WIRRE the above preparation is known, it is so well established as an infallible Remedy for the cure of-Coughs, Colds, Sore Theory, Harring of Blood, Pan in the Brast, Croup, Whooping Cough, and every form of Palmonary Complaint, that it were a work of supererogation to speak of its merits.

Discovered by a celebrated physician more than twenty years since, it has by the wonderful cures it has effected been constantly appreciating in public favor, until its use and its use and its reputation are alike universal; and it is now wolk known and cherished by all (and their "name is logion") who have been restored to health by its use as the Great Remedy for all the diseases which it professes to cure.

Sir James Clarke, physician to Queen Victoria, has given it as his opinion that

CONSUMPTION CAN BE CURED.

The whole history of this medicine fully confirms the opinion of that eminent man. Thousands can testify, and have testified, that when all other remedies had failed, this had completely cured; that when the sufferer had well nigh despaired, this had afforded immediase relief; that when the physician had pronounced the disease incurable, this has removed it entirely.

1858-59.

—The New York Tribuse, now more than seventeen yoars old, which was the first journal in the world that appeared regularly on an imperial eight-page sheet at so low a price as two cents, and which has attained the unpafaileted aggregate of more than 200,000 subscribers, respectfully solicits its share of the patronage which the Afetropolitan Press is henceforth to receive. It asks especially the patronage and active favor of Republicans—of those who hate all forms of oppression, and desire that every rational being shall be free to employ his faculties in such innocent manner as he shall deem best—of those who would extend Liberty and limit Slavety; but it further appeals likewise to all who took and labor for the return of National thrift, plenty, prosperity, through the Protection of American Industry by wisely discriminating duties on Imports—all who favor National Progress through internal development and melioration rather than by external agression and extension—all who would rather have the National resources devoted to the construction of a railroad to the Pacific than to the purchase or conquest of Mexico, Nicaragua or Cuba—all who would returned radically our present inordinate Federal expenditures by abolishing or immensely roducing the Army and Navy, and expending the money thus saved on works of beneficence which will endure to bless our children—all who profoundly realize that "Righteousness exalteth a nation," and that no real advantage can ever accrue to any person or community from acquisitions or successes achieved by means which contravens the laws of Federal Right. The free allottment of limited portions of the Public Lands to Actual Settlers thereon, and every hopeful plan intended to diminish the sum of human misery from dearth of employment or inadequate recompense—every scheme especially that seems to help the unfortunate by enabling and teaching them to help themselves—must command our earnest sympathy and cooperation.
