AN ADMINISTRATION CANDIDATE BEAT-EN.—The Territorial *Legislature of Ne-*raska met at Omaha City on Tuesday the 1st instant, and organized, after which the message of Gov. Richardson was read.—The administration Democracy nominated for speaker of the House *Mr. W. M. Flem-*ing, and the opposition nominated H. P. Bennet of Otoe. The *Republican* says that Mr. B. P. *Rankin* moved a resolution to in-corrogate thee candidates as to their political position, which resolution was supported by Mr. *Bennet* and some of his friends in order to meet the charge of being afraid to meet the issue. Mr. Fleming was first subjected to a *rigid cross examination, and under the* questioning of Messrs De Puy, Daly, Mason and others, was finally cornered to say that he sustained the Lecompton policy of the administration, indorsed the Dred Scott de-cision, believed that slavery existed in all the Territories, under the constitution, *and that the Territorial Legislature have no power to prohibit it!*

Mr. Bennet was subjected to the same test and acquitted himself to the satisfaction of his friends, after which he was elected spea-ker by a vote of 17 to 12 for Fleming.—The Lecompton Democracy engineered the movement, and were beaten at their own game.

SUCCESS OF THE STEAM PLOW.—The State Board of Agriculture of Illinois offered a pre-mium of $5000 for steam plows. It was expected that three different inventions would be exhibited and tested at the State Fair, but only one was on the ground. That was Fawke's *locomotive* steam Plow, Lancaster, O., which excited great interest among the intelligent farmers, and performed well. The machine apparatus, with fuel and water, weighs only about seven tons, and by the use of a drum or barrel-shaped driver, for propel-ling the locomotive, the difficulty of miring in soft soil, and slipping on hard, smooth ground is overcome. The steam plow is easily managed, and described as a cross be-tween a locomotive and a tender, combining the essential elements of both, mounted on the guiding wheels and a huge roller. The latter on the ground on which it was tried was baked as hard nearly as a brick, but the en-gine turned six furrows side by side in the best workman-like manner. The excite-ment of the crowd was beyond control, and the shouts and wild huzzas echoed far over the prairie.—*Ledger.*

LEAD VS. GOLD MINING.—Judging from the accounts which reach us of the success of the lead miners in Wisconsin and Iowa, the former promise better than the gold placers of California. In the neighborhood of Fair-play, Wis., two young men recently struck a little from which, at the latest advices, they were taking an average of 30,000 pounds of mineral per day. Within a very short time they have raised 3,000,000 pounds. Other lodes have been struck in the vicinity which promise a handsome yield. The Hoshon Range mines in Grant County, Iowa, are said to contain vast deposits of mineral, large quantities of which are being daily raised. There is an equally promising mine near Guttenberg, Clayton Co., Iowa, on the opposite side of the Mississippi and also at Fountain Hill, above Eagle Point.—Mining is being prosecuted in the bluffs around Dubuque with very encouraging results. The *Express* says that rich lodes are being struck daily.—*Chicago Trib.*

COUNTERFEIT QUARTERS.—We hear com-plaints of the greatly increased abundance of counterfeit silver coin. This is especially the case with quarters and dimes, of which an unusually large number are now in cir-culation. They are well calculated to de-ceive; but are easily detected by holding them to the light, when the edges not co-ated with the pure metal can be discovered. Also the counterfeit dimes the words "one dime" are larger than on the genuine. The quarters, in many cases have almost as clear a ring" as the genuine; in others, (like the silver eagles) the sound is *dead. Imlay & Pickett's Reporter, Sept. 29.*

The Oxygenated Bitters,

For the cure of DYSPEPSIA OR INDIGESTION, Liver Complaint, Asthma, Costiveness, Loss of Appetite, Fever and Ague, *Heart Burn, Water Brash, Acidity*, Sea Sickness, Scurvy, Nausea, Headache, Ennui, and General Debility, or any dis-ease having its origin in *imperfect digestion*.

These BITTERS, as all classes of our fellow citizens, includ-ing Members of Congress, Lawyers, Physicians, Clergymen, Planters, Farmers and others testify, are the only safe, cer-tain and sovereign SPECIFIC for the immediate relief and per-manent cure of the many cruel complaints which in some phase or other of DYSPEPSIA afflict our race.

These BITTERS were discovered by Dr. GEORGE B. GREEN, and in their formula differ entirely from that of any other preparation of medicine. Containing no alcohol—no miner-al—no poison—no noxious drug,—in *their nature tonic*, not stimulating,—retaining their virtues in any clime; they are a "combination and a form indeed" of Medicine which knows *no rival in exterminating disease and restoring* the system to its pristine vigor and health. No matter of how long standing, or however induced or chronic in its character the disease may be—no matter that it has baffled the skill of the physician, and resisted the efforts of *Medicine*, a single trial of these *Bitters will satisfy the sufferer that* his disease is amenable to the proper remedy.

In testimony of the many cures effected by this Remedy reference is had to the written certificates from distinguished individuals known all over the land.

From among the many letters we are constantly receiving we take the following:—

"GENTLEMEN:—I have used the *Oxygenated* Bitters in my practice with decided success in Debility and General Pros-tration, and I confidently recommend it in cases of General Debility or Derangement of the Digestive Organs.

Signed, F. H. WHITE, M. D.

Mansfield, Tioga Co. Pa., August 26, 1858."

This medicine has been used with like success by A. Hebard of Richmond; Miss Mary A. Snover of *Covington, and* Miss Catharine Beck of Liberty.

Hammonton Lands

NEW ENGLAND SETTLEMENT.

RARE OPPORTUNITY.—*TO ALL WANTING FARMS*—In a healthy place, twenty-five miles from Philadelphia on the Camden and Atlantic railroad, New Jersey. An old estate has recently been opened for sale, and the first division of 10,000 acres divided up into farms of twenty acres and upwards. The soil is of the best quality for the production of fruits, grains, &c. The price is $15 to $20 per acres, pay-able in easy quarter yearly installments, within a term of *four years with interest*. The terms are made easy, in order to insure the rapid improvement of the land, by enabling every industrious man to buy a farm. It is now being ex-tensively improved by good roads, and some of the best citi-zens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improve-ment out of Philadelphia. Seventy-five houses have been built in four months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale. The water is excellent, and no such thing as fever is known.

The soil is a sandy or clay loam, with a clay bottom and retentive of manures. It is free of stones and easily worked *It abounds largely in the phosphates*, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops most adapt-ed to its market.

The *reader* may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the best quality of muck manure.

Lumber and building materials can be had *on* the spot at a cheap price, from the mills. Other mills are now being open-ed, and brickyards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order to get a place to live in at first. Carpenters and builders are on hand to put up houses on the best terms.

In settling here the emigrant has many advantages. He is within a few hours' ride of the great cities in the Middle *States* and New England; he is near his old friends and as-sociations; he is in a settled country, where every improve-ment and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers *which make the graves of so many millions of young* and hardy in far off regions away from home and friends.—Besides, he has a mild climate and an open winter.

There are three trains daily to Philadelphia, and to all those who improve the Railroad company gives a free ticket.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing.—*This all are expected to do.* They will see the land under cultivation: they will meet persons no doubt from their own neighborhood; they will witness the improvements, and can judge of the character of the population. Persons should come prepared to purchase, as many are locating, and loca-tions are not held on refusal.

The Hammonton Farmer, a monthly Literary and Agricul-tural sheet, containing full information of Hammontown, will be sent to each inquirer, and can be obtained at 25 cents per annum.

Title indisputable. Warrantee deeds given, clear of all in-cumbrance, when purchase money is paid. Route to the land:—Leave Vine street wharf, Philadelphia, for Hammon-town by railroad at 7½ A. M., and 5½ P. M.; when there inquire for Mr. Byrnes. Boarding conveniences will be found. Letters and *applications can be addressed to S. B. COUCH-*LIN, 202 South FIFTH Street below Walnut, Philadelphia. Maps and information cheerfully furnished. [Sept. 9, '58.]

Wellsboro, August 12, 1858.

Dr. Wistar's Balsam of Wild Cherry.

WHERE the above preparation is known, it is so well es-tablished as an infallible Remedy for the cure of—COUGHS, COLDS, SORE THROAT, HOARSENESS, BRONCHITIS, SPIT-TING OF BLOOD, PAIN IN THE BREAST, CROUP, *Whooping Cough*, and every form of Pulmonary Complaint, that it were a work of supererogation to speak of its merits.

Discovered by a celebrated physician more than twenty years since, it has by the wonderful cures it has effected been *constantly appreciating in public favor, until its use* and its use and its reputation are alike universal: and it is now well known and cherished by all (and their "name is legion") who have been restored to health by its use as the Great Remedy for all the diseases which it professes to cure.

Sir James Clarke, physician to Queen Victoria, has given it as his opinion that

CONSUMPTION CAN BE CURED.

The whole history of this medicine fully confirms the opin-ion of that eminent man. Thousands can testify, and have testified, that when all other remedies had failed, this had completely cured; that when the sufferer had well nigh des-paired, this had *afforded immediate relief: that when* the physician had pronounced the disease incurable, this has re-moved it entirely.

The virtues of this Balsam are alike applicable to cure a slight cold or a CONFIRMED CONSUMPTION, and its power as a *safe, certain, speedy, pleasant and effectual* remedy cannot be equalled.

☞CAUTION! Purchase none unless it has the written signature of "I. BUTTS" on the wrapper, as well as the print-ed name of the proprietors.

Read the following Letter:

Gentlemen: Having used *Dr. Wistar's Balsam of Wild* Cherry in my practice with great success, I most cheerfully recommend it to those afflicted with OBSTINATE COUGHS, COLDS, or Asthma. (Signed,) H. G. MARTIN, M. D.

Mansfield, Tioga Co., Aug. 1858.

The *following persons have also derived great benefit* from the use of the GREAT REMEDY: Wm. Lawrence, P. M., Bailey Creek; John Fox, P. M. Mainsburg; B. M. Bailey, the well known temperance lecturer, and Thomas Jeriel a well known citizen of this county.

S. W. FOWLE & Co., *Proprietors, Boston.*
