppression. NEW ENGLAND SETTLEMENT.

ARE OPPORTUNITY.—TO ALL WANTING PARMS—in a healthy place, twenty-five miles from Philadelphia on the Camden and Atlantic raitroad, New Jersey. An old estate has recently been opened for sale, and the first division of 10,000 acres divided up into farms of twenty acres and upwards. The soil is of the best quality for the production of fruits, grains, &c. The price is \$15 to \$50 per acres, payable in easy quarter yearly instalments, within a term of four years with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are creeting large improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy-five houses have been built in four months. Practical farmers and business men from the length and breadth of the Union are settling thera. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale, The water is oxcellent, and no such thing as fever is known.

The soil is a sandy or clay loam, with a clay bottom and retentive of manures. It is free of atones and easily worked It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops most adapted to its market.

The reader may be well aware that the earliest and the NEW ENGLAND SETTLEMENT.

that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops most adapted to its market.

The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of deliars. The land, besides being accessible in every way for fertilizers, has an ebundant supply of the best quality of muck manure.

Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brickyards being started on the ground. A person can put up a frame tenement for present convenience for one hundred döllars. On account of the extensive emigration, this is the best curse to pursue in order to gets place to live in at first. Carpenters and utiliders are on hand to put up houses on the best terms.

In settling here the emigrant has many advantages. Ho is million to be the great cities in the Middle States and New England; he is near his old friends and associations; he is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of young and hardy in far off regions away from bome and friends.

Bestides, he has a mild climate and an open winter.

There are three trains daily to Philadelphia, and toall those who improve the Railroad company gives a free ticket.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and utiless these statements were correct, no one would be invited to examine the land before purchasing.—
