Flood in Mifflin County.

We mentioned that on Wednesday night the rain came down in torrents, and that a young man named Adam McCurdy had lost his life on a fish basket. The circumstances attending his death were of the most harrow. ing kind, he having held on to the basket for two long hours, which must have been years to him on the brink of eternity, during all which time the turbid waters were gradually rising higher and higher, until at last, conscious that his mortal career on earth was closing, he said, "Good bye-I can hold on no longer," and was swept into eternity .-The young man who had been with him succreded in reaching the shore when the water first rose, and gave the alarm. Several neighbors were soon gathered on the shore, Lee Robert 2 and various ineffectual efforts made to rescue him-among them an attempt to swim a horse, throwing ropes, &c., but the only method that could have saved him was unhappily not thought of, namely, carrying a tope across the bridge, and, with persons on each side of the stream, moving upwards until it would have come in contact with his body. The creek and dams were searched mall directions for his body, during Thursday, Friday, Saturday and Sunday, but with the exception of his overcoat, which was hooked up on Sunday, no trace of him was Conrad William decovered until Tuesday morning, when Jon-athan Barroll, a colored man, residing at the Edwards C. SINGULAR EFFECTS OF A THUNDER STORM. Thunder storms appear to be an excellent remedy for matrimonial disputes—at least 10 the neighborhood of Yvetot. A man and his wife, who had been separated for about a Year, had agreed three days ago to meet in that town in order to settle some money matters in presence of a notary. They happened to meet on the road which led from their village to Yvetot, and commenced exchanging sundry compliments, which promted to take a more practical turn, when a tremendous peal of thunder checked the ex-Uberance of their sentiments. Fear succeed ed to anger—the woman's tongue wagged fainler, while the husband's fist gradually opened. A second thunder-clap reduced both parlies to utter passiveness; but when an twfoi flash of lightning illuminated the sky, the woman lost all self command, and threw berself on the neck of her husband, who, epparently equally susceptible to electrical influence, clasped her in his arms, and vowed that nothing should separate them for the fulure. The reconciled couple turned their backs on the town, and returned to the husband's house in a pacific state of mind, which ill, it is to be hoped resist the counter influence of sunshine.—Galignani's Messenger.

At the Douglas Convention of Lasalle Co., the first husiness transacted was to take a Tole to allow one of the delegates to read an advertisement of a stolen horse. The sagacious owner knew exactly where to go to had the thief.—Louisville Journal.

GENERAL WINFIELD SCOTT, who is now stopping at West Point, met with a severe accident last week, which may confine him to his bed for some time. He was about attending a dinner party given by Colonel Delafield, when, on going down the stairs, his foot slipped and he fell to the bottom. Ow. ing to the bullet in his shoulder and the sword wound in his arm, he was unable to arrest his flight, and the fall was severe. To a person of his advanced years and large frame this is a most serious affair. The General was taken to his bed, cupped and leeched, and though he feels better, he is still suffering intense pain. This accident to the old General will be regretted throughout the country.

WHERE the above preparation is known, it is so well established as an infallible Remedy for the cure of—Courds. Colds, Sore Theoat, Hoadeness, Brockettis, Spitago of Supercogation to speak of its merits.

Discovered by a celebrated physician more than twenty years since, it has by the wonderful cures it has effected been constantly appreciating in public favor, until its use and its now well known and cherished by all (and their "name is legion") who have been restored to health by its use as the Great Remedy for all the diseases which it professes to cure.

Sir James Clarke, physician to Queen Victoria, has given its as his opinion that

CONSUMPTION CAN BE CURED.

The whole history of this medicine fully confirms the opinion of that eminent man. Thousands can testify, and have testified, that when all other remedies had failed, this had completely cured: that when the sufferer had well nigh despaired, this had afforded immediase relief; that when the plysician had pronounced the disease incurable, this has re-

moved it entirely.

The virtues of this Balsam are alike applicable to cure a slight cold or a Confirmate Consumenton, and its power as a safe, certain, speedy, pleasant and effectual remedy cannot be coupled: equalled.

NEW ENGLAND SETTLEMENT.

RARE OPPORTUNITY.—TO ALL WANTING FARMS—in a healthy place, twenty-five miles from Philadelphia on the Camden and Atlantic railroad, New Jersey. An old estate bas recently been opened for sale, and the first division of 10,000 acres divided up into farms of twenty acres and upwards. The soil is of the best quality for the production of fruits, grains, &c. The price is \$15 to \$20 per acres, payable in easy quarter yearly instalments, within a term of four years with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy-five houses have been built in four months. Practical farmers and business men from the length and breadth of the Union are settling thera. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale, the water is excellent, and no such thing as fever is known.

The soil is a sandy or clay loam, with a clay bottom and retentive of manures. It is free of stones and easily worked it abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere irribe production of crops most adapted to its market.

The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land, besides being accessible in every way for fertilitzers, has an abundant supply of the best quality of muck manure.

Lumber and building materials can be had on the spot at acheap price, from the mills. Other mills are now being opponent, and the province of NEW ENGLAND SETTLEMENT.

will be sent to each inquirer, and can be obtained at 20 chapper annum.

Title indisputable. Warraptee deeds given, clear of all incumbrance, when purchase money is paid. Route to the land:—Leave Vine street wharf, Philadelphia, for Hammontown by railroad at 7½, A.
