utal Treatment of a Deserter. A Texas correspondent of the Louisville deserter from Camp Colorado, who had deserter mode. He was a native of Louis-

Young Harrington was enlisted for the cond Cavalry, but deserted, and was bro't conu Cavany, Lek to Fort Smith. The citizen who brought ing him a morthful to eat.

Capt. N. G. Evans, of this regiment, was gale of the wagon. At that time his ould not bend them.

The sentry who was put over him, says hat for more than one hundred times the all which was attached to him by a chain and placed in the feed box, would, when the agon came out of a hole or slid off a rock, erk his feet from under him, and all his reight would come on his wrist, and his reast striking the feed-box. The sentry, who saw that the man was almost dead, took the responsibility to let him get in the wagon out of the sun and dust, and give him water odrink. He began to entiven and feel beter, when the sergeant of the guard came up and raised h-I, and made the sentry tie the poor fellow up again. He did not go more han three miles before the sergeant, seeing that the man was almost dead, ordered him to be cut down, and before he reached the ground, he breathed his last.

Harrington's breast was beat almost to a elly, and his back, from his neck down, was s black as could be. He told them in the morning, that if he had to walk that day, ied to a wagon, he would be a dead man hefore night. He begged, prayed them to shoot him and put him out of his misery.

A Man in a Well. Charles River Village, July 29, 1858 .-

In South Natick on Tuesday morning last Mr. Nelson Travers, who had contracted to build a brick well for a new house owned by Mr. Cleveland, and had dug to the depth of 17 feet, ascertaining that water would soon be reached, began to lay part of the bricks about half-past 8 o'clock, to be sunk as the well was dug deeper. He had worked but a short/time, when the earth, which was of a sandy kind, fell upon him. It did not enurely cover his body, and being a powerful man he succeeded in extracting himself, except one leg. His assistant, who had remained at the mouth of the well then gave the alarm. The meeting house bell was rung, and in a short time almost every ablebodied man in the town, and many ladies came to his assistance. A headless cask was let down, with which Mr. Travers prevented any accumulation of sand upon him. Under direction of Mr. Hammond of North Natick an experienced well digger, and Mr. Asa. Caswell, of South Natick, a carpenter, the people set to work, with a hearty good will, as many as could work to advantage being relieved by fresh gangs at short periods. When he was almost extracted a second slide took place and buried the man up to his mouth. But the work of liberation was pushed forward with vigor; the underpinning of the house, distant only a few feet, and an unfinished chimney, with the earth between them and the well were removed, and the in was liberated about four o'clock in the afternoon, although about fifteen minutes previously another slide had partially covered two or three of his liberators with sand,-Through all these delays Mr. Traverse showed undaunted courage, giving directious to facilitate his release, and taking refreshments when it could be got to him. While his liberators, as above, were extricating themselves, he, having previously loosened the earth inside the cask, filled with earth a tea kettle, which could parely be passed, and which was raised and lowered by a friend, thus aiding his liberation .- Cor. of the Boston Advertiser.

THE GRAVE OF FRANKLIN .- A number of workmen vesterday morning began the work of demolition on the brick wall at the Christ Church burying ground, at Fisth and Arch streets. The wall as has been already stated, is to be removed for the purpose of allowing the grave of Franklin to be seen from the street. Sixteen feet of the wall are to be taken down, and the space occupied by a neat iron railing. The work will be completed in the course of a few days. The two panels of the wall will be removed, leaving a space 16 feet in the clear, which will be occupied by a neat and plain iron railing. The railing will be flanked with the original heavy columns which now intersect the panels of the wall, and these columns will be surmounted with the stone balls corresponding with the original ornaments upon the corners and at the gateways of the ground. The railing, the top of which will be the same height as the wall, will rest upon a neat marble base some ten or twelve inches in height. This arrangement will enable persons to look directly in upon the humble flat stone that covers the grave of "Benjamin and Deborah Franklin." It is probable that the work will be accomplished in a few days .- Philadelphia Inquirer.

ABOUT NEWSPAPERS .- It is computed that there are nearly four thousand newspapers published in the United States, which circulate annually over 200,000,000! Nearly 830,000,000 dollars are expended in their publication.

Think of that ! Thirty millions of dollars spent every year by newspaper publish ers. Why not set up a clamon for "protection," as the iron masters do? The Printing business gives more employment to men and capital than the iron business and we are entitled to "protection"-from dishonest subprinters 30 per cent. Who's in for that?

Dr. Wistar's Balsam of Wild Cherry.

Dr. Wistar's Baisam of Wild Cherry.

WHERE the above preparation is known, it is so well established as an infallible Remedy for the cure of-Covoins, Colds, Sore Trigon, Hoadseness, Bronchitis, Spiring of Blood, Pain in the Brash, Chour, Whooping Coung, and every form of Pulmonary Complaint, that it were a work of supererogation to apeak of its merits.

Discovered by a celebrated physician more than twenty years since, it has by the wonderful cures it has effected been constantly appreciating in public favor, until its use and its use and its reputation are alike universal; and it is now well known and cherished by all (ahd their "mane's legion") who have been restored to health by its use as the Great Remedy for all the diseases which it professes to cure.

Sir James Clarke, physician to Queen Victoria, has given it as his opinion that

CONSUMPTION CAN BE CURED.

CONSUMPTION CAN BE CURED.

The whole history of this medicine fully confirms the opinion of that eminent man. Thousands can testify, and have testified, that when all other remedies had failed, this had completely cured; that when the sufferer had well nigh despaired, this had afforded immediase relief; that when the hysician had pronounced the disease incurable, this has removed it entirely.

The virtues of this Balsam are alike applicable to cure a slight cold or a Confirmed Consumption, and its power as a safe, certain, speedy, pleasant and effectual remedy cannot be equalled.

Read the following Letter:

Gentlemen: Having used Dr. Wistar's Balsam of Wild Cherry in my practice with great success, I most cheerfully recommend it to those afflicted with OBSTINATE COURS, COLDS, or Asthma. (Signed.)

The Oxygenated Bitters.

For the cure of Dvsfrfsia of Indiaestion, Liver Complaint, Asthma, Costiveness, Loss of Appetite, Fever and Ague, leart Burn, Water Brash, Acidity, Sea Sickness, Scurvy, Nauséa, Headache, Ennui, and General Debility, or any discuss having its orien in imperfect diaestion.

Heart Burn, Water Brash, Acidity, Sea Sickness, Scurvy, Rauska, Headache, Ennui, and General Debility, or any disease having its origin in imperfect digestion.

These Bitters, as all classes of our fellow citizens, including Members of Congress, Lawyers, Physicians, Clergymen, Planters, Fathers and others testify, are the only safe, certain and sovereign spectra for the immediate relief and permanent cure of the many cruel complaints which in some plasse or other of Dyszersia afflict our race.

These Bitters were discovered by Dr. George B. Green, and in their formula differ entirely from that of any other preparation of medicine. Containing no alcohol—no mineral—no poison—no noxious drug,—in their nature tonle, not stimulating,—retaining their virtues in any clime; they are a "combination and a form indeed" of Medicine which knows no rival in exterminating disease and restoring the system to its pristine vigor and health. No matter of how long standing, or however induced or chronic in its character the disease may be—no matter that it has baffied the skill of the physician, and resisted the efforts of Medicine, a single trial of these Bitters will satisfy the sufferer that his disease is amenable to the proper remedy.

In testimony of the many cures effected by this Remedy reference is had to the written certificates from distinguished individuals known all over the land.

From among the many letters we are constantly receiving

ARR OPPORTUNITY.—TO ALL WANTING FARMS—
In a healthy place, twenty-five miles from Philadelphia on the Candien and Atlantic railroad, New Jersey. An old estate has recently been opened for sale, and the first division of 10,000 acres divided up into farms of twenty acres and npwards. The soil is of the best quality for the production of fruits, grains, &c. The price is \$15 to \$20 per acres, payable in easy quarter yearly instalments, within a term of four years with interest. The terms are made easy, in order to insures the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being excusively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a access of the greatest improvement out of Philadelphia. Seventy-five houses have been built in four months. Practical farmers and business men from the length and breadth of the Union are settling thera. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale, The water is excellent, and no such thing as fever is known.

The soil is a sandy or clay loam, with a clay bottom and retentive of manures. It is free of stones and easily worked it abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops most adapted to its market.

The roader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of doilars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the best quality of muck manure.

Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brickyards being NEW ENGLAND SETTLEMENT.
